Wir Wollten Doch Frei Sein:

The Emotional Politics of the Alternative Left Joachim C. Häberlen, 2018-09-20 In the 1970s a multifaceted alternative scene developed in West Germany At the core of this leftist scene was a struggle for feelings in a capitalist world that seemed to be devoid of any emotions Joachim C H berlen offers here a vivid account of these emotional politics The book discusses critiques of rationality and celebrations of insanity as an alternative It explores why capitalism made people feel afraid and modern cities made people feel lonely Readers are taken to consciousness raising groups nude swimming at alternative vacation camps and into the squatted houses of the early 1980s H berlen draws on a kaleidoscope of different voices to explore how West Germans became more concerned with their selves their feelings and their bodies By investigating how leftists tried to transform themselves through emotional practices H berlen gives us a fresh perspective on a fascinating aspect of West German history

Roma Voices in the German-Speaking World Lorely French, 2015-05-21 The Roma are Europe s largest minority and yet they remain one of the most misunderstood and underrepresented Scholarship on the Roma in German speaking countries has focused mostly on the portrayal of Zigeuner Gypsies in literature by non Roma and on persecution during the Nazi period Rarely have scholars examined the actual voices of Roma to glean their perspectives on their social interactions and customs Without such studies the Roma appear passive in the face of their long and troubled history With a basis in theories of intersectionality subalternity and cultural hybridity *Roma Voices in the German Speaking World* rectifies this image of passivity by analyzing autobiographies folktales and novels by Roma thereby promoting a better understanding of the multifaceted and multifarious cultures alive today in Germany Austria and Switzerland In documenting their voices Roma writers unveil the large extent to which their personal lives their social interactions with other Roma and non Roma and the images they project of their values and traditions are highly influenced by gender and ethnicity Anthropological and historical studies have frequently portrayed Romani groups as displaying a patriarchal social structure with highly demarcated roles for men and women In contrast the significant parts that both men and women play in disseminating autobiographical fictional and historical narratives challenge this ubiquitous notion of largely patriarchal Romani cultures The insights that both sexes provide on the relationship between gender and ethnicity in the context of cultural taboos norms and expectations unveil the complexities and diversities inherent in any minority group and its relationship to the dominant society
