Ritual: Key Concepts in Religion Pamela J. Stewart,Andrew Strathern,2014-01-16 Ritual has emerged as a major focus of academic interest As a concept the idea of ritual integrates the study of behavior both within and beyond the domain of religion Ritual can be both secular and religious in character There is renewed interest in questions such as Why do rituals exist at all What has been and continues to be their place in society How do they change over time Such questions exist against a backdrop of assumptions about

development modernization and disenchantment of the world Written with the specific needs of students of religious studies in mind Ritual Key Concepts in Religion surveys the field of ritual studies looking at it both historically within anthropology and in terms of its contemporary relevance to world events **Dynamics in Circle Rituals** Hongyan Chen,2016 This study focuses on the issues of secrecy ambiguity and flexibility in what is known as the morning circle in German schools The morning circle has a longstanding tradition in the German school system and is widely practised Over the past twenty years this tradition has been the subject of increasing academic debates many of which have suffered from one sided viewpoints that reduce the morning circle to a warm up phase for the school day or a means of teaching language What has not been addressed in these debates is the initial notion of the circle as the primary feature of new education Petersen which challenged traditional educational ideas or the question as to why the morning circle has become so widespread in German schools today The Palgrave Handbook of Anthropological Ritual Studies Pamela J. Stewart,Andrew J.

Strathern,2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future Households in Context Caitlín Eilís Barrett,Jennifer Carrington,2024-01-15 Households in Context shifts the focus from monumental temples tombs and elite material and visual culture to households and domestic life to provide a crucial new perspective on everyday dwelling practices and the interactions of families and individuals with larger social and cultural structures A focus on households reveals the power of the everyday the critical role of quotidian experiences objects and images in creating the worlds of the people who live with them The contributors to this book share contemporary research on houses and households in both Ptolemaic and Roman Egypt to reshape the ways we think about ancient people s lived experiences of
