The Cruft of Fiction David Letzler, 2017-06 A 2017 Choice Outstanding Academic Title What is the strange appeal of big books The mega novel a genre of erudite tomes with encyclopedic scope has attracted wildly varied responses from fanatical devotion to trenchant criticism Looking at intimidating mega novel masterpieces from *The Making of Americans* to 2666 David Letzler explores reader responses to all the seemingly random irrelevant pointless and derailing elements that comprise these mega novels elements that he labels cruft after the computer science term for junk code In *The Cruft of Fiction* Letzler suggests that these books are useful tools to help us understand the relationship between reading and attention While mega novel text is often intricately meaningful or experimental sometimes it is just excessive and pointless On the other hand mega novels also contain text that though appearing to be cruft turns out to be quite important Letzler posits that this cruft requires readers to develop a sophisticated method of attentional modulation allowing one to subtly distinguish between text requiring focused attention and text that must be skimmed or even skipped to avoid processing failures *The Cruft of Fiction* shows how the attentional maturation prompted by reading mega novels can help manage the information overload that increasingly characterizes contemporary life

Singular Pasts Enzo Traverso, 2022-11-01 Today history is increasingly written in the first person A growing number of historical works include an autobiographical dimension as if writing about the past required exploring the inner life of the author Neither traditional history nor autobiography this hybrid genre calls the norms of the historical profession into question In search of new and creative paths it transgresses a cardinal rule of the discipline third person narration long considered necessary to the objective analysis of the past Singular Pasts offers a critical account of the emergence of authorial subjectivity in historical writing scrutinizing both its achievements and its shortcomings Enzo Traverso considers a group of contemporary historians including Ivan Jablonka Sergio Luzzatto and Mark Mazower who reveal their emotional ties to their subjects and give their writing a literary flavor He identifies a parallel trend in literature in which authors such as W G Sebald Patrick Modiano Javier Cercas and Daniel Mendelsohn write their works as investigations based on archival sources Traverso argues that first person history mirrors contemporary ways of thinking such writing is presentist and apolitical perceiving and representing the past through an individual lens Probing the limits of subjective historiography he emphasizes that it is collective action that produces social change we instead of I In an epilogue Traverso considers the first person writing of Saidiya Hartman as a counterexample A wide ranging and illuminating critique of a key trend in humanistic inquiry Singular Pasts reconsiders the notion of historical truth in a neoliberal age

Theater Figures Emily Allen, 2003 Why did nineteenth century novels return over again to the scene of theater Emily Allen argues that theater provided nineteenth century novels novelists and critics with a generic figure that allowed them to position particular novels and novelistic genres within a complex literary field Novel genres high and low male and female public and private realistic and romantic all came to identify themselves within a set of coordinates that included if only for the purpose of exclusion the spectacular figure of theater This figure likewise provided a trope around and against which to construct images of readers and authors images that most frequently worked to mediate between the supposedly private acts of reading and writing and the very public facts of the print market In readings of novels by Burney Austen Scott Dickens Jewsbury Flaubert Braddon and Moore Allen shows how frequently theater appears as figure in novels of the nineteenth century and how theater figures actively and importantly in what we have come to look back on as the history of the nineteenth century novel Theater Figures thus offers a new model for thinking about how theater helped produce changes in the nineteenth century literary market While previous critics have considered theater as an enabling foil for the novel either a constitutive opposite or constructive ally Allen demonstrates how theater figures and tropes were used to negotiate competition among the novels and novelists eagerly seeking their share of the literary limelight **A**
