Witness For The Republic Rethinking The Cold War Era:

Witness for the Republic Ronald F. Davis, 2006-03 Witness for the Republic takes a revealing new look at the critical events of The Cold War Era through the eyes of the Baby Boomer generation Through a unique blend of personal experiences and accounts of those caught up in the events of that time this book shows how their lives directly helped to reshape American society It also challenges the conventional view of the Cold War years probing deep beneath the headlines to provide new insights into the lead stories of that tumultuous era It is a firsthand account of many of the defining events of the twenty year period 1956 1976 as well as an insightful look at the social revolution that created the modern world From the Kennedy campaign to the Johnson White House from Vietnam to the Civil Rights Movement from Woodstock to the fall of Saigon this unique book goes inside the events that forever changed America It also shows how the unshakable vision of the Baby Boomer Generation laid the groundwork for the digital age the Womens Movement and the reshaping of American society

Rethinking the Cinematic Cold War Stefano Pisu, Francesco Pitassio, Maurizio Zinni, 2025-03-01 Historical consensus increasingly views the Cold War period as a multifaceted conflict which extended beyond the borders of the USSR and USA encompassing both cultural and diplomatic history Debate remains however about how best to balance the Cold War as a cultural event with the existence of Cold War culture Rethinking the Cinematic Cold War provides a fresh reassessment of this period highlighting how the convergence of geopolitical interests cultural production and exchange and technological and media history shaped a unique epoch Consequently this volume seeks to diagnose the role cinema played in expanding the ideological outlook of artists audiences and policymakers

Arguing about Empire Martin Thomas, Richard Toye, 2017-03-09 Arguing about Empire analyses the most divisive arguments about empire between Europe s two leading colonial powers from the age of high imperialism to the post war era of decolonization Focusing on the domestic contexts underlying imperial rhetoric Arguing about Empire adopts a case study approach treating key imperial debates as historical episodes to be investigated in depth The episodes in question have been

selected both for their chronological range their variety and above all their vitriol Some were straightforward disputes others involved cooperation in tense circumstances These include the Tunisian and Egyptian crises of 1881 2 which saw France and Britain establish new North African protectorates ostensibly in co operation but actually in competition the Fashoda Crisis of 1898 when Britain and France came to the brink of war in the aftermath of the British re conquest of Sudan the Moroccan crises of 1905 and 1911 early tests of the Entente Cordiale when Britain lent support to France in the face of German threats the 1922 Chanak crisis when that imperial Entente broke down in the face of a threatened attack on Franco British forces by Kemalist Turkey World War Two which can be seen in part as an undeclared colonial war between the former allies complicated by the division of the French Empire between De Gaulle s Free French forces and those who remained loyal to the Vichy Regime and finally the 1956 Suez intervention when far from defusing another imperial crisis Britain colluded with France and Israel to invade Egypt the culmination of the imperial interference that began some eighty years earlier

Rethinking History Richard H. Crum,1991 **The British Way in Cold Warfare** Matthew Grant,2011-10-20 By utilising the latest research readers will be given a complete picture of the way Britain fought the Cold War moving the focus away from the now familiar crises of Suez and Cuba and onto the themes that underpinned the British war strategy Intelligence civil defence and nuclear diplomacy are all examined within the context of modern British history at a time of national decline There is a growing interest in the contexts of the Cold War and this collection will establish itself as the leading volume on the UK s wartime strategy **The Twilight Struggle** Hal Brands,2022-01-25 A leading historian s guide to great power competition as told through America s successes and failures in the Cold War If you want to know how America can win today s rivalries with Russia and China read this book about how it triumphed in another twilight struggle the Cold War Stephen J Hadley national security adviser to President George W Bush The United States is entering an era of great power competition with China and Russia Such global struggles happen in a geopolitical twilight between the sunshine of peace and the darkness of war In this innovative and illuminating book Hal Brands a leading historian and former Pentagon adviser argues that America should look to the history of the Cold War for lessons in how to succeed in great power rivalry today Although the threat posed by authoritarian powers is growing America s muscle memory for dealing with dangerous foes has atrophied in the thirty years since the Cold War ended In long term competitions where the diplomatic jockeying is intense and the threat of violence is omnipresent the United States will need all the historical insight it can get Exploring how America won a previous twilight struggle is the starting point for determining how America can successfully prosecute another high stakes rivalry today *Cauldron of Resistance* Jessica M. Chapman,2013-02-19 In 1955 Ngo Dinh Diem organized an election to depose chief of state Bao Dai after which he proclaimed himself the first president of the newly created Republic of Vietnam The United States sanctioned the results of this election which was widely condemned as fraudulent and provided substantial economic aid and advice to the RVN Because of this Diem is often viewed as a mere

puppet of the United States in service of its Cold War geopolitical strategy That narrative Jessica M Chapman contends in *Cauldron of Resistance* grossly oversimplifies the complexity of South Vietnam s domestic politics and indeed Diem s own political savvy Based on extensive work in Vietnamese French and American archives Chapman offers a detailed account of three crucial years 1953 1956 during which a new Vietnamese political order was established in the south It is in large part a history of Diem s political ascent as he managed to subdue the former Emperor Bao Dai the armed Hoa Hao and Cao Dai religious organizations and the Binh Xuyen crime organization It is also an unparalleled account of these same outcast political powers forces that would reemerge as destabilizing political and military actors in the late 1950s and early 1960s Chapman shows Diem to be an engaged leader whose personalist ideology influenced his vision for the new South Vietnamese state but also shaped the policies that would spell his demise Washington s support for Diem because of his staunch anticommunism encouraged him to employ oppressive measures to suppress dissent thereby contributing to the alienation of his constituency and helped inspire the organized opposition to his government that would emerge by the late 1950s and eventually lead to the Vietnam War
