Wittgenstein on Freud and Frazer Frank Cioffi,1998-07-13 What is it that troubles and preoccupies us about the anxieties and anguishes of social and private life Have advances in the disciplines of psychoanalysis psychology or the social sciences in general ministered to our needs in these areas In this forcefully argued collection of essays Frank Cioffi examines Wittgenstein's reflections on the comparative claims of clarification and empirical enquiry Though writing out of admiration and indebtedness he expresses reservations as to the limits Wittgenstein places on the relevance and desirability of empirical knowledge His discussions extend from Wittgenstein's reflections on human sacrifice and other ritual practices dealt with by Frazer to Freud's account of the sources of anxiety depression dreams and laughter He asks both whether it is empirical investigation or more lucid reflection that these phenomena demand and what kind of question this itself is

Non-Metaphysical Theology After Heidegger Peter S. Dillard,2016-06-20 Using Martin Heidegger's later philosophy as his springboard Peter S Dillard provides a radical reorientation of contemporary Christian theology From Heidegger's initially obscure texts concerning the holy the gods and the last god Dillard extracts two possible non metaphysical theologies a theology of Streit and a theology of Gelassenheit Both theologies promise to avoid metaphysical antinomies that traditionally hinder theology After describing the strengths and weaknesses of each non metaphysical theology Dillard develops a Gelassenheit theology that ascribes a definite phenomenology to the human encounter with divinity This Gelassenheit theology also explains how this divinity can guide human action in concrete situations remain deeply consonant with Christian beliefs in the Incarnation and the Trinity and shed light on the Eucharist and Religious Vocations Seminal ideas from Rudolf Otto and Ludwig Wittgenstein are applied at key points Dillard concludes by encouraging others to develop an opposing Streit theology within the non metaphysical Heideggerian framework he presents

company (Over)Interpreting Wittgenstein A. Biletzki,2012-09-14 Over Interpreting Wittgenstein will be read by philosophers investigating Wittgenstein and by scholars interpreters students and specialists in both analytic and continental philosophy It will intrigue readers interested in issues of interpretation and cultural studies This book tells the story as yet untold of Wittgenstein interpretation during the past eighty years It provides different interpretations chronologies developments and controversies It aims to discover the socio cultural rather than psychological motives and motivations behind the philosophical community s project of interpreting Wittgenstein As a cultural history of ideas it traces the parallelism between Wittgenstein interpretation and the move from metaphysics to language to postmodernism effected in the twentieth century *Frank Cioffi: The Philosopher in Shirt-Sleeves* David Ellis,Nicholas Bunnin,2015-04-23 A high school drop out who served in the American army and then managed to slip into Oxford on the G I bill Frank Cioffi gained a considerable public reputation in Freudian and Wittgensteinian circles Frank Cioffi *The Philosopher in Shirt Sleeves* is an account of his conversation written in a Boswellian spirit capturing the sharp intelligence boisterous sense of humour and wealth of illustration Cioffi was able to bring to bear on life s biggest problems when he was as it were off duty Tackling subjects such as the unruly body the challenge of art dealing with failure the lure of science the meaning of life our understanding of others depression the case for suicide and death David Ellis describes how a philosopher who was profoundly influenced by Wittgenstein dealt with general issues and creates a vivid impression of an unusual and gifted individual This portrait is followed by a post script in which Nicholas Bunnin who worked in the philosophy department at Essex when Cioffi was a professor there situates him in a more strictly academic context and discusses his less well known essays on literary criticism and the behavioural sciences arguing for Cioffi s potential to inspire those seeking a role for analytic philosophy within the broader scope of humanistic philosophy A mixture of personal portrait and academic introduction Frank Cioffi *The Philosopher in Shirt Sleeves* provides an elegant and enjoyable tribute to Cioffi as both man and philosopher *Dark Thoughts* Steven Jay Schneider,Daniel Shaw,2003-09-16 Is horror a fundamentally nihilistic genre Why are those of us who enjoy horror films so attracted to watching things on screen that in real life we would almost certainly find repellent Do monster movies have a deleterious moral effect on their viewers In seeking to answer such questions as well as a host of related ones *Dark Thoughts* reveals that our fascination with horror cinema and the pleasure we take in it is in the end simply a natural extension of a philosopher s inclination to wonder This is a collection of highly engaging and provocative essays by top scholars in the increasingly interrelated fields of Philosophy Film Studies and Communication Arts that deal with the epistemology aesthetics ethics metaphysics and genre dynamics of horror cinema past and present Contributors include Curtis Bowman No l Carroll Elizabeth Cowie Angela Curran Cynthia Freeland Michael Grant Matt Hills Deborah Knight George McKnight Ken Mogg Aaron Smuts Robert C Solomon and J P Telotte Over the past several years one of the hottest topics in the realm of philosophical aesthetics has been cinematic horror The emotional effects it has on

audiences the mysterious metaphysics of its impossible beings the controversial ethics of its violent contents these are just a few of the concerns to have drawn the attention of scholars and students alike not to mention the genre's legions of fans Since the publication of Noël Carroll's groundbreaking study *The Philosophy of Horror or Paradoxes of the Heart* 1990 and including most recently Cynthia Freeland's *The Naked and the Undead: Evil and the Appeal of Horror* 2000 a plethora of articles have been authored by seemingly normal philosophers about the decidedly abnormal activities of the antagonists of fright flicks

Ethics and the Philosophy of Culture Ylva Gustafsson, Camilla Kronqvist, Hannes Nykänen, 2014-08-26 Questions of ethics and the study of culture are tightly interwoven Are we to see ethics as one thread in the fabric created by human culture or does ethics rather transcend culture The discussions in this volume take place within this spectrum Eleven Wittgenstein scholars explore how ethics is embedded in everyday activities and speech The topics dealt with range from the ways we speak about human practices and nature religious belief gender and moral understanding to questions about Wittgenstein's views on ethics and what it means to understand and attend to a particular individual Central points of departure are firstly that ethics cannot be reduced to any specific cultural form and secondly that how we conceive of language is crucially connected with how we perceive the relation between culture and ethics The points of view put forth frequently pose radical questions to the mainstream of philosophy The different uses to which Wittgenstein's thought is put also raise important questions about how one should understand the role of language ethics and culture in his philosophy

Iczkovits, 2012-07-06 Exploring the ethical dimension of Wittgenstein's thought Iczkovits challenges the view that Wittgenstein had a vision of language and subsequently a vision of ethics showing how the two are integrated in his philosophical method and allowing us to reframe traditional problems in moral philosophy considered as external to questions of meaning *Neo-historicism* Robin Headlam Wells, Glenn Burgess, Rowland Wymer, 2000 Essays on English Renaissance culture make a major contribution to the debate on historical method **Dictionary of Twentieth-Century British Philosophers** Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture [The Routledge International Handbook of Psychoanalysis and Philosophy](#) Aner Govrin, Tair Caspi, 2022-11-25 The Routledge International Handbook of Psychoanalysis and Philosophy provides a rich panoramic view of what philosophy offers or disturbs in psychoanalysis and what it represents for psychoanalytic theory and practice The thirty three chapters present a broad range of interfaces and reciprocities between various aspects of psychoanalysis and philosophy It demonstrates the vital connection between the two disciplines psychoanalysis cannot make any practical sense if it is not entirely perceived within a philosophical context Written by a team of world leading experts including established scholars psychoanalysts and emerging talents the Handbook investigates and discusses the psychoanalytic schools and their philosophical underpinning as well as contemporary applied topics Organized into five sections this volume investigates and discusses how psychoanalysis stands in relation to leading philosophies such as Wittgenstein Heidegger Nietzsche and Kant

Passions and Subjectivity in Early Modern Culture Freya Sierhuis,2016-05-13 Bringing together scholars from literature and the history of ideas *Passions and Subjectivity in Early Modern Culture* explores new ways of negotiating the boundaries between cognitive and bodily models of emotion and between different versions of the will as active or passive In the process it juxtaposes the historical formation of such ideas with contemporary philosophical debates It frames a dialogue between rhetoric and medicine politics and religion in order to examine the relationship between mind and body and between experience and the senses Some chapters discuss literature in studies of Shakespeare Donne and Milton other essays concentrate on philosophical arguments both Aristotelian and Galenic models from antiquity and new mechanistic formations in Descartes Hobbes and Spinoza A powerful sense of paradox emerges in treatments of the passions in the early modern period also reflected in new literary and philosophical forms in which inwardness was displayed analysed and studied the autobiography the essay the soliloquy genres which rewrite the formation of subjectivity At the same time the frame of reference moves outwards from the world of interior states to encounter the passions on a public stage thus reconnecting literary study with the history of political thought In between the abstract theory of political ideas and the inward selves of literary history lies a field of intersections waiting to be explored The passions like human nature itself are infinitely variable and provoke both literary experimentation and philosophical imagination *Passions and Subjectivity in Early Modern Culture* thus makes new connections between embodiment selfhood and the emotions in order to suggest both new models of the self and new models for interdisciplinary history

The Timespace of Human Activity Theodore R. Schatzki,2010-04-12 This book shows that a concept of activity timespace drawn from the work of Martin Heidegger provides new insights into the nature of activity society and history Although the book is a work of theory it has significant

implications for the determination and course not just of activity but of sociohistorical change as well Drawing on empirical examples the book argues 1 that timespace is a key component of the overall space and time of social life 2 that interwoven timespaces form an essential infrastructure of important social phenomena such as power coordinated actions social organizations and social systems and 3 that history encompasses constellations of indeterminate temporalspatial events The latter conception of history in turn yields a propitious account of how the past exists in the present In addition because the concept of activity timespace highlights the teleological character of human action the book contains an extensive defense of the teleological character of such allegedly ateleological forms of activity as emotional and ceremonial actions Since finally the book s ideas about timespace and activity as an indeterminate event derive from an interpretation of Heidegger the work furthers understanding of the relevance of his thought for social and historical theory The book combines textual interpretation theoretical argumentation and empirical substantiation Many of its empirical examples are taken from the Blue Grass Horse Country around Lexington Kentucky where the author resides
