Woman's Place Cynthia Fuchs Epstein, 1971 Woman's Place Cynthia F. Epstein, 2023-11-10 Why does it happen that no matter what sphere of work women are hired for or select like sediment in a wine bottle they settle to the bottom Why do the best women those in whom society has invested most heavily underperform underachieve and underproduce Why this is so and how it occurs in the focus of this book The sociologist's special tools of analysis are used to identify the social factors that assign women to their place and keep them there While most of Epstein's data are drawn from the professions law medicine science engineering and university teaching her analysis touches at many points the problems of poor women who constitute the major part of the female work force This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1970 Critical Events Shaping Woman's Identity Donna May Avery, 1980 Career Development Artis Palmo, 1977 Female World Jessie Bernard, 1982-02 An exuberant celebration of women's unique strengths and differences Women in Law Cynthia Fuchs Epstein, 2012-03-10 Universally considered to be pathbreaking landmark original and provocative since its first edition was published three decades ago WOMEN IN LAW continues to provide a sociological and historical analysis of the overt and subtle ceilings placed on women in the legal profession in their various roles It is a foundational work for departments of gender studies law and sociology but also reads as accessible and interesting to a general audience Adding a new foreword by Stanford's Deborah Rhode the thirtieth anniversary edition of this classic book reports countless revealing interviews war stories and inside glimpses of the many professional roles that women inhabit lawyers judges professors leaders and backroom labor It also brings vividly to life the candid and sometimes cringeworthy assessments by male lawyers and judges about the changes to the profession ushered in by the increasing entry of women to the lawyers club Part of the Classics of Law Society Series from Quid Pro Books Adds a new Foreword from Stanford's Deborah Rhode **Hard Choices** Kathleen Gerson, 1986-03-17 How do women choose between work and family commitments And what are the causes limits and consequences of the subtle revolution in women's choices over the 1960s and 1970s To answer these questions Kathleen Gerson analyzes the experiences of a carefully selected group of middle class and working class women who were young adults in the 1970s Their informative life histories reveal the emerging social forces in American society that have led today's women to face several difficult choices Career Planning, Development, and Management Jonathan P. Back,1979-12-12 In this study of student nurses at Duke University Professor Simpson challenges earlier research by demonstrating that a professional school does socialise its students In addition by constructing a model that brings together competing theories of socialisation she finds that socialisation is not necessarily cumulative or unidirectional Conceptualisations that focus on individual students such as those emphasising role modelling student values or peer relations obscure the most significant conditions and processes The program of a school is the fundamental structure of occupational socialisation and this structure not its students should be blamed for failures and praised for success
