Wombat Divine Activities:

Macroevolution, Contingency, and Divine Activity Bradford McCall, 2023-10-27 What are the things that God values in the creative process How does one define God's activity in such a world How is God's involvement different from a contingent what this author labels contingentist instance Why do we need a God idea at all Herein Bradford McCall addresses how divine omnipotent love works with and within a contingentist i.e. radically contingent evolutionary theory and worldview Within the course of this project he reaches a via media between the somewhat radical formalist position of Simon Conway Morris and the veritably radical contingent position of Stephen Jay Gould But how is the contingentist omnipotent and uncontrolling love of God understood as purposeful McCall argues in detail that there in fact is some sort of purposiveness that is nevertheless working in a chastened Gouldian position and he distinguishes between contingency and veritable divine involvement He contends that God does not insist upon a particular outcome but merely allows propensities to work themselves out God omnipotently loves the population of the natural world into greater forms of complexity relationality and beauty in varied and multifarious forms along with the extension of diversity **The Complete Home**
