

WOMEN & ADDICTION

"The once-neglected field of research in addiction and its treatment in women has flourished in the past 20 years, making this book a 'must read' for clinicians. Brady, Back, and Greenfield are leaders in research, clinical practice, and teaching. Their book is the definitive work on the subject, and the most important new volume in addiction psychiatry in recent years."

—Richard J. Frances, MD,
Clinical Professor of Psychiatry,
New York University Medical School

"An exceptional contribution. The breadth and depth of this book are impressive, with coverage of neurobiology, psychosocial models, epidemiology, and much more. The gender gap in the substance abuse literature has long been an issue, and this comprehensive work marks a leap forward. Readers will find much here to challenge old ideas and spark new ones. The 'Key Points' section in each chapter is especially helpful for those who want to quickly learn the gist of the science. Bravo to the editors and contributors for this truly fine work."

—Lisa M. Najavits, PhD,
Boston University School of Medicine,
Harvard Medical School, and National Center for PTSD,
Boston VA Medical Center

"Finally, a synthesis of research advances on addiction and women, and in a single volume! Scholarly yet easy to read, and written by leading researchers in the field, this is a perfect addition to the bookshelf of anyone interested in addictions. It offers comprehensive, current, and relevant coverage of such issues as hormones, pregnancy, co-occurring psychiatric disorders, and women's unique treatment needs. I highly recommend this book to a broad audience, including treatment professionals, students, basic scientists, and policymakers."

—Carrie Randall, PhD,
Distinguished University Professor,
Department of Psychiatry and Behavioral Sciences,
and Director, Charleston Alcohol Research Center,
Medical University of South Carolina

Women And Addiction A Comprehensive Handbook

Dennis L. Thombs, Cynthia J. Osborn

Women And Addiction A Comprehensive Handbook:

Women and Addiction Kathleen T. Brady, Sudie E. Back, Shelly F. Greenfield, 2009-04-02 For many years addiction research focused almost exclusively on men Yet scientific awareness of sex and gender differences in substance use disorders has grown tremendously in recent decades This volume brings together leading authorities to review the state of the science and identify key directions for research and clinical practice Concise focused chapters illuminate how biological and psychosocial factors influence the etiology and epidemiology of substance use disorders in women their clinical presentation course and psychiatric comorbidities treatment access and treatment effectiveness Prevalent substances of abuse are examined as are issues facing special populations *Women and Addiction* ,1988 Lowinson and Ruiz's Substance Abuse Pedro Ruiz, Eric C. Strain, 2011 A comprehensive authoritative text on all aspects of substance abuse and addiction medicine Scientific topics such as the biology of various addictions and all dimensions of clinical treatment and management are addressed by a wide range of leading contributors Behavioral addictions are addressed also so the text is not solely devoted to specific substances and their misuse Provided by publisher **Addiction Medicine E-Book** Bankole Johnson, 2019-12-12 Integrating scientific knowledge with today's most effective treatment options *Addiction Medicine Science and Practice* 2nd Edition provides a wealth of information on addictions to substances and behavioral addictions It discusses the concrete research on how the brain and body are affected by addictions improving your understanding of how patients develop addictions and how best to personalize treatment and improve outcomes This essential text is ideal for anyone who deals with patients with addictions in clinical practice including psychiatrists health psychologists pharmacologists social workers drug counselors trainees and general physicians family practitioners Clearly explains the role of brain function in drug taking and other habit forming behaviors and shows how to apply this biobehavioral framework to the delivery of evidence based treatment Provides clinically relevant details on not only traditional sources of addiction such as cocaine opiates and alcohol but also more recently recognized substances of abuse e g steroids inhalants as well as behavioral addictions e g binge eating compulsive gambling hoarding Discusses current behavioral and medical therapies in depth while also addressing social contexts that may affect personalized treatment Contains new information on compliance enhancing interventions cognitive behavioral treatments behavioral management and other psychosocial interventions Includes neurobiological molecular and behavioral theories of addiction and includes a section on epigenetics Contains up to date information throughout including a new definition of status epilepticus a current overview of Lennox Gastaut syndrome and updates on new FDA approved drugs for pediatric neurological disorders Features expanded sections on evidence based treatment options including pharmacotherapy pharmacogenetics and potential vaccines Addresses addiction in regards to specific populations including adolescents geriatric pregnant women and health care professionals Includes contributions from expert international authors making this a truly global reference to addiction medicine Men, Addiction, and Intimacy Mark S. Woodford, 2012-06-14 In

the substance abuse and addiction treatment realm males outnumber females two to one While gender issues are seen as a key element of women s treatment the acknowledgement that males are gendered beings who have lived lives full of male specific developmental challenges is often overlooked This text takes a developmental lifespan approach to examine the neurobiological and psychosocial factors associated with substance use disorders for males specifically in relation to emotional growth and awareness and how these areas in turn affect the development of healthy relationships Theoretical concepts from the field of interpersonal neurobiology the psychology of boys and men and the substance abuse and addiction literature are interwoven with practical clinical examples to help elucidate how the notion of fostering emotional development can strengthen the treatment and recovery processes with boys and men Relevant case examples are included that illustrate work with males of all ages and address a variety of factors associated with culture ethnicity race religion and sexual orientation Mental health practitioners will find this a valuable guide to understanding male development in relation to substance use and abuse and providing more comprehensive gender responsive counseling and assessment practices

A New Psychology of Women Hilary M. Lips, 2016-05-04 Rich original and transformative the latest edition of *A New Psychology of Women* examines how gender related expectations interact with other cultural assumptions and stereotypes and with social and economic conditions to affect women s experiences and behavior Absorbing narratives centered on essential topics in psychology and global research engage readers to grasp cutting edge insights into the psychological diversity of women Aware that our own cultural experience colors and limits what we think we know about people veteran educator and scholar Hilary Lips imbues her discussions with international examples and perspectives to provide an inclusive approach to the psychology of women A wide range of new and extensively updated topics optimize readers knowledge of how disparate perspectives from cultures throughout the world shape women s behavior and attitudes toward health care violence against women poverty labor force participation occupational segregation unpaid work stereotyping and discrimination expectations about power within marriage female genital mutilation theories of gender development women s attitudes toward their bodies use of social media media portrayals of girls and women women in political leadership roles Among thoroughly updated topics particular to US culture are same sex marriage Latina women s issues the portrayal of women of different ethnic and cultural groups on television and breast cancer survival rates of African American and European American women Boxed items containing learning activities profiles of women who helped shape psychology and suggestions for making social changes appear throughout the text Each chapter concludes with discussion questions key terms suggestions for additional reading and Web resources

The SAGE Encyclopedia of Alcohol Scott C. Martin, 2014-12-16 Alcohol consumption goes to the very roots of nearly all human societies Different countries and regions have become associated with different sorts of alcohol for instance the beer culture of Germany the wine culture of France Japan and saki Russia and vodka the Caribbean and rum or the moonshine culture of Appalachia Wine is used in religious

rituals and toasts are used to seal business deals or to celebrate marriages and state dinners However our relation with alcohol is one of love hate We also regulate it and tax it we pass laws about when and where it s appropriate we crack down severely on drunk driving and the United States and other countries tried the failed Noble Experiment of Prohibition While there are many encyclopedias on alcohol nearly all approach it as a substance of abuse taking a clinical medical perspective alcohol alcoholism and treatment The SAGE Encyclopedia of Alcohol examines the history of alcohol worldwide and goes beyond the historical lens to examine alcohol as a cultural and social phenomenon as well both for good and for ill from the earliest days of humankind *Clinical Textbook of Addictive Disorders, Fourth Edition* Avram H. Mack,Kathleen T.

Brady,Richard J. Frances,Sheldon I. Miller,2016-05-13 This state of the science reference and text has given thousands of practitioners and students a strong foundation in understanding and treating addictive disorders Leading experts address the neurobiology of addictions and review best practices in assessment and diagnosis Specific substances of abuse are examined in detail with attention to real world clinical considerations Issues in working with particular populations including polysubstance abusers culturally diverse patients older adults chronic pain sufferers and others are explored Chapters summarize the theoretical and empirical underpinnings of widely used psychosocial and pharmacological treatments and clearly describe clinical techniques New to This Edition Incorporates a decade s worth of major advances in research and clinical practice Updated for DSM 5 Many new authors extensively revised with the latest information on specific biological mechanisms substances populations and treatments Chapter on motivational interviewing **Women's Mental Health, An Issue of Psychiatric Clinics** Susan G. Kornstein,Anita H. Clayton,2010-05-05 This issue reviews psychiatric concerns that are specific to women Comprehensive and up to the minute articles discuss topics such as PMS PMDD Perinatal Disorders Menopause Infertility Female Sexual Dysfunction Substance Abuse in Women Gender Differences in ADHD Fibromyalgia Migraines in Women Breast Cancer Obesity in Women Complementary and Alternative Medicine for Psychiatric Disorders in Women Trauma and Violence Issues for Women in the Military and Caring for the Elderly Female Psychiatric Patient

Introduction to Addictive Behaviors, Fourth Edition Dennis L. Thombs,Cynthia J. Osborn,2013-07-01 This book has been replaced by Introduction to Addictive Behaviors Fifth Edition ISBN 978 1 4625 3922 2 **Women's Lives** Claire A. Ettaugh,Judith S. Bridges,2015-07-14 Women s Lives A Psychological Exploration 3rd Edition draws on a wealth of the literature to present a rich range of experiences and issues of relevance to girls and women This text offers the unique combination of a chronological approach to gender that is embedded within topical chapters Cutting edge and comprehensive each chapter integrates current material on women differing in age ethnicity social class nationality sexual orientation and ableness The third edition reflects substantial changes in the field while maintaining its empirical focus through engaging writing student activities and critical thinking exercises With over 2 100 new references emphasizing the latest research and theories the authors continue to pique interests in psychology of women *Mental Health and Social*

Problems Nina Rovinelli Heller, Alex Gitterman, 2010-11 Mental Health and Social Problems is a textbook for social work students and practitioners It explores the complicated relationship between mental conditions and societal issues as well as examining risk and protective factors for the prevalence course adaptation to and recovery from mental illness The introductory chapter presents bio psycho social and life modeled approaches to helping individuals and families with mental illness The book is divided into two parts Part I addresses specific social problems such as poverty oppression racism war violence and homelessness identifying the factors which contribute to vulnerabilities and risks for the development of mental health problems including the barriers to accessing quality services Part II presents the most current empirical findings and practice knowledge about prevalence diagnosis assessment and intervention options for a range of common mental health problems including personality conditions eating conditions and affective conditions Focusing throughout upon mental health issues for children adolescents adults and older adults each chapter includes case studies and web resources This practical book is ideal for social work students who specialize in mental health

Drug Treatment Systems in an International Perspective Harald Klingemann, Geoffrey Hunt, 1998-08-11 The first volume to provide access to information on drug treatment systems from a wide cross section of 20 countries Drug Treatment Systems in an International Perspective examines the ways in which other countries from around the world have chosen to cope with the spread of illicit drugs Now health planners and administrators treatment professionals researchers and students can place the development of their own treatment systems in a wider context and can examine the extent to which that development shares common structural features with those of other countries and cultures Following a comparative discussion of the various countries the volume addresses four key issues gender specific treatment the politics of financing and evaluation the private sector and state control and exporting drug treatment ideologies It provides a comparative and cross cultural perspective on drug treatment approaches today and examines the influence of social political and economic forces on the treatment of drug addicts In addition the editors have included a handy glossary which explains key terms unfamiliar to readers outside the particular country Providing an interdisciplinary and cross cultural perspective to drug treatment Drug Treatment Systems in an International Perspective will be of interest academics students and professionals in psychology especially those focusing on clinical psychology addiction dependency and treatment It will also be of great interest to public health planners and administrators

Gender, Psychology, and Justice Corinne C. Datchi, Julie R. Ancis, 2017-04-18 Reveals how gender intersects with race class and sexual orientation in ways that impact the legal status and well being of women and girls in the justice system Women and girls contact with the justice system is often influenced by gender related assumptions and stereotypes The justice practices of the past 40 years have been largely based on conceptual principles and assumptions including personal theories about gender more than scientific evidence about what works to address the specific needs of women and girls in the justice system Because of this women and girls have limited access to equitable justice and are

increasingly caught up in outdated and harmful practices including the net of the criminal justice system Gender Psychology and Justice uses psychological research to examine the experiences of women and girls involved in the justice system Their experiences from initial contact with justice and court officials demonstrate how gender intersects with race class and sexual orientation to impact legal status and well being The volume also explains the role psychology can play in shaping legal policy ranging from the areas of corrections to family court and drug court Gender Psychology and Justice provides a critical analysis of girls and women s experiences in the justice system It reveals the practical implications of training and interventions grounded in psychological research and suggests new principles for working with women and girls in legal settings

Psychology of Aging Sara J. Margolin, 2024-07-19 In *Psychology of Aging A Concise Exploration* author Sara J Margolin redefines how we think about getting older Employing a bio psycho social perspective Margolin introduces modern learners to the study of adulthood and aging offering a holistic examination of its impact on our bodies minds relationships and social roles Through an innovative myth vs fact approach the text dispels common misconceptions using humor compassion and robust research Emphasizing real life aging processes and adaptations students gain insights applicable not only to future careers but also within family and personal life contexts Included with this title LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site Select the Resources tab on this page to learn more

Integrated Treatment for Co-Occurring Disorders Jack Klott, 2013-01-23 The definitive guide to identify assess and create individualized treatment plans for high risk clients who suffer from challenging co occurring disorders Treat the person and not the diagnosis Respect that all behaviors are purposeful Remain mindful that nobody changes behaviors without motivation These essential guiding principles are the framework of this book They will be repeated quite often as we examine the challenging population of men and women with co occurring disorders From *Integrated Treatment for Co Occurring Disorders* Annual studies reveal that 70 percent of men and women who died by suicide were diagnosed with a mental illness or personality disorder and used drugs to gain temporary relief from the symptoms Until now very little has been written about how to identify assess and treat this population *Integrated Treatment for Co Occurring Disorders Treating People Not Behaviors* addresses that need Respectful of the client and filled with practical advice this book Examines the guiding principles for treating clients with co occurring disorders Details the methods of formulating an evidence based individualized treatment plan for the self medicating mentally ill Explores how to assess this population for suicide risk and vulnerability Focuses on the person and not a behaviorally defined diagnostic category Reflects state of the art knowledge for the treatment of co occurring disorders Illustrates how Motivational Enhancement Therapy can be an effective treatment strategy With numerous clinical case studies to illustrate key points and reinforce learning *Integrated Treatment for Co Occurring Disorders* encourages a flexible person centered treatment

approach that focuses on the individual rather than the diagnosis

Integrating Psychological and Pharmacological Treatments for Addictive Disorders James MacKillop, George A. Kenna, Lorenzo Leggio, Lara A. Ray, 2017-07-06 Integrating Psychological and Pharmacological Treatments for Addictive Disorders distills the complex literature on addiction offering a curated toolbox of integrated pharmacological and psychotherapeutic treatments in chapters authored by leading experts Introductory chapters on the epidemiology etiology and fundamentals of addiction treatment provide a concise overview of the state of the field Subsequent chapters then focus on the treatment of specific substance use disorders and on gambling disorder Finally a chapter on the treatment of addiction in primary care addresses the opportunities for clinical care in non specialist outpatient settings Physicians psychologists social workers and other mental health professionals will come away from the book with an essential understanding of evidence based practice in treating addiction and the scientific foundations of those approaches

Fetal Alcohol Spectrum Disorders Omar A. Abdul-Rahman, Christie L. M. Petrenko, 2023-07-19 Fetal alcohol spectrum disorders FASD represent a range of physical mental and behavioral disabilities caused by alcohol use during pregnancy or prenatal alcohol exposure PAE FASDs are considered to be one of the leading causes of developmental disability with an estimated 2 5% of children being born with FASD each year in the world Despite its high prevalence FASD is often misdiagnosed or underdiagnosed making intervention more challenging A multidisciplinary team of providers who understand the diagnostic requirements is crucial for an accurate FASD diagnosis This text provides a comprehensive state of the art review of this field and serves as a valuable resource for clinicians and researchers with an interest in FASD The book provides a detailed overview for clinicians of various backgrounds on the diagnostic process extensive mechanistic and embryologic data neuropsychologic aspects of the condition prevention and treatment approaches and the ethical legal and policy perspectives that impact patients and families The chapters are organized parallel to the journey of individuals who experience alcohol related conditions beginning with the prenatal period addressing epidemiology of alcohol exposure prevention and interventions continuing through the fetal experience with a focus on embryology Challenges of children and their families are considered next including the diagnostic process and health effects Finally issues related to systems of care for individuals with FASD and the broader community are addressed The global context of FASD is presented throughout the textbook Written by experts in the field Fetal Alcohol Spectrum Disorders provides a concise yet comprehensive summary of the current status of this issue that helps guide prevention efforts the diagnostic process school and community interventions and global policy efforts

Addictions Counseling Today Kevin Alderson, 2019-12-03 Focusing on the new DSM V classifications for addiction with an emphasis on CACREP neuroscience and treatment this provocative contemporary text is an essential reference for both students and practitioners wanting to gain a deeper understanding of those with addiction

The American Psychiatric Publishing Textbook of Substance Abuse Treatment Marc Galanter, Herbert D. Kleber, Kathleen T. Brady, 2015-04-01 No other text available today offers what The American Psychiatric Publishing Textbook of Substance

Abuse Treatment can completely updated treatment information on a broad range of substance use disorders that is consistent with the new DSM 5 classification and thus reflective of how psychiatry is practiced today Designed for researchers and mental health professionals ranging from trainee to licensed practitioner the book is also appropriate for a diverse array of rehabilitation settings from inpatient to community based treatment Full coverage is provided on 12 step programs as well including the latest outcomes research Much of the material is new to this edition A chapter has been added on science in the treatment of substance abuse in which the authors discuss the history of scientific intervention in substance abuse and explore what happens to the brain when addicting drugs are consumed review animal models and imaging techniques and discuss current progress in the science of addiction Chapters have been added on screening and brief intervention reflecting the development of brief screening tools and research on the efficacy of interventions and the role of recovery in chronic care disease management specifically what the treatment models for alcohol dependence and for diabetes can effectively borrow from each other A new chapter focuses on the treatment of alcohol intoxication and withdrawal the first steps in treatment of alcohol use disorder Two chapters on marijuana one on the neurobiology and one addressing treatment have been added Given the accelerating trend toward decriminalization and legalization of this substance clinicians will find this information of increasing importance The section on substance use issues among gay men and lesbians has been expanded to include bisexual and transgender people in recognition of increased diversity among the population Well structured with topics that follow logically and many practical treatment oriented features such as quick reference tables and lists of recommended readings The American Psychiatric Publishing Textbook of Substance Abuse Treatment is a classic that will enhance the education and practice of clinicians
