Women Borders And Violence Current Issues In Asylum Forced Migration And Trafficking:

Women, Borders, and Violence Sharon Pickering, 2010-12-21 *Women at the Border* analyzes border policing practices currently informed by paradigms of securitization against unauthorized mobility and explores the potential for a paradigm shift to a more ethical regulation of borders. By focusing on the ways women have sought to cross borders in extra legal fashion the book shows how border enforcement differentially impacts on some populations and makes the case that unauthorized migration requires management rather than repulsion and criminalization. When facing the emerging and future challenges of unauthorized mobility border policing must be recast as a function of human rights that results in greater human security at the border. Examining gender and border policing across Europe North America and Australia this book enhances our understanding of the gendered determinants of extra legal border crossing border policing and the changing dynamics of unauthorized mobility.

Human Trafficking in the Era of Global Migration Sarah Hupp Williamson, 2022-05-31 Factors such as inequality gender globalization corruption and instability clearly matter in human trafficking. But does corruption work the same way in Cambodia as it does in Bolivia? Does instability need to be present alongside inequality to lead to human trafficking? How do issues of migration connect? Using migration feminist and criminological theory this book asks how global economic policies contribute to the conditions which both drive migration and allow human trafficking to flourish with specific focus on Cambodia Bolivia and The Gambia. Challenging existing thinking the book concludes with an anti trafficking framework which addresses the root causes of human trafficking.

Ultra-Intensity Patriarchy Menara Guizardi,2021-10-19 This book analyzes the experiences of women living and working across the busiest and most transited frontier in South America the Paran Tri Border Area TBA between Argentina Brazil and Paraguay From a feminist approach it shows how in these territories the gender violence is intensified configuring an expression of ultra intensity patriarchy Based on ethnographic fieldwork conducted for two years along with Paraguayan women living and working between Ciudad del Este Paraguay and Foz de Iguaz Brazil the authors analyze on the one hand the intricate connection between gender violence and ethnicity on these borders and on the other hand the persistence of a female care that appears to offer a fundamental tool of resistance of vital female drive The work is divided into three parts The first is intended to read like a trip to this complex and fascinating corner of South America through a visual and ethnohistoric journey of the region as well as a theoretical debate that defines gender violence and its particular condensation on border territories The second part explores the women s stories in depth and follow the narrative thread of their biographies rebuilding their experiences from their families of origin to their productive insertion on the TBA Finally the third part takes an in depth look at the complex links between the social

reproduction obligations that fall on women and the gender violence on the TBA stressing how they develop strategies to change their life conditions by establishing transborder circuits of care Ultra Intensity Patriarchy Care and Gender Violence on the Paran Tri Border Area will be a valuable tool for researchers from different disciplines such as anthropology sociology population studies and gender studies interested in the growing field of studies of feminism borders and migration from an intersectional perspective **The New Politics of Immigration and the End of Settler Societies** Catherine

Dauvergne,2016-03-14 Over the past decade a global convergence in migration policies has emerged and with it a new mean spirited politics of immigration It is now evident that the idea of a settler society previously an important landmark in understanding migration is a thing of the past What are the consequences of this shift for how we imagine immigration And for how we regulate it This book analyzes the dramatic shift away from the settler society paradigm in light of the crisis of asylum the fear of Islamic fundamentalism and the demise of multiculturalism What emerges is a radically original take on the new global politics of immigration that can explain policy paralysis in the face of rising death tolls failing human rights arguments and persistent state desires to treat migration as an economic calculus Race, Criminal Justice, and Migration Control Mary Bosworth,Alpa Parmar,Yolanda Vázquez,2018-01-12 The criminalization of migration is heavily patterned by race By placing race at the centre of its analysis this volume examines questions and explains the growing intersection

between criminal justice and migration control Through the lens of race we see how criminal justice and migration enmesh in order to exclude stop and excise racialized citizens and non citizens from societies across the world within beyond and along borders Race and the meaning of race in relation to citizenship and belonging is excavated through the chapters presented in the book and the book as a whole thereby transforming the way we think about migration Neatly organized in four sections the book begins with chapters that present a conceptual analysis of race borders and social control moving to the institutions that make up and shape the criminal justice and migration complex The remaining chapters are convened around the key sites where criminal justice and migration control intersect policing courts and punishment Together the volume presents a critical and timely analysis of how race shapes and complicates mobility and how racism is enabled and reanimated when criminal justice and migration control coalesce *Migration, Globalization, and the State* R. Brickner,2013-11-01 Drawing evidence from North and South America Europe Asia and the Middle East the contributors illustrate that even within the common framework of economic globalization the ways in which the interests of state actors and the agency of migrants intersects continuously shapes and reshapes both home and destination societies **Gender, Equality and Social Justice** Sharron FitzGerald,Jane Freedman,2022-09-19 This book addresses a gap in both contemporary theorising and empirical analysis of the European Union s EU law and policy frameworks on migration sex work and anti trafficking Drawing on the authors previous research on these policies and with their practical experience of engaging with various EU institutions in law and policy making fora around gender equality and justice the work examines the processes involved in constructing and

enacting policy frameworks and legal interventions on these issues within a feminist analytical framework The authors map how EU agenda setting operates and detail the roles that various EU institutions external groups and actors including non governmental organisations play in promoting or blocking policy on these three issues The book draws on feminist theorising on gender policy making and social justice to develop a general theoretical framework to help us understand how and why a consensus has seemingly been achieved at EU level on what constitutes gender equality in these three policy areas The book presents a valuable resource for academics researchers and policy makers in Law Migration EU policy making and Gender Studies

Representing Vulnerabilities in Contemporary Literature Miriam Fernández-Santiago,Cristina M.

Gámez-Fernández,2022-12-01 Representing Vulnerabilities in Contemporary Literature includes a collection of essays exploring the ways in which recent literary representations of vulnerability may problematize its visibilization from an ethical and aesthetic perspective Recent technological and scientific developments have accentuated human vulnerability in many and different ways at a cross national and even cross species level Disability technological and ecological vulnerabilities are new foci of interest that add up to gender precarity and trauma among others as forms of vulnerability in this volume The literary visualization of these vulnerabilities might help raise social awareness of one s own vulnerabilities as well as those of others so as to bring about global solidarity based on affinity and affect However the literary representation of forms of vulnerability might also deepen stigmatization phenomena and trivialize the spectacularization of vulnerability by blunting readers affective response towards those products that strive to hold their attention and interest in an information saturated global entertainment market

Gendered Harm and Structural Violence in the British Asylum System Victoria Canning, 2017-03-27 Winner of the 2018 British Society of Criminology Book Prize Britain is often heralded as a country in which the rights and welfare of survivors of conflict and persecution are well embedded and where the standard of living conditions for those seeking asylum is relatively high Drawing on a decade of activism and research in the North West of England this book contends that on the contrary conditions are often structurally violent For survivors of gendered violence harm inflicted throughout the process of seeking asylum can be intersectional and compound the impacts of previous experiences of violent continuums The everyday threat of detention and deportation poor housing and inadequate welfare access and systemic cuts to domestic and sexual violence support all contribute to a temporal limbo which limits women's personal autonomy and access to basic human rights By reflecting on evidence from interviews focus groups activist participation and oral history *Gendered Harm and Structural Violence* provides a unique insight into the everyday impacts of policy and practice that arguably result in the infliction of further gendered harms on survivors of violence and persecution Of interest to students and scholars of criminology sociology human rights migration policy state violence and gender this book develops on and adds to the expanding literatures around immigration migration and asylum

Undocumented Immigrants in an Era of Arbitrary Law Robert Barsky, 2015-08-11 This book describes the experiences of undocumented migrants all around the world bringing to life the challenges they face from the moment they consider leaving their country of origin until the time they are deported back to it Drawing on a broad array of academic studies including law interpretation and translation studies border studies human rights communication critical discourse analysis and sociology Robert Barsky argues that the arrays of actions that are taken against undocumented migrants are often arbitrary and exercised by an array of officials who can and do exercise considerable discretion both positive and negative Employing insights from a decade long research project Barsky also finds that every stop along the migrant's pathway into and inside of the host country is strewn with language issues relating to intercultural communication interpretation gossip hearsay and the challenges of peddling of linguistic wares in the social discourse marketplace These language issues are almost always impediments to any or productive interactions with host country officials particularly on the front lines where migrants encounter border patrol and law enforcement officers without adequate means of communicating their situation or understanding their rights Since undocumented people are categorized as illegal they can be subjected to abuse and exploitation by host country officials who

can choose to either tolerate or punish them on the basis of unpredictable changeable and even illusory or arbitrary laws and regulations Citing experts at every level of the undocumented immigrant apparatuses worldwide from public defenders to interpreters Barsky concludes that the only viable policy to address prevailing abuses and inequalities is to move towards open borders an approach that would address prevailing issues and surprisingly provide security and economic benefits to both host and home countries Security Aid: Canada and the Development Regime of Security Jeffrey

Monaghan,2017-01-01 Drawing on an array of previously classified materials and interviews with security experts Security Aid presents a critical analysis of the securitization of humanitarian aid **The Routledge Handbook of International Crime and Justice Studies** Bruce Arrigo,Heather Bersot,2013-08-15 The Routledge Handbook of International Crime and Justice Studies presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective Guided by the pivotal although vastly under examined role that consumerism politics technology and culture assume in shaping these debates and in organizing these challenges individual chapters probe the global landscape of crime and justice with astonishing clarity and remarkable depth A distinguished collection of experts examine the interdisciplinary field of international crime and justice Their contributions are divided into thematic sections including theory culture and society industries of crime and justice systems of policing law corrections and punishment the criminal enterprise global technologies media crime and culture green criminology political violence public health criminology the political economy of crime and justice All the chapters include full pedagogy and instructional resources for easy referencing or classroom use This Handbook will be useful for students scholars and practitioners of law medicine history economics sociology politics philosophy education public health and social policy *The Challenge of Migration in a Janus-Faced Europe* Laura Zanfrini,2018-11-19 This book critically investigates the origins and consequences of the Janus faced character of attitudes and policies towards migrants that seek to penetrate Fortress Europe Beginning with an examination of its founding ambitions it locates the roots of an ingrained ambivalence in the legacies of the post war period and the unresolved tension between the economicism of the European approach to labour migration and the philosophy of rights and solidarity embedded in the EU project It highlights how the formalization of citizenship rights has produced both formal pathways towards inclusion for migrants and in their selective eligibility criteria exclusive systems of civic stratification The author links this oscillation between positions of closure and openness to the paradoxical trade offs in migration policies in particular labour market integration demonstrated through unequal labour market outcomes lower social mobility and educational attainments The issues faced by migrants offspring in Europe are examined as paradigmatic of the struggle to balance competing calls for both pluralism and uniformity to create a diverse society that can also project a homogenous collective identity This balanced overview will provide an invaluable resource for students of migration studies European politics public policy international relations and the sociology of racism *Women and Borders* Seema

Shekhawat, Emanuela C. Del Re, 2017-12-18 Borders whether settled or contested violent or calm closed or open may have a direct and often acute human impact Those affected may be people living nearby those attempting to cross them and even those who succeed in doing so At the border vulnerable refugee and migrant communities especially women are exposed to state centred boundary practices paving the way for both their alienation and exploitation The militarization of borders subjugates the very position of women in these marginalized areas and often subjects them to further victimization which is facilitated by patriarchal socio cultural practice Structural violence is endemic to these regions and gender interlocks with their perimeters to reinforce and shape violence This book locates gender and violence along geographical edges and critically examines the gendered experiences of women as global border residents and border crossers Broadly it explores two questions First what are women s experiences of engaging with borders Second where are women positioned in the theory and practice of marking remarking and demarking these margins Offering a nuanced and thorough approach this book suggests that research on borders and violence needs to focus on how bordered violence shapes the embodiment of gender identity and norms and how they are challenged It examines an array of issues including forced migration trafficking and cross border ties to explore how gender and borders intersect

Women, Mobility and Incarceration Rimple

Mehta, 2018-09-03 This book explores how Bangladeshi women from poor and undereducated semi educated backgrounds who have crossed the Indo Bangladesh border find themselves in prisons serving sentences under the Foreigners Act 1946 Drawing on original fieldwork this book explores these women s understanding of borders and state sovereignty and how the women from conservative rural and semi rural backgrounds which impose a strict moral code adjust to the socio cultural context of an Indian prison where being an inmate is dishonourable in their community This book examines the implicit challenge in these women s action and decisions to these codes of honour to accepted social norms of their religion and community and ultimately the dominantly patriarchal system that marks South Asian society Further it focuses on the negotiations that the Bangladeshi women make with the social and political borders they encounter in the process of crossing the Indo Bangladesh border without requisite documents needed by the state for entry into a foreign land how they cope with the daily challenges of living during their imprisonment in a correctional home and their feelings about their impending return to Bangladesh Women who are apprehended and criminalised for crossing borders must negotiate with not only the normative understanding of borders which is inherently masculine in nature but also the gender biased lens through which female mobility is viewed therefore they not only cross political borders but also social borders This book maps the associations between women s experiences of mobility and incarceration and their linkages with social and political borders and the fraught experiences of being in a foreign territorial space It will be important reading for criminologists sociologists and those engaged in penology women s studies and migration studies
