Challenging Borders Sheila McManus, 2025-04-15 Borders are known for their paradoxical qualities Sometimes they are shifting and porous lines in the sand constituted more by subjective experience than by legal definition at other times they harden into walls are heavily securitized and their primary function becomes keeping the unwanted out *Challenging Borders* Contingencies and Consequences sets out to explore the concrete complex effects of borders on human aspirations and lives while at the same time underscoring the diversity of individual encounters with these deceptively invisible lines Drawing on insights from history geography Indigenous studies political science refugee and migration studies the visual arts and even physics contributors to the collection examine the role of borders in the ongoing negotiation of national identities in contested claims of sovereignty and belonging in the tensions between freedom of movement and restrictions on entry and in the use of violence in the name of security As the essays illustrate in the context of migration borders are inherently a site of struggle at once a source of hope for those seeking sanctuary and an excuse for others to deny it Indigenous nations migrants and refugees have long known how destructive colonial boundaries can be and this volume offers compelling new angles from which to map the geographies of oppression and resistance

The Iron Curtain Bruce L. Brager, 2004 Visiting Central Europe in 1962 a visitor would not see a real Iron Curtain There was no huge piece of grim drapery splitting Europe between Communist dictatorships and democracies The Iron Curtain represented the Central European part of the Cold War the generally peaceful but highly dangerous forty year competition between the United States and its allies and the Soviet Union and its allies The Iron Curtain symbolically represented the attempt to permanently artificially and arbitrarily split one part of Central Europe from the other Although there was no real iron curtain there was lots of steel in the form of barbed wire ground radar watchtowers and machine guns in the hands of troops willing to use them The boundary between democracy and totalitarianism was clear This book tells the story of the Iron Curtain and the Cold War it so vividly represented from the start of World War II to its end with the dramatic fall of the Berlin Wall in 1989 Book jacket
