The Village Proposal Education As A Shared Responsibility:

The Village Proposal Christopher Paslay, 2011-09 The Village Proposal is based on the African proverb that it takes a village to raise a child Part education commentary part memoir the book analyzes the theme of shared responsibility in public schools and evaluates the importance of sound teacher instruction the effectiveness of America s teacher colleges the need for strong school leaders and supports the need for strong parental and community involvement the effectiveness of multiculturalism and social justice in closing the achievement gap the relevancy of education policy the impact of private business and politics on schools and how the media and technology are influencing education [Jspr Vol 32-N4](#) Journal of School Public Relations, 2011-07-11 The Journal of School Public Relations is a quarterly publication providing research analysis case studies and descriptions of best practices in six critical areas of school administration public relations school and community relations community education communication conflict management resolution and human resources management Practitioners policymakers consultants and professors rely on the Journal for cutting edge ideas and current knowledge Articles are a blend of research and practice addressing contemporary issues ranging from passing bond referenda to building support for school programs to integrating modern information [Community Schools and the State in Ming China](#) Sarah Schneewind, 2006 According to imperial edict in pre modern China an elementary school was to be established in every village in the empire for any boy to attend This book looks at how the schools worked how they changed over time and who promoted them and why Over the course of the Ming period 1368 1644 schools were sponsored first by the emperor then by the central bureaucracy then by local officials and finally by the people themselves The changing uses of schools helps us to understand how the Ming state related to society over the course of nearly 300 years and what they can show us about community and political debates then and now **Proposed Department of Education. Cutler, 2015-05-01 Who holds ultimate authority for the education of America s children teachers or parents Although the relationship between home and school has changed dramatically over the decades William Cutler s fascinating history argues

that it has always been a political one and his book uncovers for the first time how and why the balance of power has shifted over time Starting with parental dominance in the mid nineteenth century Cutler chronicles how schools growing bureaucratization and professionalization allowed educators to gain increasing control over the schooling and lives of the children they taught Central to his story is the role of parent teacher associations which helped transform an adversarial relationship into a collaborative one Yet parents have also been controlled by educators through PTAs leading to the perception that they are company unions Cutler shows how in the 1920s and 1930s schools expanded their responsibility for children s well being outside the classroom These efforts sowed the seeds for later conflict as schools came to be held accountable for solving society s problems Finally he brings the reader into recent decades in which a breakdown of trust racial tension and parents rights have taken the story full circle with parents and schools once again at odds Cutler s book is an invaluable guide to understanding how parent teacher cooperation which is essential for our children s educational success might be achieved
