**The Poetry of Raymond Carver** Sandra Lee Kleppe, 2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in depth examination of Carver's poems making a case for the quality of Carver's poetic output and showing the central role Carver's pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver's entire production and a distinguishing feature of Kleppe's book is its contextualization of Carver's poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver's poetry and short story careers situates Carver's poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver's use of the elegy genre within the context of his terminal illness Tellingly Carver's poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver's work suggests the appropriateness of Kleppe's culminating discussion of Carver's work as a bridge between the fields of literature and medicine

The Art of Editing Tim Groenland, 2019-02-21 The place of the editor in literary production is an ambiguous and often invisible one requiring close attention to publishing history and often inaccessible

archival resources to bring it into focus In *The Art of Editing* Tim Groenland shows that the critical tendency to overlook the activities of editors and to focus on the solitary author figure neglects important elements of how literary works are acquired developed and disseminated Focusing on selected works of fiction by Raymond Carver and David Foster Wallace authors who represent stylistic touchstones for US fiction of recent decades Groenland presents two case studies of editorial collaboration Carver s early stories were integral to the emergence of the Minimalist movement in the 1980s while Wallace s novels marked a generational shift towards a more expansive maximal mode of narrative The role of their respective editors however is often overlooked Gordon Lish s part in shaping the form of Carver s early stories remains under explored analyses of Wallace s fiction meanwhile tend to minimise Michael Pietsch s role from the creation of *Infinite Jest* during the mid 1990s until the present day Drawing on extensive archival research as well as interviews with editors and collaborators Groenland illuminates the complex and often conflicting forms of agency involved in the genesis of these influential works The energies and tensions of the editing process emerge as essential factors in the creation of fictions more commonly understood within the paradigm of solitary authorship The mediating role of the editor is Groenland argues inseparable from the development form and reception of these works *Minimalism and Affect in American Literature, 1970-2020* Oliver Haslam, 2024-09-05

Theorizes the development of a minimalist mode in American fiction since 1970 frequently seen to interrogate US postmodernity *Minimalism and Affect in American Literature 1970 2020* responds to existing studies of literary minimalism by pursuing three original and interrelated objectives It provides a more inclusive and precise definition of minimalism that enables further inquiry into the mode It also exposes the presence of minimalism beyond critical demarcations that attempt to limit the aesthetic to a particular school medium movement form or decade Finally it argues that writers of American literary minimalism are uniquely privileged in their ability to formalize precarity and threatening cultural currents into the fragile construct that is ordinary life Building upon theories of affect and the everyday *Minimalism and Affect in American Literature 1970 2020* analyses minimalist aesthetics within the works of canonical minimalists alongside writers more frequently associated with other movements Through readings of Ernest Hemingway Joan Didion Raymond Carver Paul Auster and Don DeLillo among others and cultural phenomena ranging from sedation to telephony this book exposes the persistence and political importance of minimalism within American literature from the 20th century into the 21st

**Author Fictions** Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have been a staple of novels and stories from the early nineteenth century onwards What is it that attracts authors to representing their own kind in fiction *Author Fictions* addresses this question from a theoretical and historical perspective Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time they also take an active part in negotiating and shaping these conditions The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging

from the Victorian bildungsroman to contemporary autofiction. It combines rhetorical and sociological approaches to answer the question how literature makes authors. Identifying author fictions as narratives that address the fragile material conditions of literary creation in the actual and symbolic economies of production. Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship. This book will be relevant to English American and comparative literary studies and to anyone interested in the topic of literary authorship. The Intermediality of Narrative Literature Jørgen Bruhn, 2016-06-29. This book argues that narrative literature very often if not always include significant amounts of what appears to be extra literary material in form and in content and that we too often ignore this dimension of literature. It offers an up to date overview and discussion of intermedial theory and it facilitates a much needed dialogue between the burgeoning field of intermedial studies on the one side and the already well developed methods of literary analysis on the other. The book aims at working these two fields together into a productive working method. It makes evident in a methodologically succinct way the necessity of approaching literature with an intermedial terminology by way of a relatively simple but never the less productive three step analytic method. In four in depth case studies of Anglophone texts ranging from Nabokov Chandler and Tobias Wolff to Jennifer Egan it demonstrates that medialities matter. *100 escritores del siglo XX. Some of the people who knew Stanley Cavell best or know his work most intimately are gathered in *Inheriting Stanley Cavell* to lend critical insight into the once and future legacy of this American titan of thought. Former students colleagues long time friends as well as distant admirers explore moments when their personal experiences of Cavell's singular philosophical and literary illuminations have as he put it risen to the level of philosophical significance. Many of the memories dreams and reflections on offer in this volume carry with them a welcome register of the autobiographical expressing much as Cavell did through his own writing how the personal can become philosophical and thus

provide a robust mode for the making of meaning and the clarifying of the human condition Here in varied styles and through a range of dynamic content authors engage the lingering question of inheriting philosophy in whatever form it might take and what it means to think about inheritance and enact it      *A Theory of Minimalism* Marc Botha,2017-10-19 The explosion of minimalism into the worlds of visual arts music and literature in the mid to late twentieth century presents one of the most radical and decisive revolutions in aesthetic history Detested by some embraced by others minimalism s influence was immediate pervasive and lasting significantly changing the way we hear music see art and read literature In *The Theory of Minimalism* Marc Botha offers the first general theory of minimalism equally applicable to literature the visual arts and music He argues that minimalism establishes an aesthetic paradigm for rethinking realism in genuinely radical terms In dialogue with thinkers from both the analytic and continental traditions including Kant Danto Agamben Badiou and Meillassoux Botha develops a constellation of concepts which together encapsulate the transhistorical and transdisciplinary reach of minimalism Illustrated by a range of historical canonical and contemporary minimalist works of different media from the caves of early Christian ascetics to Samuel Beckett s late prose Botha offers a bold and provocative argument which will equip readers with the tools to engage critically with past present and future minimalism and to recognize how in a culture caught between the poles of excess and austerity minimalism still matters      **The Empty Cage** Carla Benedetti,2005 In *The Empty Cage* the highly regarded Italian literary critic Carla Benedetti explores the question What is an author Expanding Foucault s arguments beyond literary discourse into art film performance and industrial design Benedetti maintains that the author carries out a historical function integrally connected to the modern system of artistic production and of aesthetic evaluation In the modern period she says any object can be considered a work of art on the supposition that it has been produced by an author Her book far from being an attempt to reclaim authorial intention as essential proposes an original theory that shows how the author in the form of author images and even logos has become an important link in the modern system of artistic communication      *Twentieth-Century and Contemporary American Literature in Context* Linda De Roche,2021-06-04 This four volume reference work surveys American literature from the early 20th century to the present day featuring a diverse range of American works and authors and an expansive selection of primary source materials Bringing useful and engaging material into the classroom this four volume set covers more than a century of American literary history from 1900 to the present *Twentieth Century and Contemporary American Literature in Context* profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical cultural and political contexts that have shaped American writing *Twentieth Century and Contemporary American Literature in Context* provides wide coverage of authors works genres and movements that are emblematic of the diversity of modern America Not only are major literary movements represented such as the Beats but this work also highlights the emergence and development of modern Native American literature African American literature and other representative groups that showcase the diversity
