The Voice Of The Past Oral History:

The Voice of the Past Paul Thompson, 2017-02-24 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of *The Voice of the Past* with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present

Ten Years after Katrina Mary Ruth Marotte, Glenn Jellenik, 2014-12-18 Hurricane Katrina blasted the Gulf Coast in 2005 leaving an unparalleled trail of physical destruction In addition to that damage the storm wrought massive psychological and cultural trauma on Gulf Coast residents and on America as a whole Details of the devastation were quickly reported and misreported by media outlets and a slew of articles and books followed offering a spectrum of socio political commentaries and analyses But beyond the reportage and the commentary a series of fictional and creative accounts of the Katrina experience have emerged in various mediums novels plays films television shows songs graphic novels collections of photographs and works of creative non fiction that blur the lines between reportage memoir and poetry The creative outpouring brings to mind Salman Rushdie's observation that Man is the storytelling animal the only creature on earth that tells itself stories to understand what kind of creature it is This book accepts the urge behind Rushdie's formula humans tell stories in order to understand ourselves our world and our place in it Indeed the creative output on Katrina represents efforts to construct a cohesive narrative out of the wreckage of a cataclysmic event However this book goes further than merely cataloguing the ways that Katrina narratives support Rushdie's rich claim This collection represents a concentrated attempt to chart the effects of Katrina on our cultural identity it seeks to not merely catalogue the trauma of the event but to explore the ways that such an event functions in and on the literature that represents it The body of work that sprung out of Katrina offers a unique critical opportunity to better understand the

genres that structure our stories and the ways stories reflect and produce culture and identity These essays raise new questions about the representative genres themselves The stories are efforts to represent and understand the human condition but so are the organizing principles that communicate the stories That is Katrina narratives present an opportunity to interrogate the ways that specific narrative structures inform our understanding and develop our cultural identity This book offers a critical processing of the newly emerging and diverse canon of Katrina texts
