They need to know what systems to examine, what questions to ask, and how to ensure they are managing people in a legal manner and as effectively as possible given their particular resource constraints. Important questions include: Do we have a clear philosophy, one that aligns with our nonprofit mission and values and allows us to treat our employees as the professionals they are? How do we select, develop, and retain the best people who will produce high-value, high-performance work, and how do we do so with limited resources? How do we effectively manage our mix of volunteers and paid staff? What do we need to consider to ensure diverse people work together in a harmonious fashion? With all new chapters written by the top scholars in the field of nonprofit HRM, these are but a few of the many questions that are addressed in this timely volume. These scholars delve into their particular areas of expertise, offering a comprehensive look at theories and trends, legal and ethical issues, how to build HRM from recruitment management, labor relations to training and appraisal, as well as topics in diversity, technology, and paid versus volunteer workforce management.
