

A dramatic sunset scene over a body of water. The sky is a deep orange and red, with the sun low on the horizon. In the foreground, a person is swimming in the water, their head and shoulders visible. In the background, two military aircraft are flying in the sky, and a ship is visible on the horizon. The overall mood is somber and intense.

Huntley,Mitsuru Kurosawa,Kazumi Mizumoto,2005-03-06 This work provides a comprehensive examination of the current state and future prospects for nuclear disarmament at the turn of the century The work juxtaposes a sober review of progress made during the last decade with a proactive agenda of proposals for new disarmament initiatives in the next decade Taken together the contributions to this volume suggest that contrary to current conventional wisdom the increasing global cache of nuclear weapons and the waning progress on nuclear disarmament of recent years need not become the defining features of the post Cold War era Rather by examining the new conditions that have emerged at the dawn of the of the 21st century through both national and issue based perspectives this work reveals how the likelihood of continuing uncertainty and change in world affairs creates opportunities as well as the need for renewed progress toward significant nuclear disarmament **Annual Department of Defense Bibliography of Logistics Studies and Related Documents** United States.
