The Hidden White House Robert Klara, 2013-10-22 The little known story of the White House's gutting and renovation during the Truman presidency Delightful and informative plenty of entertaining drama Publishers Weekly In 1948 President Harry Truman enjoying a bath on the White House's second floor almost plunged through the ceiling of the Blue Room into a tea party for the Daughters of the American Revolution A handpicked team of the country's top architects conducted a secret inspection of the troubled mansion and after discovering it was in imminent danger of collapse insisted that the First Family be evicted immediately What followed would be the most historically significant and politically complex home improvement job in American history While the Trumans camped across the street at Blair House Congress debated whether to bulldoze the White House completely and the Soviets exploded their first atomic bomb starting the Cold War Robert Klara reveals what has until now been little understood about this episode America's most famous historic home was basically demolished giving birth to today's White House Leaving only the mansion's facade untouched workmen gutted everything within replacing it with a steel frame and a complex labyrinth deep below ground that soon came to include a top secret nuclear fallout shelter The story of Truman's rebuilding of the White House is a snapshot of postwar America and its first Cold War leader undertaking a job that changed the centerpiece of the country's national heritage The job was by no means perfect but it was remarkable and until now all but forgotten Includes photographs Captivating From bathtubs to bomb shelters Klara leaves no piece of crumbling sandstone unturned and is as astute a storyteller as he is a dogged researcher Denise Kiernan New York Times bestselling author of *The Last Castle*

The White House and the executive branch** Michael Nelson, 2002      **National Geographic Traveler: Washington D. C.** John M. Field, Isabelle Gournay, Thomas P. Somma, 2013-02-04 In 1910 John Mervyn Carr, a Paris-trained American architect, wrote *Learning from Paris*, made Washington outstanding among American cities. The five essays in *Paris on the Potomac* explore aspects of this influence on the artistic and architectural environment of Washington, D.C., which continued long after the well-known contributions of Peter Charles L'Enfant, the transplanted French military officer who designed the city's plan. Isabelle Gournay's introductory essay provides an overview and examines the context and issues involved in three distinct periods of French influence: the classical and Enlightenment principles that prevailed from the 1790s through the 1820s; the Second Empire style of the 1850s through the 1870s; and the Beaux-Arts movement of the early twentieth century. William C. Allen and Thomas P. Somma present two case studies: Allen on the influence of French architecture, especially the *Halle aux Blés*, on Thomas Jefferson's vision of the U.S. Capitol; and Somma on David d'Angers's busts of George Washington and the Marquis de Lafayette. Liana Paredes offers a richly detailed examination of French-inspired interior decoration in the homes of Washington's elite in the late nineteenth and early twentieth centuries. Cynthia R. Field concludes the volume with a consideration of the influence of Paris on city planning in Washington, D.C., including the efforts of the McMillan Commission and the later development of the Federal Triangle complex. The essays in this collection, the latest addition to the series *Perspectives on the Art and Architectural History of the United States Capitol*, originated in a conference held by the U.S. Capitol Historical Society in 2002 at the French Embassy's *Maison Française*.

**42** Michael Nelson, Barbara A. Perry, Russell L. Riley, 2016-07-08 This book uses hundreds of hours of newly opened interviews and other sources to illuminate the life and times of the nation's forty-second president, Bill Clinton. Combining the authoritative perspective of these inside accounts with the analytic powers of some of America's most distinguished presidential scholars, the essays assembled here offer a major advance in our collective understanding of the Clinton White House. Included are path-breaking chapters on the major domestic and foreign policy initiatives of the Clinton years, as well as objective discussions of political success and failure. p. 42 is the first book to make extensive use of previously closed interviews collected for the Clinton Presidential History Project conducted by the Presidential Oral History Program of the University of Virginia's Miller Center. These interviews, recorded by teams of scholars working under a veil of strict confidentiality, explored officials' memories of their service with President Clinton and their careers prior to joining the administration. Interviewees also offered political and leadership lessons they had gleaned as eyewitnesses to and shapers of history. Their spoken recollections provide invaluable detail about the inner history of the presidency in an age when personal diaries and discursive letters are seldom written. The authors producing this volume had first access to more than fifty of these cleared interviews, including sessions

with White House chiefs of staff Mack McLarty and Leon Panetta Secretaries of State Warren Christopher and Madeleine Albright National Security Advisors Anthony Lake and Sandy Berger and a host of political advisors who guided Clinton into the White House and helped keep him there This book thus provides a multidimensional portrait of Bill Clinton's administration drawing largely on the observations of those who knew it best p Contributors Spencer D Bakich University of Richmond Brendan J Doherty United States Naval Academy Patrick T Hickey West Virginia University p Elaine Kamarck Center for Effective Public Management Brookings Institution Sidney M Milkis University of Virginia Megan Moeller University of Texas at Austin Michael Nelson Rhodes College and the Miller Center University of Virginia p Bruce F Nesmith Coe College ppBarbara A Perry Miller Center University of Virginia ppPaul J Quirk University of British Columbia ppRussell L Riley Miller Center University of Virginia Andrew Rudalevige Bowdoin College Robert A Strong Washington and Lee University Sean M Theriault University of Texas at Austin

Watson, 2005 In this book version of the official report presented to First Lady Laura Bush the reader will find the same contents that were included in the actual report This report marks the first ever time that such an undertaking was performed for the nation's first lady The report designed as a service to assist Mrs Bush in meeting the demands of her new role contains advice for the first lady and her senior staff as well as information on the history challenges and duties associated with the Office of the First Lady The contributors include the former first ladies public officials and leading historians of the first ladyship The Office of the First Lady is arguably the most intriguing and demanding unpaid job in the country The president's wife is in the unique position to wield significant power and influence as she presides over White House social affairs and important social projects while serving as the president's most trusted confidante and one of the country's most celebrated women

**The Nixon White House Redecoration and Acquisition Program** Patrick Phillips-Schrock, 2016-06-21 A positive legacy of the troubled Nixon administration and one virtually unknown to the American public is the extensive acquisition of valuable art and antiques for the White House and the redecoration of the executive mansion by Pat Nixon With the help of an aggressive curator Clement Conger and a talented interior designer Edward Vason Jones the First Lady quietly erased much of the historic decor of Jacqueline Kennedy's Camelot and introduced an academic look to the State Rooms which endures to this day Nixon marked his presidential territory with a complete renovation of the West Wing a harbinger of the First Lady's plans They implemented a massive fundraising campaign to bankroll the refurbishment which resulted in one of the foremost collections of art art objects furniture paintings and sculpture in America This book presents the never before told story of the Nixons remodeling of the White House motivated by the approaching American Bicentennial and a desire to restore respect to the presidency through the arts
