ancient prototypes or invented new ones Earlier and later versions of this aesthetic in the ancient Greek Anacreontea the French Parnassian poets and Erik Satie's Socrate manifest its character in different media and periods Looking with a sympathetic eye on the original aspirations of the neoclassical aesthetic and its forward looking potential Fitzgerald describes how it can tip over into the vacancy or kitsch through which a remaindered antiquity lingers in our minds and environments This book asks how the neoclassical value of simplicity serves to conjure up an epiphanic antiquity and how whiteness in both its literal and its metaphorical forms acts as the logo of neoclassical antiquity and functions aesthetically in a variety of media In the context of the waning of a neoclassically idealized antiquity Fitzgerald describes the new contents produced by its asymptotic approach to meaninglessness and how the antiquity that it imagined both is and is not with us

China's Change: The Greatest Show On Earth Hugh Peyman, 2018-03-14 Importantly China's Change The Greatest Show on Earth provides a welcome contrast to such fashionable pessimism demolishes a series of popular urban myths and a very convincing case he makes This to my mind is a wholly original approach to understanding present day China and the book is well worth reading for this alone readers are likely to end up considerably wiser about how the Chinese economy has developed and how it currently works It's difficult to do justice to the exceptionally wide ranging scope of the book It is furthermore well written as befits a former journalist and highly readable a useful corrective for the innate pessimism which has pervaded so much Western economic and financial commentary in recent years The Society of Professional Economists SPE China's Change injects timely original ideas into the world's most important if confused debate over how to manage the twin challenges of anaemic economic growth and accelerating global disruption Change is the cry from the US to Europe

The Objects That Remain Laura Levitt, 2020-09-28 On a November evening in 1989 Laura Levitt was raped in her own bed Her landlord heard the assault taking place and called 911 but the police arrived too late to apprehend Laura s attacker When they left investigators took items with them a pair of sweatpants the bedclothes and a rape exam was performed at the hospital However this evidence was never processed Decades later Laura returns to these objects viewing them not as clues that will lead to the identification of her assailant but rather as a means of engaging traumatic legacies writ large The Objects That Remain is equal parts personal memoir and fascinating examination of the ways in which the material remains of violent crimes inform our experience of and thinking about trauma and loss Considering artifacts in the United States Holocaust Memorial Museum and evidence in police storage facilities across the country Laura s story moves between intimate trauma the story of an unsolved rape and genocide Throughout she asks what it might mean to do justice to these violent pasts outside the juridical system or through historical empiricism which are the dominant ways in which we think about evidence from violent crimes and other highly traumatic events Over the course of her investigation the author reveals how these objects that remain and the stories that surround them enable forms of intimacy In this way she models for us a different kind of reckoning where justice is an animating process of telling and holding

Crossings Natalya Din-Kariuki, 2025-10-03 Crossings Migrant Knowledges Migrant Forms brings together activists artists scholars and migrants with diverse histories to explore what the experience of migration does with and to knowledge and how its own ways of knowing find expressive form As the volume s authors think about physical and imaginative crossings and the traversals and transactions of knowledge they entail the book itself crosses and complicates disciplinary and formal boundaries and the barriers between critical and creative intervention Crucially it brings together voices and forms emerging out of the experience of dislocation with responses to the encounters it generates The volume s discussions begin in the early modern world and move freely across periods to dwell on the urgent experience of migrancy in our own times while also responding to an urgent need to connect the local with the global experience of migrant knowledge and migrant aesthetics Crossings stakes the claim that creative art backed by humanities based thinking can meet the imaginative and ethical demands that the unknowable reality of mass displacement places on us in a way that governments institutions and public discourse have calamitously failed to do But aesthetic practice itself needs to be re positioned if it is to rise to these political and human

challenges negotiating the points of friction between its own predilections and the matter of migration Crossings offers migrant forms art about migration objects from migrant life shaped into artifacts and migrant self expressions as the means of this imaginative re orientation and a tool for activating a radical alternative to economic models of social benefit Crossings takes its place in an emergent ecology of migrant forms both speaking to and participating in that ecology

Terrible Beauty Marian Eide, 2019-03-13 If art is our bid to make sense of the senseless there is hardly more fertile creative ground than that of the twentieth century From the trench poetry of World War I and Holocaust memoirs by Primo Levi and Elie Wiesel to the post colonial novels of southern Asia and the anti apartheid plays of the South African Market Theater writers have married beauty and horror This century of trauma produced writing at once saturated in political violence and complicated by the ethics of aesthetic representation Stretching across genres and the globe Terrible Beauty charts a course of aesthetic reconciliation between empathy and evil in the great literature of the twentieth century The violent aesthetic a category the author traces back to Plato and Nietzsche accommodates the pleasure people take not only in destruction itself but also in its rendering As readers we oscillate between a fascination with atrocity and an ethical imperative to bear witness Arguing for the immersive experience of literature as particularly conducive to ethical contemplation Marian Eide plumbs the aesthetic power and ethical purpose of this creative tension By invoking the reader as complicit both stricken witness and enthralled voyeur Terrible Beauty sheds new light on the relationship between violence literature and the moral burdens of art

This is the book on porcelain we have been waiting for A remarkable achievement Edmund de Waal author of The Hare with Amber Eyes A sweeping cultural and economic history of porcelain from the eighteenth century to the present Porcelain was invented in medieval China but its secret recipe was first reproduced in Europe by an alchemist in the employ of the Saxon king Augustus the Strong Saxony s revered Meissen factory could not keep porcelain s ingredients secret for long however and scores of Holy Roman princes quickly founded their own mercantile manufactories soon to be rivaled by private entrepreneurs eager to make not art but profits As porcelain s uses multiplied and its price plummeted it lost much of its identity as aristocratic ornament instead taking on a vast number of banal yet even more culturally significant roles By the nineteenth and twentieth centuries it became essential to bourgeois dining and also acquired new functions in insulator tubes shell casings and teeth Weaving together the experiences of entrepreneurs and artisans state bureaucrats and female

consumers chemists and peddlers Porcelain traces the remarkable story of white gold from its origins as a princely luxury item to its fate in Germany's cataclysmic twentieth century For three hundred years porcelain firms have come and gone but the industry itself at least until very recently has endured After Augustus porcelain became a quintessentially German commodity integral to provincial pride artisanal industrial production and a familial sense of home Telling the story of porcelain's transformation from coveted luxury to household necessity and flea market staple Porcelain offers a fascinating alternative history of art business taste and consumption in Central Europe
