The Whole Truth The Tainted Prosecution Of An American Fighter Pilot:

The Whole Truth Bob Harvey, 2013-12 Under pressure to clean up its reputation for sexual harassment and abuse the United States military is aggressively prosecuting sexual assault cases One Air Force member accused is fighter pilot Lt Col James Wilkerson With no physical evidence and conflicting testimony the Air Force ignored facts and used questionable tactics in a relentless pursuit of the high profile case In THE WHOLE TRUTH retired Col Robert Harvey puts the case itself on trial using court martial records to examine the story point by point With shocking clarity he reveals the flaws in the case and the machinations of military officials whose code of honor and integrity are endangered by political influence Cocoa, Florida Bob Harvey, 2014-08-12 Cocoa is the gateway to America's Spaceport But before it became the tourist haven it is today it was a small village settled by fishermen and their families The city's location on the Indian River Lagoon made it central to early steamboat passage and breathed life into fishing and commerce After World War II the space age brought science and engineering to nearby Cape Canaveral The city also has a history of baseball nearly as long as the sport itself It was home to the Cocoa Fliers of the 1940s and hosted the Houston Colt 45s during spring training for twenty years Join author Bob Harvey as he recounts the sunny history of one of the Space Coast's oldest cities Secret Wings of World War II Lance Cole, 2015-06-30 There are many myths and legends surrounding the advanced German aeronautical technology of the Second World War There are also facts and proven events Yet within these stories and behind these facts lie conspiracy theories mistaken assumptions and denials that seem to contradict the evidence So what really happened How far ahead were the German scientists And of even greater interest why and how There have been other books about advanced German wartime aeronautics yet few authors have fully examined the detail of the designs and their relevance to the fighter and bomber legends of the 1950s and 60s let alone the current crop of military and civil all wing or blended wing aircraft This book charts the story from its origins through current day innovations and beyond into the all wing future of tomorrow
