Muraresku, 2020-09-29 THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience A groundbreaking dive into the role psychedelics have played in the origins of Western civilization and the real life quest for the Holy Grail that could shake the Church to its foundations The most influential religious historian of the 20th century Huston Smith once referred to it as the best kept secret in history Did the Ancient Greeks use drugs to find God And did the earliest Christians inherit the same secret tradition A profound knowledge of visionary plants herbs and fungi passed from one generation to the next ever since the Stone Age There is zero archaeological evidence for the original Eucharist the sacred wine said to guarantee life after death for those who drink the blood of Jesus The Holy Grail and its miraculous contents have never been found In the absence of any hard data whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians In an unprecedented search for answers The Immortality Key examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet Religion and science converge to paint a radical picture of Christianity's founding event And after centuries of debate to solve history's greatest puzzle Before the birth of Jesus the Ancient Greeks found salvation in their own sacraments Sacred beverages were routinely consumed as part of the so called Ancient Mysteries elaborate rites that led initiates to the brink of death The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis where a holy beer unleashed heavenly visions for two thousand years Others drank the holy wine of Dionysus to become one with the god In the 1970s renegade scholars claimed this beer and wine the original sacraments of Western civilization were spiked with mind altering drugs In recent years vindication for the disgraced theory has been quietly mounting in the laboratory The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity And with a single dose of psilocybin the psychopharmacologists at Johns Hopkins and NYU are now turning self proclaimed atheists into instant believers But the smoking gun remains elusive If these sacraments survived for thousands of years in our remote prehistory from the Stone Age to the Ancient Greeks did they also survive into the age of Jesus Was the Eucharist of the earliest Christians in fact a psychedelic Eucharist With an unquenchable thirst for evidence Muraresku takes the reader on his twelve year global hunt for proof He tours the ruins of Greece with its government archaeologists He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine He unravels the Ancient Greek of the New Testament with the world's most controversial priest He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English And with leads from the archaeological chemists at UPenn and MIT he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity The Immortality Key reconstructs the suppressed history of

women consecrating a forbidden drugged Eucharist that was later banned by the Church Fathers Women who were then targeted as witches during the Inquisition when Europe's sacred pharmacology largely disappeared If the scientists of today have resurrected this technology then Christianity is in crisis Unless it returns to its roots Featuring a Foreword by Graham Hancock the NYT bestselling author of *America Before* [How to Study Magic](#) Sarah Lyons, 2022-11-15 An insider's guide for beginner mystics *How to Study Magic* is your ultimate introduction to the main areas of magic from witchcraft to grimoires what it means to practice them and most of all how to get started Have you ever wanted to dive into the world of magic but weren't sure where to begin You're not alone Knowing where to start can be mystifying but it doesn't have to be In *How to Study Magic* author educator and seasoned witch Sarah Lyons guides you through an introductory course of study and an enchanted entry point to the wide world of magical paths Drawing on Sarah's own experience practicing and teaching magic for more than a decade this interactive exploration takes novice witches through basic tools they can use in their studies from divination and meditation to cleansing and protection before diving into the history lore and modern incarnations of a wide range of magical practices With chapters on Witchcraft Chaos Magic Spellbooks and Grimoires Gods and Goddesses and more this dynamic guide gives readers an insider's perspective on how to craft their own personalized practice Each chapter also contains interactive activities journal prompts and suggestions for further reading allowing baby witches to chart their own paths and explore their own power For anyone who knows they want to study magic but has no idea where to begin *How to Study Magic* is the answer you've been waiting for [The Poison Path Grimoire](#) Coby Michael, 2024-11-05 Shares a detailed formulary including rituals magical correspondences and recipes for working with the baneful herbs of occult herbalism Looks at the plants of fate and the divination practices they support love magic with poison plants shadow work and spell work the devil's garden and the use of nightshades as power plants for medicine and magic Explores poison history lore occult toxicology and the alchemical power of working with poison Examining the art and science of working with noxious and malefic plants and fungi Coby Michael discusses the occult properties of poison and how poison plants can be used in spell work and other magical operations He looks at the plants of Fate and the divination practices they support love magic with poison plants shadow work the devil's garden and the use of nightshades as power plants for medicine and magic Presenting a detailed formulary he shares rituals magical correspondences and recipes for working with specific poison plant allies and other baneful herbs of occult herbalism Exploring the path of dark herbalism the author explains how it encompasses not only veneficium poisonous plants and fungi but all plants that humanity has tried to forget from invasive plants and those we can't domesticate to those that have been regulated arbitrarily or simply feared as toxic or poison He shows how the dark herbalist seeks out plants that are adversarial or taboo because the qualities we consider dark are really the plant's spiritual medicine and can offer powerful wisdom and healing Examining poison history lore and occult toxicology he explains how the aim of using these plants is not to cause physical death but rather death of the
