British Women Writers and the Writing of History, 1670-1820 Devoney Looser,2000 Chosen by Choice Magazine as an Outstanding Academic Title Until recently history writing has been understood as a male enclave from which women were restricted particularly prior to the nineteenth century The first book to look at British women writers and their contributions to historiography during the long eighteenth century *British Women Writers and the Writing of History 1670 1820* asks why rather than writing history that included their own sex some women of this period chose to write the same kind of history as men one that marginalized or excluded women altogether But as Devoney Looser demonstrates although British women s historically informed writings were not necessarily feminist or even female focused they were intimately involved in debates over and conversations about the genre of history Looser investigates the careers of Lucy Hutchinson Lady Mary Wortley Montagu Charlotte Lennox Catharine Macaulay Hester Lynch Piozzi and Jane Austen and shows how each of their contributions to historical discourse differed greatly as a result of political historical religious class and generic affiliations Adding their contributions to accounts of early modern writing refutes the assumption that historiography was an exclusive men s club and that fiction was the only prose genre open to women

Writing Women's History Since the Renaissance Mary Spongberg,2017-03-08 The complaint of Catherine Morland in Jane Austen s *Northanger Abbey* that history has hardly any women at all is not an uncommon one Yet there is evidence to suggest that women have engaged in historical writing since ancient times This study traces the history of women s historical writing reclaiming the lives of individual women historians recovering women s historical writings from

the past and focusing on how gender has shaped the genre of history Mary Spongberg brings together for the first time an extensive survey of the progress of women's historical writing from the Renaissance to the present demonstrating the continuities between women's historical writings in the past and the development of a distinctly woman-centred historiography Writing Women's History since the Renaissance also examines the relationship between women's history and the development of feminist consciousness suggesting that the study of history has alerted women to their unequal status and enabled them to use history to achieve women's rights Whether feminist or anti-feminist women who have had their historical writings published have served as role models for women seeking a voice in the public sphere and have been instrumental in encouraging the growth of a feminist discourse

A History of Women in 100 Objects Professor Maggie Andrews, Dr Janis Lomas, 2018-02-23 The history of the world has been told in objects But what about the objects that tell the history of women What are the items that symbolise the journey of women from second-class citizens with no legal rights no vote and no official status to the powerful people they are today And what are the objects that still oppress women even now From the corset to the contraceptive pill the bones of the first woman to Rosa Parks's mugshot and the iconic Mary Quant's cape A History of Women in 100 Objects documents the developing role of women in society through the lens of the inanimate objects that touched women's lives were created by women or that at some time perhaps even still oppressed them Woven by two leading historians this complex fascinating and vital tale of women and womanhood is told with a lightness of touch and depth of experience that will appeal to all those interested in women's history
