or Is It Hooey? J L Miller,2013-11-01 The original purpose of this book was to explore various religious ideas and beliefs relating to the hereafter The title was to be The Hereafter Maybe On completion of the first few chapters the author concluded that every major religions philosophy theology had included much nonsense at least if viewed solely from common sense Thus this text took on an increased scope It has a wealth of imagination on holy belief and the possibilities of an afterlife Most nonfiction writers on the subject of religion generally endorse a preconditioned accepted view as truth and even the only truth This books author believes all truth is partial and that any human belief about God from any religion is at best partial Both the expert and the layman will find food for thought regarding the reality of their own religious philosophy

THE GREAT CORRECTING TIME PLAN Joseph Jean-Phillippe,2013-08-18 The Great Correcting Time Plan is a cosmic undertaking to restore the will of God on earth and 36 other planets that were severely affected by the Lucifer rebellion around 250 000 years ago Its diverse components were designed and tailored to address the issues and accommodate the local condition of each world specifically It was initiated on earth by Christ Michael during his human bestowal as Jesus Today it is being implemented here by three different celestial programs known as the Urantia Book the Teaching Mission and the Magisterial Mission Abomaly the disembodied personality with whom we interfaced to obtain these information is essentially the main voice of this text He was himself a former mortal from another inhabited sphere thousands of years prior to his present status as an Ascended Master

Consider What the Angels Say George DeVangelos,2016-08-31 Our world now and throughout history has had conflicting accounts of the nature of God and man s relationship to this cosmic deity These conflicts have wrecked havoc within the societies of humanity to dangerous levels Mankind has relied upon his sacred and canonized scriptures to provide doctrinal absolutes for his religions but these absolutes differ and therefore cannot possibly all be correct at least in specific contexts However there exist a very mysterious book circulating worldwide that does have specific detailed and consistent answers to all of our questions The origin of this book is steeped in mystery and no human author has claimed ownership to its teachings which cover 2097 pages of intensive reading and exhaustive information This book is known as the Urantia Book and has been placed in the public domain The Urantia Book takes us from the conceptual locations within our segregated religious heritage and correctively re calibrates our various belief systems which have been unavoidably limited and distorted by our world views throughout human history After its conceptual enhancements and adjustments the Urantia Book enlarges such informational details into an elevation of more exact universal levels of perception as an advancement of cosmic truth Consider What the Angels Say takes this expansive and intricately complicated book and presents a timesaving presentation of its teachings and gently correlates it with Christian doctrines and other religions as well as human philosophy and knowledge In this book the following questions will be answered What exactly is God and how does this phenomenon relate to infinite reality the time and space cosmos other spiritual beings and our world Exactly what is the Godhead Trinity and why is it a necessary foundation for the existence of

universal reality What are angels and spiritual principalities What are their levels and types and how do they interface and interact between supernatural and human situations How does the historical Jesus Christ fit into the spiritual dimensions of reality How is he related to the one eternal God and how is Jesus an integral part of our soul salvation How was man physically created and what accounts for the variances in human biological races and how does this correlate with the theory of evolution What is the nature of the human soul and how is it translated into the eternal spiritual realities and how does it exist beyond death and what is its destiny How did mankind come to develop and organize his cultures and what part did supernatural spiritual beings play in the formulations of man s religious doctrines Why has there been so much tragedy hardship war disease and social discord throughout our history What is the nature of sin and why does evil even exist Something is not right what went wrong In all of the versions of religious theologies and doctrines worldwide no one book explains the details of these universal mysteries as completely and systematically as the Urantia Book it is truly a gift from the angels Consider What the Angels Say is a concentrated effort forged from the heartfelt love and concern for humanity to introduce this majestic angelic book to all who are able to receive and benefit from its supernatural information UFO Religions Christopher Partridge,2012-11-12 The spectre of the UFO as popularized by shows such as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven s Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs **Heaven Is Not the Last Stop** Sheila Keene-Lund,2010-05 Heaven Is Not the Last Stop by Sheila Keene Lund is the first book to attempt to reconcile the cutting edge of today s metaphysics history theology and cosmology with the unprecedented teachings of The Urantia Book a 2 097 page text claiming to be a planetary revelation Keene Lund addresses this formidable challenge in four sections The first three address humanity s origin history and destiny her fourth section builds upon the universal and inspiring worldview that results from her research and offers readers an advanced framework for living a life of love and service **Your Evolving Soul** Byron Belitsos,2017-05-25 Sparks of genuine revelation are contained in many religions and esoteric systems Your Evolving Soul declares that we ve been graced with a new revelation for our time the little known Urantia Book which has quietly sold over one million copies in a dozen languages According to the author of this comparative analysis the disclosures about self soul and spirit in the Urantia Revelation stand alone in their coherence and richness of detail Your Evolving Soul is the first book to fully explain this advanced teaching for the ordinary reader offering clarity and inspiration for those on any path Belitsos compares the Urantia Book s futuristic teachings about the threefold design of the human self system to the models of selfhood proposed

by many previous thinkers ranging from Plato and Saint Augustine to Carl Jung and Ken Wilber. He provides essential context for this discussion by illuminating the relationship of the Urantia text to scientific psychology and to the world's religions with special emphasis on Christianity and Buddhism. Your Evolving Soul also provides an introduction to the cosmology, theology, and philosophy of the Urantia teaching and reveals its many affinities with contemporary integral theory and modern theology. Through his lucid interpretation of the Urantia Revelation, the author offers a model of the human self and soul to be tested, examined, and compared, not a finished truth to be accepted as doctrine. Readers of this book will discover a plausible hypothesis of how our evolving soul becomes an immortal vehicle of our true identity. They also learn how our soul-making decisions can lead to the development of a creative, loving, unified, and perfected personality now and into the afterlife.

Truths about Evil, Sin, and the Demonic Byron Belitsos, 2023-04-18. The Problem of Evil and the Predicament of Theodicy. As Christians or theists, we are moved to share the truth of God's love for humankind. But how can we speak of such providential care in a world rife with crime, war, racism, genocide, and even ecocide? In response to this predicament, a theodicy proposes a rational defense of God's goodness that offers consolation to victims and hope to all believers. Truths about Evil, Sin, and the Demonic provides a sweeping history of the discipline of theodicy that focuses on its strategic turning points and its possible future. Belitsos argues that because of the atrocities of the last century and the threat of horrendous evils in the coming century, we need to marshal the most explanatory elements of all previous theodicies and then drive toward an integrative model based on a creative synthesis. The author also turns to a modern revelatory source that supports his argument for such a meta-theodicy. He concludes by critically engaging with this source and the entire tradition in his call for an apophatically informed integral theodicy.

Alchemy of the Human Experience J.K. McLean, 2022-08-01. Man is less significant than he thinks he is and at the same time more important than he can possibly imagine. Alchemy is the process of changing the ordinary into something extraordinary. The purpose of mortality or human existence has nothing to do with the accumulation of things that rust and

deteriorate and everything to do with the acquisition of something that transcends the ordinary and that endures Man's journey begins in his instinctual mind develops in his intellectual mind and evolves to his spiritual mind as each of us exchange potentials for actuals Alchemy of the Human Experience is about exchanging man's human nature for his divine nature This life is the cocoon of the gods Historical Dictionary of New Religious Movements George D. Chryssides, 2012 New religious movements commonly known as cults are defined as organizations that have arisen within the last 200 years Most treatments of these movements have typically resorted to sensationalism rather than objectivity and New religious movements tend to receive negative media publicity Despite their unfavorable portrayal in popular culture however new religious movements are a global phenomenon and much remains to be studied about these movements In this newly updated second edition of the Historical Dictionary of New Religious Movements George D Chryssides traces the rise and development of new religious movements throughout the world An updated introduction summarizes the phenomenon of new religious movements and lays out the changes to the dictionary since the 2001 edition while the main body of the dictionary consists of close to 600 cross referenced entries on key figures ideas themes and places related to various new religious movements An index organizes the information in the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about new religious movements **UNEXPLAINED, CURSED OR JUST PLAIN FÖD UP BOOKSÉ** Go_i RavenSkŸl VenÇEs,

Mediality on Trial Ehler Voss, 2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other
