

A black and white portrait of Primo Levi, an elderly man with white hair, a mustache, and round glasses. He is wearing a dark suit jacket over a light-colored shirt. The background is slightly blurred, showing what appears to be a bookshelf.

The Voice Of Memory Interviews 1961 1987:

Interpreting Primo Levi Arthur Chapman, Minna Vuohelainen, 2016-04-29 The legacy of antifascist partisan Auschwitz survivor and author Primo Levi continues to drive exciting interdisciplinary scholarship The contributions to this intellectually rich tightly organized volume from many of the world's foremost Levi scholars show a remarkable breadth across fields as varied as ethics memory and media studies **Gray Zones** Jonathan Petropoulos, John Roth, 2006-10-01 Few essays about the Holocaust are better known or more important than Primo Levi's reflections on what he called the gray zone a reality in which moral ambiguity and compromise were pronounced In this volume accomplished Holocaust scholars among them Raul Hilberg Gerhard L Weinberg Christopher Browning Peter Hayes and Lynn Rapaport explore the terrain that Levi identified Together they bring a necessary interdisciplinary focus to bear on timely and often controversial topics in cutting edge Holocaust studies that range from historical analysis to popular culture While each essay utilizes a particular methodology and argues for its own thesis the volume as a whole advances the claim that the more we learn about the Holocaust the more complex that event turns out to be Only if ambiguities and compromises in the Holocaust and its aftermath are identified explored and at times allowed to remain lest resolution deceive us will our awareness of the Holocaust and its implications be as full as possible **Systemic Interventions for Collective and National Trauma**

Michal Shamai, 2015-09-07 Systemic Interventions for Collective and National Trauma explains the theoretical basis for understanding collective and national trauma through the concept of systems theory and gives ways of implementing systems theory in interventions at the micro mezzo and macro levels Particular attention is given to the use of socio political and cultural aspects of interventions with victims as well as to the ethical codes that social workers and other mental health professionals need to integrate in their work with collective national trauma Separated into two distinct parts on theory and practice this volume is appropriate for practitioners as well as students in advanced courses **The Failures of Ethics**

John K. Roth, 2015 The Failures of Ethics concentrates on the multiple shortfalls and shortcomings of thought decision and action that tempt and incite us human beings to inflict incalculable harm Absent the overriding of moral sensibilities if not the collapse or collaboration of ethical traditions the Holocaust genocide and other mass atrocities could not have happened Our senses of moral and religious authority have been fragmented and weakened by the accumulated ruins of history and the depersonalized advances of civilization that have taken us from a bloody twentieth century into an immensely problematic twenty first Salvaging the fragmented condition of ethics this book shows how respect and honor for those who save lives and resist atrocity deepened attention to the dead and to death itself and appeals for human rights and renewed spiritual sensitivity confirm that ethics contains and remains an irreplaceable safeguard against its own failures **Narrative and Imperative** Risa B. Sodi, 2007 Introduction some considerations on Italian Holocaust writing Setting the stage a brief history of the Jews of Italy Italian Holocaust testimony Primo Levi's Holocaust lexicon So that none should forget Bruno Piazza Liana

Millu's struggle for a women's Holocaust Giuliana Tedeschi wife mother survivor Re imagining the Holocaust Italian fiction First on the scene Giacomo Debenedetti Elsa Morante's questionable history The only real Jew Giorgio Bassani Paolo Maurensig and the third iteration Conclusion 1944 1994 and beyond Interdisciplinary Handbook of Trauma and Culture Yochai Ataria, David Gurevitz, Haviva Pedaya, Yuval Neria, 2016-09-15 This lofty volume analyzes a circular cultural relationship not only how trauma is reflected in cultural processes and products but also how trauma itself acts as a critical shaper of literature the visual and performing arts architecture and religion and mythmaking The political power of trauma is seen through US Israeli and Japanese art forms as they reflect varied roles of perpetrator victim and witness Traumatic complexities are traced from spirituality to movement philosophy to trauma theory And essays on authors such as Kafka Plath and Cormac McCarthy examine how narrative can blur the boundaries of personal and collective experience Among the topics covered Television a traumatic culture From Hiroshima to Fukushima comics and animation as subversive agents of memory in Japan The death of the witness in the era of testimony Primo Levi and Georges Perec Sigmund Freud's Moses and Monotheism and the possibility of writing a traumatic history of religion Placing collective trauma within its social context the case of the 9/11 attacks Killing the killer rampage and gun rights as a syndrome This volume appeals to multiple readerships including researchers and clinicians sociologists anthropologists historians and media researchers

Literature of the Holocaust Alan Rosen, 2013-11-14 During and in the aftermath of the dark period of the Holocaust writers across Europe and America sought to express their feelings and experiences through their writings This book provides a comprehensive account of these writings through essays from expert scholars covering a wide geographic linguistic thematic and generic range of materials Such an overview is particularly appropriate at a time when the corpus of Holocaust literature has grown to immense proportions and when guidance is needed in determining a canon of essential readings a context to interpret them and a paradigm for the evolution of writing on the Holocaust The expert contributors to this volume who negotiate the literature in the original languages provide insight into the influence of national traditions and the importance of language especially but not exclusively Yiddish and Hebrew to the literary response arising from the Holocaust **The Rise of the Memoir** Alex Zwerdling, 2017 The Rise of the Memoir traces the growth and extraordinarily wide appeal of the memoir Its territory is private rather than public life shame guilt and embarrassment not the achievements celebrated in the public record What accounts for the sharp need writers like Rousseau Woolf Orwell Nabokov Primo Levi and Maxine Hong Kingston felt to write and to publish such works when they might more easily have chosen to remain silent Alex Zwerdling explores why each of these writers felt compelled to write them as that story can be reconstructed from personal materials available in archival collections what internal conflicts they encountered while trying and how each of them resisted the private and public pressures to stop themselves rather than pursuing this confessional route against their own doubts without a reasonable expectation that such works would be welcome in print and eventually

find an empathetic audience Reconstructing this process in which a dubious project eventually becomes a compelling product a memoir that will last illuminates both what was at stake and why this serially invented open form has reshaped the expectations of readers who welcomed a vital alternative to the official story

The Politics of Contested Narratives Ilse Lazaroms, Emily Gioielli, 2016-03-17 The twentieth century in Europe was characterized by great moments of rupture such as two world wars ideological conflict and political polarization In these processes as well as in the historical writing that followed in its wake the individual as an historical entity often appeared crushed In line with contemporary theories about the precariousness of historical writing and the self this volume seeks to understand the important developments in modern Europe from the perspective of the single sometimes isolated but always original viewpoint of individuals inhabiting the space at the other side of the traditional grand narratives Including theoretical chapters as well as detailed case studies this volume takes a biographical approach to dystopian events the Holocaust Fascism Communism and collectivization by starting with the voices of unknown historical actors and relating their experiences to larger processes in modern European history such as the emergence of the national collective memory and state formation as well as changes in the understanding of modern identities and the re formulation of the self This book was originally published as a special issue of the European Review of History

The Holocaust David M. Crowe, 2021-12-30 Now in its second edition this book takes a fresh probing look at one of the greatest human tragedies in modern history Beginning with a detailed overview of the history of the Jews and their two millennia old struggle with the anti Judaic and anti Semitic prejudice and discrimination that set the stage for the Holocaust David M Crowe discusses the evolution of Nazi racial policies beginning with the development of Adolf Hitler s anti Semitic ideas their importance to the Nazi movement in the 1920s and 1930s and their expanding role in the evolution of German policies leading to the Final Solution in 1941 the mass murder of Jews throughout Nazi occupied Europe The German program involved the creation of death camps like Auschwitz and Treblinka and mass murder sites throughout Eastern Europe and the Soviet Union While the Jews were the principal victims other groups who were deemed racial or biological threats to Hitler s goal of creating an Aryan pure Europe were also targeted including the Roma and the handicapped This book discusses Nazi policies in each country in German occupied Europe as well as the role of Europe s neutrals in the larger German scheme of things It also takes an in depth look at liberation Displaced Persons the founding of Israel and efforts throughout the western world to bring Nazi war criminals and their collaborators to justice This second edition includes a new chapter on the importance of memory and the Holocaust the evolution of interpretative Holocaust scholarship and media recent controversies about national responsibility and the work of Holocaust museums archives and libraries in Israel Germany Poland and the United States to promote Holocaust education and memory It concludes with the rise of Neo Nazism white nationalism and other movements in Germany and the United States and their relationship to questions about Holocaust memory and its lessons Comprehensive and offering a detailed historical perspective this is the

perfect resource for those looking to gain a deep understanding of this tragedy *Parting Ways* Judith Butler, 2013-11-01

Judith Butler follows Edward Said's late suggestion that through a consideration of Palestinian dispossession in relation to Jewish diasporic traditions a new ethos can be forged for a one state solution. Butler engages Jewish philosophical positions to articulate a critique of political Zionism and its practices of illegitimate state violence, nationalism, and state-sponsored racism. At the same time, she moves beyond communitarian frameworks, including Jewish ones that fail to arrive at a radical democratic notion of political cohabitation. Butler engages thinkers such as Edward Said, Emmanuel Levinas, Hannah Arendt, Primo Levi, Martin Buber, Walter Benjamin, and Mahmoud Darwish as she articulates a new political ethic. In her view, it is as important to dispute Israel's claim to represent the Jewish people as it is to show that a narrowly Jewish framework cannot suffice as a basis for an ultimate critique of Zionism. She promotes an ethical position in which the obligations of cohabitation do not derive from cultural sameness but from the unchosen character of social plurality. Recovering the arguments of Jewish thinkers who offered criticisms of Zionism or whose work could be used for such a purpose, Butler disputes the specific charge of anti-Semitic self-hatred often leveled against Jewish critiques of Israel. Her political ethic relies on a vision of cohabitation that thinks anew about binationalism and exposes the limits of a communitarian framework to overcome the colonial legacy of Zionism. Her own engagements with Edward Said and Mahmoud Darwish form an important point of departure and conclusion for her engagement with some key forms of thought derived in part from Jewish resources but always in relation to the non-Jew. Butler considers the rights of the dispossessed, the necessity of plural cohabitation, and the dangers of arbitrary state violence, showing how they can be extended to a critique of Zionism even when that is not their explicit aim. She revisits and affirms Edward Said's late proposals for a one state solution within the ethos of binationalism. Butler's startling suggestion: Jewish ethics not only demand a critique of Zionism but must transcend its exclusive Jewishness in order to realize the ethical and political ideals of living together in radical democracy Re-Figuring Hayden White Frank Ankersmit, Ewa Domańska, Hans Kellner, 2009-06-24

Produced in honor of White's eightieth birthday, *Re-Figuring Hayden White* testifies to the lasting importance of White's innovative work, which firmly reintegrates historical studies with literature and the humanities. The book is a major reconsideration of the historian's contributions and influence by an international group of leading scholars from a variety of disciplines. Individual essays address the key concepts of White's intellectual career, including tropes, narrative, figuralism, and the historical sublime, while exploring the place of White's work in the philosophy of history, postmodernism, and ethics. They also discuss his role as historian and teacher and apply his ideas to specific historical events *Witnessing the Holocaust* Judith M. Hughes, 2018-07-12

Witnessing the Holocaust presents the autobiographical writings, including diaries and autobiographical fiction, of six Holocaust survivors who lived through and chronicled the Nazi genocide. Drawing extensively on the works of Victor Klemperer, Ruth Kluger, Michal Glowinski, Primo Levi, Imre Kertész, and Béla Zsolt, this book conveys with vivid detail the persecution of the Jews from the beginning of the

Third Reich until its very end It gives us a sense both of what the Holocaust meant to the wider community swept up in the horrors and what it was like for the individual to weather one of the most shocking events in history Survivors and witnesses disappear and history not memory becomes the instrument for recalling the past Judith M Hughes secures a place for narratives by those who experienced the Holocaust in person This compelling text is a vital read for all students of the Holocaust and Holocaust memory

The Oxford Handbook of Holocaust Studies Peter Hayes, John K. Roth, 2012-11-22

Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multi disciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust s protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust s impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights

Primo Levi and Humanism after Auschwitz J. Druker, 2009-06-08 This innovative study reassesses Primo Levi s Holocaust memoirs in light of the posthumanist theories of Adorno Levinas Lyotard and Foucault and finds causal links between certain Enlightenment ideas and the Nazi genocide

Terror, Love and Brainwashing Alexandra Stein, 2016-11-03 Written by a cult survivor and renowned expert on cults and totalitarianism Terror Love and Brainwashing draws on the author s 25 years of study and research to explain how almost anyone given the right set of circumstances can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts Illustrated with compelling stories from a range of cults and totalitarian systems from religious to political to commercial the book defines and analyses the common and identifiable

traits that underlie almost all these groups. It focuses on how charismatic authoritarian leaders control their followers' attachment relationships via manipulative social structures and ideologies so that emotionally and cognitively isolated they become unable to act in their own survival interests. Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments and incorporating the latest neuroscientific findings, Stein illustrates how the combined dynamic of terror and love works to break down people's ability to think and behave rationally. From small local cults to global players like ISIS and North Korea, the impact of these movements is widespread and growing. This important book offers clarity and a unique perspective on the dynamics of these systems of control and concludes with guidance to foster greater awareness and prevention. It will be essential reading for mental health professionals in the field as well as policy makers, legal professionals, cult survivors and their families as well as anyone with an interest in these disturbing groups. Students of social and developmental psychology will also find it fascinating.

Sources of Holocaust Insight John K. Roth, 2020-01-29. *Sources of Holocaust Insight* maps the odyssey of an American Christian philosopher who has studied, written and taught about the Holocaust for more than fifty years. What findings result from John Roth's journey? What moods pervade it? How have events and experiences, scholars and students' texts and testimonies, especially the questions they raise, affected Roth's Holocaust studies and guided his efforts to heed the biblical proverb: "Whatever else you get, get insight." More sources than Roth can acknowledge have informed his encounters with the Holocaust. But particular persons among them, Elie Wiesel, Raul Hilberg, Primo Levi and Albert Camus, loom especially large. Revisiting Roth's sources of Holocaust insight, this book does so not only to pay tribute to them but also to show how the ethical, philosophical and religious reverberations of the Holocaust confer and encourage responsibility for human well-being in the twenty-first century. Seeing differently, seeing better, sound learning and teaching about the Holocaust aim for what may be the most important Holocaust insight of all: Take nothing good for granted.

[The Anthem Companion to Hannah Arendt](#) Peter Baehr, Philip Walsh, 2017-01-02. *The Anthem Companion to Hannah Arendt* offers a unique collection of essays on one of the twentieth century's greatest thinkers. The companion encompasses Arendt's most salient arguments and major works: *The Origins of Totalitarianism*, *The Human Condition*, *Eichmann in Jerusalem*, *On Revolution* and *The Life of the Mind*. The volume also examines Arendt's intellectual relationships with Max Weber, Karl Mannheim and other key social scientists. Although written principally for students new to Arendt's work, *The Anthem Companion to Hannah Arendt* also engages the most avid Arendt scholar.

The Reject Irving Goh, 2014-10-15. This book proposes a theory of the reject, a more adequate figure than the subject for thinking, friendship, love, community, democracy, the postsecular and the posthuman. Through close readings of Nancy, Deleuze, Derrida, Cixous, Clement, Bataille, Balibar, Rancière and Badiou, Goh shows how the reject has always been nascent in contemporary French thought. The recent turn to animals and bare life, as well as the rise of the Occupy movement, he argues, presents a special urgency to think the reject today. Thinking the reject most importantly helps to advance our commitment to affirm others.

without acculturating their differences But the reject also offers Goh proposes a response finally commensurate with the radical horizon of Nancy's question of who comes after the subject
