The top half of the book cover features a deep blue background. It depicts a large, multi-masted sailing ship, possibly a galleon, navigating through a blue sea. A faint, translucent map of the world is overlaid on the sky and sea. The ship's reflection is visible in the water.

Hermeneutics as Epistemology William C. Roach, 2015-07-24 Historic Protestantism and evangelicalism has always been committed to the authority of Scripture and interested in the proper interpretation of the Bible They uphold the motto As Scripture says God says and as God says Scripture says Many today claim this type of reasoning is faulty since individuals can no longer know the true meaning of Scripture because there are no stable metaphysical or epistemological frameworks Moreover they claim that approaches such as the one presented by Carl F H Henry no longer provide adequate grounds to address the pressing

hermeneutical issues This study responds to these types of claims showing each of these proposals is based upon faulty first principles or misrepresentations This book surveys hermeneutical innovations and Henry s epistemological hermeneutic to show that Henry s epistemology is foundational to his hermeneutic offering present day evangelicals an epistemologically justified approach to hermeneutics as epistemology and methodology The book will be of importance to those with interest in evangelical hermeneutics or philosophical hermeneutics in general It provides a clear assessment of the impact of Carl F H Henry s epistemology and hermeneutic and strives to respond to criticisms raised against his Augustinian Reformed revelational cognitive propositional hermeneutic

The Historical Problem with Creeds Kenneth Arndt, 2017-11-08 This short book deals with the debate among Christians about the timing of the Second Coming of Jesus Christ There are several viewpoints on this topic each with its defenders Is Christ coming again in the future and in what sequence of events will that happen Or did the Second Coming of Christ happen in the past as some scripture seem to say when it describes the time as quickly The Creeds have not really dealt with this issue in any definitive statement other than to say he is coming again All Christians believe that there will be a final coming in judgment to sum up human history The authority for Christians on this issue is the Bible the Word of God The two viewpoints dealt with in this book are Preterist in the past and Futurist in the future While not an extended support of either position although the author is a preterist by conviction this book speaks out against the futurist writers identifying a preterist as a heretic Often relying on the Creeds there is a lack of historical scholarship on just how the Creeds were constructed In the view of the author a preterist even if mistaken does not hold to a belief or reading of the scripture that rises to the level of heresy The attacks against preterists are unwarranted unkind and unworthy of Christian scholarship

Berkeley Damian Ilodigwe, 2020-06-12 Berkeley is popular in the philosophical tradition as the philosopher who denied the existence of matter in favour of spiritual substance His *esse est percipi* thesis is understandably seen as a recipe for subjective idealism While

there is a point to this reading of Berkeley it remains to be seen whether it does justice to the full significance of Berkeley's opposition to philosophical materialism In this book essentially a sympathetic reconstruction of Berkeley's philosophy Ilodigwe approaches Berkeley's Immaterialism from the standpoint of the philosophical issues raised by the emergence of modern science in the seventeenth century He argues that when approached in this manner Berkeley's opposition to philosophical materialism not only emerges as an attempt to overcome false abstractions but it also becomes possible to make sense of his claimed alliance with common sense in his battle against philosophical materialism While the realist portrait of Berkeley that emerges from this exercise is not free from difficulties it arguably offers us a fuller conspectus of Berkeley's philosophy of immaterialism

The Transhuman World and Its Fears Michael Bassey Eneyo, 2021-07-29 As technological evolutions continue to gather momentum there is a strong move by some scientists and philosophers to transform the present human nature that is characterized by the phenomenon of life and death into a superman where aging and its corresponding end in death would be eliminated making it possible for the humans to live for untold numbers of years Artificial Intelligence AI Robots and other technological machines will take over the basic duties of a natural human This book looks at the features of this envisioned new world and anticipates that the transhuman world will lack ethics of good living and respect for human life if proper measures are not taken to guide technologists and the technologies usage Until this is done the transhuman world would be worse than the Hobbesian State of Nature where life was said to be brutish nasty and short Since every step of growth goes with its unique kind of fear the book adopts fearology the study of fear and its management in proposing what developing countries should do to be able to fully integrate into this expected world For the developing countries to secure a leading place in the future world they must take the studies of science technology and philosophy seriously This is why the author suggests the establishment of The Philosophy Academy and The Technology Intervention Institute to launch in unique perspectives on how the technologically driven world can be instituted without necessarily negating the ethics of mutual living and respect for human life which ought to be the hallmark of every society

Film, Philosophy, and Reality Nathan Andersen, 2018-12-21 Film Philosophy and Reality Ancient Greece to Godard is an original contribution to film philosophy that shows how thinking about movies can lead us into a richer appreciation and understanding of both reality and the nature of human experience Focused on the question of the relationship between how things seem to us and how they really are it is at once an introduction to philosophy through film and an introduction to film through philosophy The book is divided into three parts The first is an introduction to philosophy and film designed for the reader with little background in one or the other subject The second examines the philosophical importance of the distinction between appearance and reality and shows that reflection upon this distinction is naturally provoked by the experience of watching movies The final part takes a close and careful look at the style and techniques of Jean Luc Godard's groundbreaking film *Breathless* in order to illustrate how such themes can be explored cinematically The book addresses

topics such as Film what it is and how to understand it The methods and concerns of philosophy The nature of cinematic appearances The history of metaphysics The relationship between cinema and life The philosophical relevance of film techniques With a glossary of key thinkers terms and concepts as well as sections on suggested films and further reading this textbook will appeal to lecturers and students in undergraduate philosophy and film courses and in courses focused on Philosophy of Film Philosophy and Film or Film Philosophy *DEFENDING EVANGELICALISM* William C.

Roach,2020-11-15 This book is an important part of the historical record of Dr Norman L Geisler It displays Geisler s intellectual gifts and devotion to the Lordship of Christ in his defense of Christianity and classic evangelicalism This book written by one of Geisler s long time and trusted assistants will be of importance to those who want a first hand interpretation of Geisler and the significance of Geisler s method for present day evangelicalism It provides a clear assessment of the impact of Geisler s embrace of classical realism classical theism the doctrine of inerrancy in the context of twentieth century evangelical theology while providing a way forward to apply Geisler s method in the twenty first century

The Cartesian Innateness of all Ideas as the Source and Panacea of True Knowledge Evarist Okpala,2024-11-07 Academic Paper from the year 2024 in the subject Philosophy Theoretical Realisation Science Logic Language language English abstract The purpose of this work is to give credence to the admonition of St Augustine who admonished seekers of the truth to look inwards for that is where the truth lies This admonition was adhered to by Descartes when he decided to reject all prior submissions of philosophy as well as the sciences in order to proceed methodically towards arriving at the truth which will not be further doubted Thus the work aims at exposing how the pure intellect and the ideas innate in it can give us certitude in knowledge in the light of Descartes philosophy Descartes intervention is quite significant in exposing that prior to his search for a strong foundation for the establishment of philosophy all the claims that hitherto existed could not solve the problem of doubt Such that none of the submissions could claim to have satisfied man s natural craving for the truth and the truth cannot be two Thus this study is quite significant for it will try to assert once more that the truth is without doubt and it can be reached irrespective of whether Descartes did a good job or not in his quest for the indubitable truth And that as Descartes believes it can be arrived at more securely by looking inwards in the man s intellect which is the place not corrupted as the changing world of the senses It will also mean that for the intellect to hold such truths which cannot change it follows that there exists a source which is greater than the human intellect from where comes the truths that exist in the human mind Descartes thoughts around these will be properly highlighted to show how relevant they are in today s world especially in the understanding of man as well as God the source of everything that exists alongside man

Eco-Fearism Bhawani Shankar Adhikari,Osinakachi Akuma Kalu,Desh Subba,2020-05-05 In a world full of doubt and despair we are yet to realize the invaluable importance of societal coherence and correspondence especially in relation to our planet s ecosystem Intelligent empathetic life such as ourselves has limitless potential to co create and edify a new paradigm

of smart coexistence if we manage to get fear under control The society that we have constructed has undervalued life's potential because of individualistic separatism that seems to have been born out of fear of survival Our fears of going extinct should be counter intuitively enough not only a motivation for us to thrive in meaningful coexistence but also an inspiration for us to be able to build a future that is worthy of our true capacities As we dive deeper into Eco Fearism breaking the boundaries of our limitations and striving for excellence we are enlightened by knowledge and by the hope that we can surpass our own immaturity and take care of ourselves and our planet through careful reflection

Philosophy of Unity Michael Bassey Eneyo, 2019-01-08 This book is borne out of the author's desire to introduce Philosophy of Unity as one of the emerging philosophical paradigms tasked with the responsibility of offering practical ideas to contend with the alarming crisis disunity division disassociation war terrorism distrust and the general unrest that have engulfed the present human society The author decries human disjointedness from the original purpose of love and the need for complementary living Thus attributing the challenges so experienced in the recent human tension laden society to this negation The book stands out as a portal of plethora of knowledge that unravels love as the ultimate unifier of the multiplicity of things in the universe of which the unity and the separation of things in the world are necessitated by it The author reasoned that without love the idea of the universe is inconceivable The principle of inclusiveness is adopted by the author to drive home the point that the warring opposites the conflicting issues and the fragments characterizing the universe should not be taken as reasons for division and disunity Rather it should be seen as means through which human limitations can be overcome if these different entities are brought together for the overall good of human beings Hence all fragments and their opposites are necessary since it is by their existence that our individuals and collective essences are fully put to use The book is highly recommended for the general public countries especially those with multiple religions and ethnicities It is very relevant to scholars in the areas of Philosophy Religion Political Science Public and International Studies Public Administration and Sociology It is also useful to those who study or engage in conflict resolutions especially in the crisis prone communities All lovers of wisdom will find the book useful in their respective areas of research
