The Way Things Ought To Be:

The Way Things Ought to be Rush H. Limbaugh, 1993 Limbaugh delivers his spirited defense of conservative values in blunt talk with scathing wit Includes new material on the Clinton administration plus a teaser from Limbaugh's new hardcover *See I Told You So* to be published in November *Imagining Religion* Jonathan Z. Smith, 1982 With this influential book of essays Jonathan Z. Smith has pointed the academic study of religion in a new theoretical direction one neither theological nor willfully ideological Making use of examples as apparently diverse and exotic as the Maori cults in nineteenth century New Zealand and the events of Jonestown Smith shows that religion must be construed as conventional anthropological historical and as an exercise of imagination In his analyses religion emerges as the product of historically and geographically situated human ingenuity cognition and curiosity simply put as the result of human labor one of the decisive but wholly ordinary ways human beings create the worlds in which they live and make sense of them These seven essays display the critical intelligence creativity and sheer common sense that make Smith one of the most methodologically sophisticated and suggestive historians of religion writing today Smith scrutinizes the fundamental problems of taxonomy and comparison in religious studies suggestively redescribes such basic categories as canon and ritual and shows how frequently studied myths may more likely reflect situational incongruities than vaunted mimetic congruities His final essay on Jonestown demonstrates the interpretive power of the historian of religion to render intelligible that in our own day which seems most bizarre Richard S. Sarason Religious Studies Review *In Defense of Natural Theology* James F. Sennett, Douglas Groothuis, 2005-10-04 James F. Sennett and Douglas Groothuis have assembled a distinguished array of scholars to examine the Humean legacy with care and make the case for a more robust if chastened natural theology after Hume **What Has Jerusalem to Do with Beijing?** K. K. Yeo, 2018-08-24 The rise of China as a superpower and of Chinese Christians as vital members of the global church mean that world Christianity would be a dynamic transformation and bountiful blessing to the world by engaging with Chinese biblical interpretations among global theologies This book a twentieth anniversary revised and expanded edition includes studies that range from exploration of the philosophical structure of Eastern culture to present day sociopolitical realities in Malaysia and China all in support of cross cultural methods of reading the Bible culturally and reading the cultures biblically *The Best Guess* Sam Wittke, 2021-04-12 The Best Guess examines different subjects and genres of thought that people struggle with when considering Christianity In The Best Guess Sam Wittke begs us to consider the trustworthiness of the Christian paradigm without simply proclaiming he has all the answers Instead he challenges us to question and think through the obstacles of the faith in a fun thoughtful and engaging way **The Principles and Practice of Effective Leadership** John Zinkin, Christopher Bennett, 2021-09-07 This thought provoking and timely book asserts that the dichotomy between leaders and managers described in much business literature fails to recognize how the two roles overlap The book discusses techniques for senior executives based on history

and neuroscience to enhance their managerial leadership in different environments The ethical dilemmas of directors and executives are explored with lessons from both leadership failures and successes The Principles and Practice of Effective Leadership redefines leadership as a morally neutral activity reflecting the impact of strategic cultural and operational contexts on a leader s effectiveness The authors suggest there are universal but morally neutral techniques for effective leadership that depend on the context in which they are practiced In Part 1 the careers and personalities of historical figures including Elizabeth Tudor Napoleon and Atat rk are examined Part 2 deliberates on why leadership cannot be separated from effective management and concludes that leadership is managerial and best encapsulated in the concept of wayfinding In Part 3 the authors discuss the techniques wayfinders can learn to be both effective and ethical using a simple and practical framework This insightful book is essential reading for professionals coaches consultants and academics interested in techniques and ethics of leadership and executive education Creating Monsters Sherman D. Coming Out in Christianity Melissa M. Wilcox, 2003-10-03 For many Christians homosexuality is an issue that is often presented as a matter of us straight Christians versus them or worse as an isolated behavior that is a questions of behavior somehow not an intrinsic part of the identities of gays and lesbians Discussion of the issue has become so heated that it threatens to create a yawning chasm within several mainline denominations This book examines this conflict from the perspective of a group of lesbian gay bisexual and transgendered Christians It explores the life histories of these individuals and their current beliefs cultural backgrounds and community influences to determine what helped each forge an identity as both gay and Christian

The Complete Idiot's Guide to Philosophy Jay Stevenson, PhD., 2003-02-05 A revised edition to a solid performing book with expanded content on various philosophers and ideas The current edition has sold over 61 000 since its release in November of 1997 Existing content is great but needs to be added to in order to more effectively compete with Philosophy for Dummies which at 360 pages is 100 pages over our current edition By its very nature philosophy is not subject to a great deal of change over time and therefore can be expected to continue to perform at or above current levels Philosophy is all about being knowing and acting It poses daring questions such as what exists what counts as knowledge and how do we know things And as life becomes more and more complicated people turn to philosophy to help themselves better understand the world around them politics religion family the environment and more The Complete Idiot s Guide RM to Philosophy Second Edition will continue the first edition s success in exposing beginners to the world of philosophy its ideas and its philosophers It will contain expanded content on existing ideas and philosophers covered in the first edition but it will also introduce new philosophers whose ideas were not included in the first edition but whose contributions to the world of philosophy are perhaps now less obscure

Ecology and Existence Matthew C. Ally, 2017-07-20 This study explores the increasingly troubled relationship between humankind and the Earth with the help of a simple example and a complicated interlocutor The example is a pond which it turns out is not so simple as it seems The interlocutor is Jean Paul Sartre novelist playwright biographer philosopher and despite his several disavowals doyen of twentieth century existentialism Standing with the great humanist at the edge of the pond the author examines contemporary experience in the light of several familiar conceptual pairs nature and culture fact and value reality and imagination human and nonhuman society and ecology Earth and world The theoretical challenge is to reveal the critical complementarity and experiential unity of this family of ideas The practical task is to discern the heuristic implications of this lived unity in diversity in these times of social and ecological

crisis Interdisciplinary in its aspirations the study draws upon recent developments in biology and ecology complexity science and systems theory ecological and Marxist economics and environmental history Comprehensive in its engagement of Sartre s oeuvre the study builds upon his best known existentialist writings and also his critique of colonialism voluminous ethical writings early studies of the imaginary and mature dialectical philosophy In addition to overviews of Sartre s distinctive inflections of phenomenology and dialectics and his unique theories of praxis and imagination the study also articulates for the first time Sartre s incipient philosophical ecology In keeping with Sartre s lifelong commitment to freedom and liberation the study concludes with a programmatic look at the relative merits of pragmatist prefigurative and revolutionary activism within the burgeoning global struggle for social and ecological justice We learn much by thinking with Sartre at the water s edge surprising lessons about our changing humanity and how we have come to where we are timely lessons about the shifting relation between us and the broader community of life to which we belong difficult lessons about our brutal degradation of the planetary system upon which life depends and auspicious lessons too about a participatory path forward as we work to preserve a habitable planet and build a livable world for all earthlings *International Relations Theory*

Cynthia Weber,2013-11-05 *International Relations Theory A Critical Introduction* is an innovative new textbook which introduces students to the main theories in International Relations It also deconstructs each theory allowing students not only to understand them but also to critically engage with the assumptions and myths that underpin them It does this by using five familiar films as tools for first understanding each theory and then for understanding the myths that make them so persuasive for some people Key features of this textbook include coverage of the main theories and traditions including Realism Idealism and Neo idealism Liberalism Constructivism Postmodernism Gender Globalisation and the End of History innovative use of narratives from five famous films that students will be familiar with *Lord of the Flies Independence Day Wag the Dog Fatal Attraction and The Truman Show* clearly written providing students with boxed key concepts guides to further reading and thinking This breakthrough textbook has been designed to unravel the complexities of International Relations theory in a way that allows students a clearer idea of how the theories work and some of the myths that are associated with them *The Language and Literature of the New Testament* Lois Fuller Dow,Craig A. Evans,Andrew W.

Pitts,2016-11-28 In *The Language and Literature of the New Testament* a team of international scholars assembles to honour the academic career of New Testament scholar Stanley E Porter Over the years Porter has distinguished himself in a wide range of sub disciplines within New Testament Studies The contents of this book represent these diverse scholarly interests ranging from canon and textual criticism to linguistics other interpretive methodologies Jesus and the Gospels and Pauline studies **Instructional Design** Leslie J. Briggs,1977 **Lamb of the Free** Andrew Remington Rillera,2024-03-13 *Lamb of the Free* analyzes the different sacrificial imagery applied to Jesus in the NT in light of the facts that there is no such thing as substitutionary death sacrifice in the Torah neither death nor suffering nor punishment of the animal has any place

in the sacrificial system and b there are both atoning and non atoning sacrifices Surprisingly the earliest and most common sacrifices associated with Jesus s death are the non atoning ones Nevertheless when considering the whole NT Jesus is said to accomplish all the benefits of the entire Levitical system from both atoning and non atoning sacrifices and purification Moreover all sacrificial interpretations of Jesus s death in the NT operate within the paradigm of participation which is antithetical to notions of substitution The sacrificial imagery in the NT is aimed at grounding the exhortation for the audience to be conformed to the cruciform image of Jesus by sharing in his death The consistent message throughout the entire NT is not that Jesus died instead of us rather Jesus dies ahead of us so that we can unite with him and be conformed the image of his death

Reading Science J.R. Martin,Robert Veel,2005-07-15 This collection examines science discourse from a number of perspectives drawing on new rhetoric functional linguistics and critical theory The renowned contributors include M A K Halliday Charles Bazerman and Jay Lemke
