Jones, 1995 **Religion and Society in the Diocese of St Davids 1485-2011** John Morgan-Guy, 2016-04-01 During the medieval and early modern periods the Welsh diocese of St Davids was one of the largest in the country and the most remote As this collection makes clear this combination of factors resulted in a religious life which was less regulated and controlled by the institutional forces of both Church and State Addressing key ideas in the development of popular religious culture and the stubborn continuity of long lasting religious practices into the modern era the volume shows how the diocese was also a locus for continuing major religious controversies especially in the nineteenth century Presenting a fresh view of the Diocese of St Davids since the Reformation this is the first new account of religion and society in over a century It is moreover not one which is written primarily from an institutional perspective but from that of wider society As well as a chronological treatment giving an overview of the history of religion in the diocese chapters address key themes including a study of religious revivals which originated within the borders of the diocese consideration of popular and elite education including the contribution of Bishop Burgess's pioneering institution at Lampeter the first degree awarding institution in England and Wales after Oxford and Cambridge the
