

UNCHARTED STRAIT

The Future of China-Taiwan Relations

RICHARD C. BUSH

Uncharted Strait Uncharted Strait

Steve Chan

Uncharted Strait Uncharted Strait:

Uncharted Strait Richard C. Bush, 2013-01-14 The future of the Taiwan Strait is more wide open than at any other time in recent decades Tensions between China and Taiwan have eased since 2008 But the movement toward full rapprochement remains fragile Whether the two sides of the Strait can sustain and expand a cooperative relationship after years of mutual distrust and fear is still uncertain The waters of the Strait are uncharted and each side worries about shoals beneath the surface The current engagement between Beijing and Taipei may make possible a solution to their six decade long dispute Whether when and how that might happen is however shrouded in doubt China fears the island's permanent separation by way of either an overt move to de jure independence or continued refusal to unify with the mainland Taiwan fears subordination to an authoritarian regime that does not have Taipei's interests at heart And the United States worries about the stability of the East Asian region Richard Bush who studied issues surrounding Taiwan during almost twenty years in the U S government explains the current state of relations between China and Taiwan providing the details of what led to the current situation And he extrapolates on the likely future of cross Strait relations Bush also discusses America's stake analyzing possible ramifications for U S interests in the critically important East Asia region and recommends steps to protect those interests At the heart of the Taiwan conundrum is a question of definition Does the dispute stem from the protracted division of the Chinese state after World War II or does the Republic of China on Taiwan in some sense constitute a successor state of the old Republic of China ROC one on a par with the People's Republic of China on the Chinese mainland Whether and how the unification of the two entities might occur hinges on the answer Indeed I have argued that the core of the dispute between the two sides has been their disagreement over whether the Republic of China or Taiwan is a sovereign entity for purposes of cross Strait relations It follows that if unification is a real option the two sides must form a political union that bridges the disagreement over the island's legal status Is that possible from the Introduction

Taming Sino-American Rivalry Richard Ned Lebow, Feng Zhang, 2020-07-01 Competition between America and China has intensified since 2009 creating even greater risks of conflict Why is this so and what can be done about it In *Taming Sino American Rivalry* Feng Zhang and Richard Ned Lebow reject the prevailing idea that competition between a dominant and a rising power must necessarily lead to conflict Rather they identify the mistakes that both countries have made and explain the causes and consequences of their missteps Drawing on international relations theory and lessons from history they develop a comprehensive approach to conflict management and resolution that balances deterrence reassurance and diplomacy A challenge to the prevailing pessimism *Taming Sino American Rivalry* is essential reading for anyone interested in understanding the world's most important bilateral relationship

Reports of the Department of Commerce. Report of the Secretary of Commerce and Reports of Bureaus United States. Department of Commerce, 1917 *Dangerous Decade* Brendan Taylor, 2019-09-25 Taiwan's position looks increasingly precarious and tensions threaten to grow into a

major strategic crisis Chinese President Xi Jinping has made reunification with Taiwan a central pillar of his vision for China and has ramped up diplomatic and economic pressure on Taiwan Its inhabitants are increasingly estranged from the mainland and Tsai Ing wen s administration refuses to conduct relations with China on Beijing s terms Taiwan could take on renewed strategic significance amid the backdrop of the deepening rivalry between China and the United States and find itself at the centre of a Cold War style superpower confrontation Ble Washington s support and military power has historically guaranteed Taiwan s security this is no longer a certainty This Adelphi book argues that China s military modernisation has changed the cross strait military balance and the ability of the US to prevail in a conflict over Taiwan may have evaporated by 2030 As China feels increasingly empowered to retake Taiwan there is significant potential for escalation particularly given the ambiguity of Beijing s red lines on Taiwan Neither Beijing Taipei nor Washington want such a conflict but each is challenging the uneasy status quo Taylor calls for the introduction of a narrower set of formal crisis management mechanisms designed to navigate a major Taiwan crisis

Historical Dictionary of Taiwan (Republic of China) John F. Copper, 2014-12-19 Taiwan is an island located off the east coast of southern China It is the largest piece of territory under the jurisdiction of the nation known officially as the Republic of China Taiwan is a place of contradictions Its successful economic and political modernization have stimulated the imaginations of most observers Still its nation state status has been constricted and weakened It covets and pursues peace yet it is a vortex actor in global strategic military competition It is small yet its importance far exceeds its size It has long occupied a critical place in history even though it has not sought this it appears inevitable that it will continue to be so This fourth edition of *Historical Dictionary of the Taiwan Republic of China* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about the Taiwan

War and Peace in the Taiwan Strait Scott L. Kastner, 2022-11-01 As tensions continue to rise between the People s Republic of China and Taiwan numerous analysts and officials have warned of a growing risk of military conflict which could potentially draw in the United States How worried should we be about a war in the Taiwan Strait Scott L Kastner offers a comprehensive analytical account of PRC Taiwan relations that sheds new light on the prospects for cross strait military conflict He examines several key regional trends that have complex implications for stability including deepening economic integration the shifting balance of military power uncertainty about the future of U S commitment and domestic political changes in both the PRC and Taiwan Kastner argues that the risks of conflict are real but should not be exaggerated Several distinct pathways could lead to the breakout of hostilities and the mechanisms that might allay one type of conflict do not necessarily apply to others yet war is anything but inevitable Although changes to the balance of power introduce risks powerful mitigating factors remain in place and there are plausible steps to reduce the likelihood of military conflict Drawing

on both international relations theory and close empirical analysis of regional trends this book provides vital perspective on how a war in the Taiwan Strait could occur and how one could be avoided

Routledge Handbook of Contemporary Taiwan Gunter Schubert, 2024-12-31 This fully revised 2nd edition of the Routledge Handbook of Contemporary Taiwan provides a comprehensive overview of both contemporary Taiwan and the Taiwan studies field Written by an international team of Taiwan experts the Handbook includes major topics in Taiwanese history domestic politics political economy society culture and international relations Each chapter summarises the major findings in the field and highlights long term trends recent observations and potential future developments in Taiwan revealing its long journey from a frontier island to a highly industrialised country struggling for international recognition Up to date interdisciplinary and academically rigorous the Handbook offers the reader an accessible and fascinating insight into contemporary Taiwan and will be of interest to students academics and policymakers with an interest in all things Taiwan

Why Taiwan Matters Kerry Brown, 2025-01-28 Taiwan expert Kerry Brown sums up the history of Taiwan and the danger of a Chinese takeover in this succinct and authoritative book When the bloody Chinese Civil War concluded in 1949 two Chinas were born Mao's Communists won and took China's mainland Chiang Kai-shek's Nationalists fled to Taiwan island Since then China and Taiwan have drifted into being separate political and cultural entities Taiwan is now a flourishing democracy and an economic success story just one of its companies produces over 90 per cent of the semiconductors that power the world's economy It is a free and vibrant society For the United States and the West the island is a bastion of freedom against China's assertive presence in the region And yet China increasingly bellicose under Xi Jinping insists Taiwan is part of its territory and must be returned to it Should China blockade the island and mount an invasion it would set off a chain reaction that would pitch it against the US escalating a regional war into a global one Taiwan is thus a geopolitical powder keg Why Taiwan Matters helps us understand how and why we've arrived at this dangerous moment in history With unparalleled access to Taiwan's political leaders and a deep understanding of the island's history and culture Professor Kerry Brown provides a new reading of Taiwan its twenty three million people and how they navigate being caught in this frightening geopolitical standoff Why Taiwan Matters is the essential book for understanding Taiwan's unique story told in an accessible expert and urgent way

Reconsidering the East Asian Peace William R. Thompson, Thomas J. Volgy, 2024-08-01 This volume re-examines the notion of the East Asian peace arguing that it requires updating for the current and near future context of US Chinese rivalry The East Asian peace refers to the remarkable change in conflict levels in eastern Eurasia over the past 80 years or even the past 130 years or so Prior to the late 1970s East Asia was regarded as the most conflictual region on the planet Although insurgencies have continued in places such as Myanmar Thailand and the Philippines after the 1980s East and Southeast Asia became one of the world's least conflictual regions Geopolitics and economic development worked hand in hand to reduce conflict in the region and in this respect the East Asian peace has been a confluence of peace The general problem with

a confluential peace is that the factors that shape it evolve over time and the specific circumstances in question seem to be evolving in a different direction with East Asia shaping up to be the most central locale of the contest between US and Chinese hegemony both regionally and perhaps globally This book argues that the idea of the East Asian peace now requires adjustment to the current and near future context The more general arguments presented here focus on alternative interpretations of how regional peace and order should be interpreted while the more specific arguments involve interpretations of Chinese and other countries behavior in the context of the heightened rivalry between China and the United States This book will be of much interest to students of East Asian politics peace studies foreign policy and international relations

Mobilizing the Past Steve Chan, 2025-07-29 Historical analogies are often utilized to frame and formulate foreign policies illuminate issues of war and peace and mobilize support for particular political programs The historical record however can be distorted in a variety of ways leading to overly simplistic misleading conclusions that impair sound policy and scholarship This danger is most imminent and palpable when there exists premature academic consensus pressure to conform to political orthodoxy intellectual complacency and cognitive resistance to alternate interpretations of historical episodes We must be especially vigilant to guard against these pitfalls when deliberating one of the most high stakes topics in global politics the alarming potential for military conflict between the United States and China Past precedents and parallels regularly inform analyses of China's relations with the US By highlighting serious errors of commission or omission in popular narratives and scholarly studies concerning international relations in general and Sino American relations in particular Steve Chan challenges commonly accepted lessons of history and cautions against the misuse and misunderstanding of the past in examining China's rise and its implications for international peace and stability This far reaching book presents alternative overlooked historical accounts that are highly pertinent to Sino American relations today making it essential for researchers and students of international affairs

Temporal Horizons and Strategic Decisions in U.S.-China Relations Daniel Joseph Tauss, 2015-05-06 Using an interdisciplinary social science approach *Temporal Horizons and Strategic Decisions in US China Relations* Between Instant and Infinite takes on the challenge of understanding the foreign policy decision process through the lens of the temporal horizon A temporal horizon is the distance into the future a decision maker prioritizes when evaluating outcomes and considering possibilities By looking at a number of recent key moments of US China relations that have immediate short term long term and far reaching implications the book considers which are predominant in the policy process Looking at the role of time as a factor in the decision making process is not new to political science but this book attempts to break down and articulate the process by looking at a range of specific time frames The book places special attention on future considerations in a variety of ways combining the insights of psychology economics and future studies to consider political science in a new manner

Critical
Decade, A: China's Foreign Policy (2008-2018) Zhiqun Zhu, 2019-07-09 China emerged as a major economic diplomatic and

military power during the critical decade from 2008 to 2018. As a result, China's foreign policy has become more active and dynamic. This book provides a unique perspective to understand Chinese foreign policy during this decade by examining continuities and changes in both internal and external factors that have shaped China's development. The book focuses on key challenges in China's diplomacy such as US-China relations, the Korean Peninsula, Taiwan, Japan, India, Chinese investment overseas, the Belt and Road Initiative, global and regional cooperation, soft power, etc. It also includes an extensive annotated bibliography of major recent publications on various aspects of Chinese foreign policy. This is the first scholarly book that studies the evolution and key challenges of China's foreign relations during the critical decade 2008-2018 when China grew into a crucial, sometimes assertive power in international affairs.

Rumbles of Thunder Steve Chan, 2022-12-27. It is widely believed that shifts in the balance of power between an established hegemon and a rising upstart can lead to war. To what extent does this proposition hold true for Sino-American relations today? Steve Chan examines a range of international relations theories and popular narratives that suggest an elevated risk of confrontation between the two powers. Probing the recent deterioration in Sino-American relations, he considers whether several factors that can raise or lower international tension apply to the current situation. Chan demonstrates that power shifts do not preordain violent outcomes, nor does their absence ensure peace. Criticizing overly mechanistic frameworks, he emphasizes that domestic politics, international political economy, and the choices of individual leaders are all crucial to understanding why wars happen. Chan demonstrates that claims of a rising China catching up to and even poised to overtake the United States are alarmist. American structural advantages will endure for some time to come. Contrary to prevailing narratives, China does not act like a revisionist power seeking to overturn the system, while the United States, far from defending the international order, has frequently undermined it. However, Chan cautions, Taiwan remains a flashpoint for a possible Sino-American conflict. Bringing together expertise in IR theory and keen political acumen, *Rumbles of Thunder* challenges conventional wisdom on the likelihood of war between the United States and China.

The Life and Legacy of Ferdinand Magellan Charles River Editors, 2025-06-29. Ferdinand Magellan, known in his native Portugal as Fernão de Magalhães and in Spain, where he moved later in life, as Fernando de Magallanes, was unquestionably one of the more remarkable figures of the so-called Age of Discovery, a period in which Europeans spread their political and commercial influence around the globe. Accordingly, his name is often invoked alongside that of Columbus, but the nature of his achievements has sometimes been misunderstood. Magellan has sometimes been credited with proving the world was round, since he and his crew were the first Europeans to reach Asia via a westward route. But such a claim is based on a popular misconception referred to by historian Jeffrey Burton Russell as the myth of the flat earth: the belief that medieval Europe had erroneously believed the earth was flat. In reality, essentially no educated Europeans of the late 15th and early 16th centuries doubted the spherical shape of the earth, which had been persuasively established by the scientists of ancient Greece, even down to Eratosthenes's relatively accurate measurement of its

circumference in the third century B C It is also not quite true that Magellan himself circumnavigated the globe in fact he died in combat in the Philippines leaving his surviving crew to complete the voyage It is on the other hand certainly the case that Magellan was one of the most accomplished navigators of his time and that he crucially charted territories previously unexplored by Europeans Perhaps the most important fact about Magellan though is that he succeeded precisely where Christopher Columbus before him had failed While Columbus has gone down in history as the discoverer of America for Europeans finding a new continent was never his true goal in fact America came into Columbus s life as an unanticipated and troublesome obstacle on his planned journey to Asia He had staked his career and his nautical reputation on the theory that the breadth of the body of water separating Europe from Asia was far less than most geographers had predicted While most thought that a ship heading west toward Asia would run out of supplies long before arriving As it turned out Columbus was wrong and his detractors were right the figure for the circumference of the earth first arrived at by Eratosthenes was more or less correct and were there nothing in between Europe and Asia sailors attempting to reach the East by the West would starve in mid ocean Yet as Columbus unwittingly demonstrated there was something in between namely the adjoining continents of North and South America When Columbus arrived in the Caribbean islands scattered between these two continents he believed he was on the edge of Asia and initially interpreted the northern coast of Cuba as a part of China Only toward the end of his career as he sailed along the coast of what is now Venezuela did Columbus begin to acknowledge that he was in fact on the edge of a new continent but in his bewildered state he associated it with the earthly paradise of Christian legend

Taiwan John Franklin Copper,2019-11-13 In this newly revised and updated seventh edition of Taiwan Nation State or Province Copper examines Taiwan s geography and history society and culture economy political system and foreign and security politics in the context of Taiwan s uncertain status as either a sovereign nation or a province of the People s Republic of China Analyzing possible future scenarios and trends that could affect Taiwan s status the author argues that Taiwan s very rapid and successful democratization suggests Taiwan should be independent and separate from China while economic links between Taiwan and China indicate the opposite New features to this brand new edition include The triumph of the Democratic Progressive Party DPP in the 2016 elections The impact of the Trump administration on US Taiwan relations The rise of popularism The shift in cross Strait relations with China given their increased power on the world stage This revised and fully up to date textbook will be essential reading for students of Taiwan China US China relations and democracy

The Routledge History of World Peace since 1750 Christian Philip Peterson,William M. Knoblach,Michael Loadenthal,2018-10-10 The Routledge History of World Peace since 1750 examines the varied and multifaceted scholarship surrounding the topic of peace and engages in a fruitful dialogue about the global history of peace since 1750 Interdisciplinary in nature the book includes contributions from authors working in fields as diverse as history philosophy literature art sociology and Peace Studies The book crosses the divide between historical inquiry and Peace

Studies scholarship with traditional aspects of peace promotion sitting alongside expansive analyses of peace through other lenses including specific regional investigations of the Middle East Africa Latin America and other parts of the world Divided thematically into six parts that are loosely chronological in structure the book offers a broad overview of peace issues such as peacebuilding state building and or conflict resolution in individual countries or regions and indicates the unique challenges of achieving peace from a range of perspectives Global in scope and supported by regional and temporal case studies the volume is an essential resource for educators activists and policymakers involved in promoting peace and curbing violence as well as students and scholars of Peace Studies history and their related fields

US Foreign Policy Toward Taiwan

Sabella Ogbobode Abidde, Tony Tai-Ting Liu, 2025-05-03 The US China Taiwan relationship is multilayered and fraught with widespread implications for the Indo Pacific region Utilizing the processes of historical periodization and analysis this edited volume examines US foreign policy toward Taiwan between 1949 and 2023 Chapters are divided into two sections Chapters in the first section are devoted to a chronological exploration of US Taiwan relations during the Cold and Post Cold War eras Chapters in the second section delve deeper into specific policy concerns and tools such as potential regional implications of the Russo Ukraine war strategic ambiguity clarity and hedging policy and island chain strategy Illuminating the dynamics and complexities of the US foreign policy and decision making process in a climate of seemingly perpetual contestation this volume will be of interest to students and researchers of US foreign policy East Asian history and politics international relations comparative politics and conflict and security studies as well as members of the diplomatic corps governmental and non governmental organizations and those with an abiding interest in US East Asian affairs

Paradoxes Of China's Prosperity: Political Dilemmas And Global Implications

Guoguang Wu, 2015-01-15 The world seems divided to either applaud or fear the rise of China but this book probes deeper by investigating three aspects of the phenomenon in detail 1 the institutional dilemmas of the prosperity as it integrates Asian authoritarianism with globalizing capitalism to create economic accomplishments 2 the political struggles alongside the prosperity as Chinese citizens begin to demand equality rights and justice that might be viewed to disturb the continuity of stability and development and 3 the global implications entailed by the prosperity not only in power politics war and peace or competitions among nations but especially on global public goods termed human security Articles included here combine political economic analyses lens with historical depth and global concerns to add a perspective that highlights the paradoxes of prosperity surrounding the ongoing debate on the rise of China and its global ramifications Readers will find an analysis that goes beyond the dichotomy viewing the rise of China either in positive or negative perspectives Investigations on the internal dilemmas and the global implications of the rise of China are well situated in the historical context of China s own search for modernization since the late 19th century This is one of the few books in which China s rise is examined from a global perspective rather than from a national perspective of China the United States or any other specific nation a global perspective that addresses the challenges facing

all human societies with the rise of China **The Shogun's Daughter** Robert Ames Bennet, 1910 My first cruise as a midshipman in the navy of the United States began a short month too late for me to share in the honors of the Mexican War In other words I came in at the foot of the service with all the grades above me fresh stocked with comparatively young and vigorous officers As a consequence the rate of promotion was so slow that the Summer of 1851 found me at the age of twenty four still a middie with my lieutenancy ever receding like a will o the wisp into the future Had I chosen a naval career through necessity I might have continued to endure But to the equal though younger heir of one of the largest plantations in South Carolina the pay of even a post captain would have been of small concern It is therefore hardly necessary to add that I had been lured into the service by the hope of winning fame and glory *China's Quest for Sporting Mega-Events* Marcus P. Chu, 2020-07-14 This book vividly elucidates the inseparable nature between politics and sport in China The holding of sporting mega events is viewed by the Chinese authorities as a prominent way to push forward the Reform and Opening up arouse the patriotism among the public and display national resurgence in the world Chinese cities thus have keenly quested for the Olympics the Asian Games and the World University Games since the 1980s Theoretically the President the Premier and the central government should provide all out support so boosting the Chinese cities odds of success The reality yet shows that their attitude towards the bids vary from case to case Through reviewing the 20 bidding cases this book aims to demystify the reasons behind The findings provide an in depth account of 1 how domestic and international political factors determine the state leaders blessing and silence as well as the central government s backing indifference and opposition and 2 how the bids for the sporting mega events are used to serve the broader political goals of the Chinese authorities at home and abroad Additionally they shed light on the political strategies to boost the Chinese cities chance of success and the political reasons for their win loss and discontinuation in the bidding contests The book will be a valuable resource for researches interested in the domestic politics and international relations of China

Uncharted Strait Uncharted Strait Introduction

In the digital age, access to information has become easier than ever before. The ability to download Uncharted Strait Uncharted Strait has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Uncharted Strait Uncharted Strait has opened up a world of possibilities. Downloading Uncharted Strait Uncharted Strait provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Uncharted Strait Uncharted Strait has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Uncharted Strait Uncharted Strait. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Uncharted Strait Uncharted Strait. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal

distribution of content. When downloading Uncharted Strait Uncharted Strait, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Uncharted Strait Uncharted Strait has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Uncharted Strait Uncharted Strait Books

1. Where can I buy Uncharted Strait Uncharted Strait books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
