Voyage Of The Paper Canoe:

Voyage of the Paper Canoe Nathaniel H. Bishop, 2022-05-29 In *Voyage of the Paper Canoe* Nathaniel H. Bishop chronicles his remarkable journey along the waterways of North America in a fragile paper canoe. With meticulous attention to detail, Bishop combines elements of travelogue, natural history, and personal reflection, creating a rich tapestry that immerses readers in the landscapes he traverses. His prose captures the serene beauty and unpredictable nature of the rivers, as well as the challenges faced by a solitary voyager. Through lyrical descriptions and vivid imagery, the narrative also reflects the burgeoning spirit of exploration in the late 19th century, inviting readers to appreciate both the adventure and the introspective moments that define human resilience in the face of nature's grandeur. Nathaniel H. Bishop, an accomplished adventurer and naturalist, was fueled by his passion for exploration and the great outdoors, which led him to embark on this extraordinary expedition. His background in writing and his deep appreciation for the American landscape profoundly influenced his narrative style. Born into a time of burgeoning exploration, Bishop's works express a deep yearning for adventure and an appreciation for the beauty of nature. I enthusiastically recommend *Voyage of the Paper Canoe* to readers who cherish adventure literature and historical explorations. This masterfully written account not only provides insight into the 19th-century ecological landscape but also invites contemporary readers to reconnect with nature through the eyes of a pioneering explorer.

(Nathaniel Holmes) Bishop, 2018-08-14 *Voyage of the Paper Canoe* a geographical journey of

2500 miles from Quebec to the Gulf of Mexico during the years 1874-5 by Nathaniel H. Nathaniel Holmes Bishop. On Saturday morning December 5 I left the pier of the Old Dominion Steamship Company at Norfolk Virginia and rowing across the water towards Portsmouth commenced ascending Elizabeth River which is here wide and affected by tidal change. The old navy yard with its dismantled hulks lying at anchor in the stream occupies both banks of the river. About six miles from Norfolk the entrance to the Dismal Swamp Canal is reached on the left bank of the river. This old canal runs through the Great Dismal Swamp and affords passage for steamers and light draught vessels to Elizabeth City on the Pasquotank River which empties into Albemarle Sound to the southward. The great cypress and juniper timber is penetrated by this canal and schooners are towed into the swamp to landings where their cargoes are delivered. In the interior of the Dismal Swamp is Drummond's Lake named after its discoverer. It is seven miles long by five miles wide and is the feeder of the canal. A branch canal connects it with the main canal and small vessels may traverse the lake in search of timber and shingles. Voyagers tell me that during heavy gales of wind a terrible sea is set in motion upon this shoal sheet of water making it dangerous to navigate. Bears are found in the fastnesses of the swamp. The Dismal Swamp Canal was dug in the old days of the wheelbarrow and spade. The Albemarle and Chesapeake Canal the entrance to which is sixteen miles from Norfolk on the right or east bank of the Elizabeth River and generally known as the new canal was commenced about the year 1856 and finished in 1859. It is eight miles and a half in length and connects the Elizabeth and North Landing rivers. This canal was dug by dredging machines. It is kept in a much better state for navigation so far as the depth of water is concerned than the old canal which from inattention is gradually shoaling in places. Consequently the regular steam packets which ply between Elizabeth City and Norfolk as well as steamers whose destinations are further north have given up the use of the Dismal Swamp Canal and now go round through Albemarle Sound up the North River thence by a six mile cut into Currituck Sound up North Landing River and through the new canal to the Elizabeth River and into Chesapeake Bay. The shores of the Elizabeth are low and are fringed by sedgy marshes while forests of second growth pine present a green background to the eye. A few miles above Norfolk the cultivation of land ceases and the canoeist traverses a wilderness. We are delighted to publish this classic book as part of our extensive Classic Library collection.
