The Hope and Despair of Human Bioenhancement Paschal M. Corby, 2019-12-23 The Hope and Despair of Human Bioenhancement is a virtual dialogue between Transhumanists of the Oxford School and the thought of Joseph Ratzinger Set in the key of hope and despair it considers whether or not the transhumanist interpretation of human limitations is correct and whether their confidence in the methods of human enhancement especially through biotechnology corresponds to genuine hope To this end it investigates the philosophical foundations of transhumanism in modernity's rejection of metaphysics the triumph of positivism and the universalism of the theory of evolution which when applied to anthropology becomes the materialist reduction of the human person Ratzinger calls into question this absolutization of positive reason and its limitation of hope to what human beings can produce naming it a pathology of reason a mutilation of human dignity and a facade of a world without hope In its place he offers a richer concept of hope that acknowledges our contingency and limitations

A Philosophy of Human Hope J.J. Godfrey, 2012-12-06 Few reference works in philosophy have articles on hope Few also are systematic or large scale philosophical studies of hope Hope is admitted to be important in people's lives but as a topic for study hope has largely been left to psychologists and theologians For the most part philosophers treat hope en passant My aim is to outline a general theory of hope to explore its structure forms goals reasonableness and implications and to trace the implications of such a theory for atheism or theism What has been written is quite disparate Some see hope in an individualistic often existential way and some in a social and political way Hope is

proposed by some as essentially atheistic and by others as incomprehensible outside of one or another kind of theism Is it possible to think consistently and at the same time comprehensively about the phenomenon of human hoping Or is it several phenomena How could there be such diverse understandings of so central a human experience On what rational basis could people differ over whether hope is linked to God What I offer here is a systematic analysis but one worked out in dialogue with Ernst Bloch Immanuel Kant and Gabriel Marcel Ernst Bloch of course was a Marxist and officially an atheist Gabriel Marcel a Christian theist and Immanuel Kant was a theist but not in a conventional way

Jeff Brannon, 2022-11-15 In a world full of suffering and death humans long for abundant life In this ESBT volume Jeff Brannon explores how the hope of life after death is woven throughout Scripture As we follow the biblical themes of creation fall and redemption we begin to understand the doctrine of resurrection and what it means for Christian faith and discipleship

The Fabric of Hope Glenn Tinder, 2001 This superb new volume is addressed to everyone interested in hope regardless of their religious or philosophical beliefs Glenn Tinder one of our most astute and creative thinkers probes the failure of modern secular hope and shows with great sensitivity and openness why the tenets of Christian faith offer a true and meaningful source for hope amid the widespread distress confusion and despondency of contemporary life From The Critics Jean Bethke Elshtain Glenn Tinder argues compellingly that modern despondency flows from a collapse of unreasonable optimism about our individual and collective prospects By contrast to despondency and brittle optimism Tinder calls for a renewal of hope Framed by Christian belief Tinder s elegant essay reaches out to appeal to all men and women troubled by our current condition A beautifully written and touching work Michael Novak Tinder s weighty essay on the nature spirituality and politics of hope offers an illuminating perspective on a central pillar of civilization Mary Ann Glendon A pristine intellectual and spiritual achievement by one of the most penetrating thinkers of our day Richard John Neuhaus With this essay Tinder once again vindicated his reputation as one of the most incisive thinkers and graceful writers working today His is a most powerful argument that only a hope that has come to terms with all the reasons for despair can sustain us into a future that we do not and cannot control Tinder s wisdom is in knowing that attention to first things requires facing up to last things

Hope as Atmosphere Xu Wang, 2022-07-11 In this thesis the phenomenon of fundamental hope is understood as atmosphere As a metaphor hope as atmosphere finds a new expression of hope other than the light metaphor that dominates the discourse of hope Hope is not only the light that illuminates the dark moments of life but also more fundamentally in the air it lies in the sphere in between and saturates each life experience and every living moment As an existential reality hope as atmosphere reveals our hopeful way of atmospheric co existence Communal love constitutes the ground of this hopeful co existence it keeps the hopeful co existence constantly refreshed and open guaranteeing more possibilities of hope On the basis of communal love hopeful co existence shows its ontological meaning as a way towards life The thesis of hope as atmosphere finds resonance and expression not only in Christian trinitarianly based understanding of

hope but also in the most central doctrine of co humanity in Confucianism A World of Grace Leo O'Donovan,1995-09-01 Organized as a companion volume to Karl Rahner s master work Foundations of Christian Faith this book now again available also provides the most useful introduction to his theology as a whole Each chapter presents a broad commentary on the corresponding chapter of Foundations beginning with Rahner s method and anthropology and concluding with his theology of the church and eschatology It includes a separate chapter on Rahner s moral thought Valuable for classroom or individual use this volume provides questions for discussion suggestions for further reading and an extensive glossary of specialized terminology Eschatology and Hope Anthony Kelly ,2006 In God's Image Peter A. Comensoli,2018-04-24 In God s Image Recognizing the Profoundly Impaired as Persons is a bold Catholic argument in defense of the profoundly impaired While a range of theological voices can now be heard speaking up on behalf of those who live their lives at the extremes of the human condition few voices have been explicitly Catholic Comensoli draws on the irreplaceable contribution of St Thomas Aquinas to forge an engagement with one of the leading thinkers in the theology of the disabled Professor Hans Reinders While recognizing the crucial contribution that Reinders has made Comensoli situates our perception of the cognitively impaired within the horizon of God s own image refusing a reduction of the substantialist position the Catholic tradition has always valued This is linked to the fresh and countercultural community life pioneered by Jean Vanier founder of the L Arche communities For Comensoli the profoundly impaired are persons whose personhood cannot be recognized outside of the condition of their impairment and through which God s Image is perceived in all its paradoxical implications

History, Hope, Human Language, and Christian Reality Everett Ferguson,1999 **Medicine and Hope: A Natural Theology of Human Caretaking** Richard Sherlock,2024-09-12 This book expands in a modest way the discussion of hope and does so by focusing on a field where it is at the core of care taking medicine The three great religious virtues of medieval theology were faith hope and love An enormous literature exists about faith and love but much less exists about hope Doctors often know what they want to do for a patient but do not know whether they are able to have a good result If they fail will the result be worse They must hope they can succeed In other cases they know what they can do but they are uncertain whether they should If they do not undertake action will the patient try to do it themselves with a much worse result Questions such as these raise the issue of the importance of hope in medicine This book builds on an insight from the first modern textbook of medical ethics Thomas Percival s 1803 classic Medical Ethics There Percival says that the doctor is a minister of hope to the sick This book analyses this concept which is central to the practice of medicine *Witness to Hope* George Weigel,2009-10-13 This definitive biography of Pope John Paul II explores his historic influence on the world stage Magnificent A tremendous achievement Washington Post As head of the Catholic Church from 1978 until his death in 2005 John Paul II was one of the world s most transformational figures With unprecedented cooperation from the Pope as well as the people who knew and worked with him throughout his life George Weigel offers a groundbreaking portrait of him as a

man a thinker and a leader whose religious convictions defined a new approach to world politics and changed the course of history The Pope played a crucial yet underexplored role in some of the most momentous events of his time including the collapse of European communism the quest for peace in the Middle East and the democratic transformation of Latin America With an updated preface this edition of Witness to Hope explains how this man from a far country did all of that and much more and what both his accomplishments and the unfinished business of his pontificate mean for the future of the Church and the world

Green,2018-12-12 Theories of Hope Exploring Affective Dimensions of Human Experience is a collection of essays dedicated to inquiring into the nature of hope in its multiple and varied guises Looking specifically at the ways in which some experiences of hope emerge within contexts of marginalization transgression and inquiry this volume seeks to explore the experiences of hope through a lens of its more challenging aspects

Resistant Hope Elaine G. Siemsen,2008-08-04 Many books on the market are designed to help us through times of suffering They all offer answers and proposals for why we suffer for what purpose is to be found in this experience and for how can we go forward after our life has been shattered Most approach the subject from the perspective of defending God Historically the great and not so great thinkers of the Christian community have demanded that followers not blame God for their suffering or hold God responsible for the pain that they have experienced Others have taught that God sends and uses pain to correct the wandering wayward believer I have found that the majority of these answers leave readers without hope Through several years of teaching about suffering and a concept in Christian theology called theodicy and through listening to the personal stories told through anger and tears I have struggled to recover teachings that open our hearts to God s promised hope Resistant Hope is the result of my faith journey This book does not set out to defend God God does not need my defense Resistant Hope is about how God works alone and through us to teach us to fight back when we stand at the abyss of despair Resistant Hope is a pathway to finding hope in the midst of the pain of daily life and at the moments of greatest grief and sorrow

Hope for the Oppressor Patrick Oden,2019-07-26 The liberating work of God calls the oppressed out of oppression and the oppressor out of oppressing The challenge in seeking a thorough liberation of oppressors is to help them understand their need for freedom and how to seek this freedom in their own contexts Patrick Oden provides a holistic biblical historical and theological analysis that diagnoses the underlying motivations and inclinations that lead to oppression Part one addresses the context of oppression in which most participants in oppression do not actively seek to harm others but are caught up in systems that tend toward the diminishment of others Part two examines the biblical and early Christian response to oppression discovering a thread that avoids condemning participation in society generally while also cautioning the people of God about being co opted by society Part three discusses how oppressors can withdraw from oppression through a constructive analysis of four contemporary theologians Wolfhart Pannenberg J rgen Moltmann Sarah Coakley and Jean Vanier each of whom contributes to a widening vision of liberated and liberating life in which the once oppressed and former oppressor can find peace together in community

Our Only Hope Margaret B.

Adam,2013-08-08 The most popular source of theological hope for American Christians is that of Jurgen Moltmann Preachers teachers and lay people reflect Moltmann s influence with their hope in a this worldly eschatology and a suffering God However an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic environmental and military crises This book explores Moltmannian hope and considers its costs before looking elsewhere for additional contributions from Thomas Aquinas s theological virtue of hope to nihilism and beyond in order to encourage the church to sustain and practice hope in Jesus Christ our only hope Theology of Hope Jürgen Moltmann,2021-10-08

Causing a considerable stir when it was first published in Germany in 1965 Theology of Hope represents a comprehensive statement of the importance for theology of eschatology and of an eschatological theology which emphasizes the revolutionary effect of Christian hope upon the thought institutions and conditions of life in the here and now J rgen Moltmann understands Christian faith essentially as hope for the future of humankind and creation as this has been promised by the God of the exodus and the resurrection of the crucified Jesus God s promise is the compulsory force of history awakening hope which keeps human beings unreconciled to present experience sets them in contradistinction to prevailing natural and social powers and makes the church the source of continual new impulses towards in Moltmann s own words the realization of righteousness freedom and humanity in the light of the promised future that is to come This new expanded edition of a theological classic includes his 2020 Charles Gore lecture A Theology of Hope for the 21st Century in which he offers a powerful reflection on the nature of hope in our current times
