With Stalin Against Tito Cominformist Splits In Yugoslav Communism:

With Stalin against Tito Ivo Banac, 2018-10-18 In 1948 in a series of moves that culminated in the famous Cominform Resolution Stalin struck at the Communist Party in Yugoslavia provoking the first split in the Communist state system With this long awaited book Ivo Banac becomes the first scholar to assess the domestic consequences of Yugoslavia's expulsion from the Cominform and his findings will radically revise some of our most basic assumptions about Tito's revolution Banac's subject is the nature and fate of those elements in the Yugoslav Communist party who were said to have sided with Moscow against their own country's leadership He demonstrates that the so called Cominformists represented as much as twenty percent of the party membership and had widely divergent aims He then reconstructs the history of the labyrinthine factional struggles that preceded and accompanied the 1948 split and shows that as always the national question played the dominant role in Yugoslav politics After identifying the members of the opposition and mapping its course Banac recounts the harsh repression of the movement He provides massive documentation of startling irony the conflict with Stalin played the same part in the shaping of Yugoslavia's political system as the collectivization and purges of the 1930s did in the history of Soviet communism

Creating a Socialist Yugoslavia Hilde Katrine Haug, 2012-03-30 When the Yugoslav communists came into power in 1945 they claimed to have introduced a socialist solution to the Yugoslav national question But what did this claim imply Creating a Socialist Yugoslavia Tito Communist Leadership and the National Question charts the approach pursued by Yugoslav communist leaders from their endorsement in 1935 of a strategy committing to the search for a socialist solution to the national question within a multinational Yugoslav context until the party disintegrated in 1990 Hilde Katrine Haug examines the impact of the communist leadership's aspirations to create a socialist Yugoslavia on their management of national conflict in the highly heterogeneous Yugoslav state entity

Eastern Europe Sabrina P. Ramet, 1998 Eastern Europe addresses the emergence of uncertain pluralism in the region following the disintegration of the communist regimes in 1989 Taking a broad historical approach the volume considers issues and challenges that have marked Eastern Europe from 1939 through World War II and the era of socialism up to the present Eight comprehensive country studies are augmented by detailed assessments of economic developments security issues religious currents cultural policies and gender relations in the region

Constructing Yugoslavia Vesna Drapac, 2010-01-27 Vesna Drapac provides an insightful survey of the changing nature of the Yugoslav ideal demonstrating why Yugoslavism was championed at different times and by whom and how it was constructed in the minds of outside observers Covering the period from the 1850s to the death of Tito in 1980 Drapac situates Yugoslavia in the broader international context and examines its history within the more familiar story of Europe in the nineteenth and twentieth centuries This approachable study also explores key themes and debates including The place of the nation state within the worldview of nineteenth century intellectuals The memory of war and commemorative practices in the interwar years Resistance and collaboration The nature of dictatorships Gender and

citizenship Yugoslavia's role from the perspective of the Superpowers Drawing on a wide range of sources in order to recreate the atmosphere of the period Constructing Yugoslavia traces the formation of popular perceptions of Yugoslavia and their impact on policy toward Yugoslavs It is essential reading for anyone with an interest in the history of this fascinating nation and its ultimate demise **Designing Tito's Capital** Brigitte Le Normand, 2014-07-16 A major influence was modernist Le Corbusier and his Athens Charter published in 1943 which called for the total reconstruction of European cities transforming them into compact and verdant vertical cities unfettered by slumlords private interests and traffic congestion As Yugoslavia transitioned toward self management and market socialism the functionalist district of New Belgrade and its modern living were lauded as the model city of socialist man The glow of the utopian ideal would fade by the 1960s when market socialism had raised expectations for living standards and the government was eager for inhabitants to finance their own housing By 1972 a new master plan emerged under Aleksandar ordevic fashioned with the assistance of American experts Espousing current theories about systems and rational process planning and using cutting edge computer technology the new plan left behind the dream for a functionalist Belgrade and instead focused on managing growth trends Beyond Boycotts Philippe Vonnard, Nicola Sbeti, Grégory Quin, 2017-12-18 Sport during Cold War has recently begun to be studied in more depth Some scholars have edited a book about the US and Soviet sport diplomacy and show ow the government of these two countries have used sport during this period notably as a tool of soft power during the Olympic games Our goal is to continue in this direction and to focus more on the sport field as a place of exchanges during the Cold War Regarding this point our aim is to show that there were events beyond boycotts many and that unknown connections existed inside sport Morevoer many actors were involved in these exchanges Thus it is important not only to focus on the action of States but also on private actors international sporting bodies and journalists considering that they acted around sport an apolitic field as it was tool to maintain links between the two blocs Our project offers a good opportunity for young scholars to present original research based on new materials notably the use of institutional or personals archives Morevoer it is also a step forward with a view to conduct research within a global history paradigm one that is still underused in sport academic fields Building Democracy in the Yugoslav Successor States Sabrina P. Ramet, Christine Hassenstab, Ola Listhaug, 2017-05-15 A comprehensive analysis of how the Yugoslav successor states have coped with the challenges of building democracy since 1990 Non-alignment and Its Origins in Cold War Europe Rinna Kullaa, 2012-03-13 After World War II Europe stood divided between two clearly defined and competing ideologies and systems of government Within this context of confrontation and mutual hostility between the United States and the Soviet Union Rinna Kullaa provides a unique analysis of the attempts of two European states to successfully avoid absorption into the Soviet bloc This book explores the relations of Yugoslavia and Finland both with the Soviet Union and with each other as they strove to preserve and create their independence Whilst at first attempting the neutralism strategy employed by Finland in the face of Soviet hostility Tito's

Yugoslavia instead led the way to the founding of the Non Aligned Movement in 1961 Kullaa s crucial analysis of the formative period of the Cold War will be of vital interest to students and researchers of International Relations European History the Cold War and diplomacy **Historical Dictionary of the Cold War** Joseph Smith,Simon Davis,2000-03-29 Joseph Smith and Simon Davis have captured the essence and madness of the balance of terror of the Cold War in the Historical Dictionary of the Cold War Covering an extensive period and much of the globe this dictionary presents a year by year chronology and alphabetical entries on civilian and military leaders crucial countries and peripheral conflicts the increasingly lethal weapons systems and the various political and military strategies While both authors are specialists in American foreign policy and diplomacy Smith has a particular interest in United States relations with Latin America and Davis in Anglo American relations This broader focus is helpful since it enables the authors to have a broader view of the Cold War and having studied and lived in Great Britain they view events from a more neutral perspective This and a conscious effort to maintain a scholarly balance enhances the objectivity of this volume Smith and Davis have produced an easy to use reference tool for both the history scholar and student Breaking Down Bipolarity Martin Previšić,2021-10-04 This book is aimed at presenting fresh views interpretations and reinterpretations of some already researched issues relating to the Yugoslav foreign policy and international relations up to year 1991 Yugoslavia positioned itself as a communist state that was not under the heel of the Soviet diplomacy and policy and as such was perceived by the West as an acceptable partner and useful tool in counteracting the Soviet influence **Yugoslavia, Nonalignment and Cold War Globalism** Zvonimir Stopić,Robert Niebuhr,David Pickus,2024-10-28 This book explores the emergence of Yugoslav globalism and how it was influenced by the early Cold War the changes once Yugoslavia established itself as a nonaligned leader and what the decline of Yugoslav globalism reveals about the waning Cold War and the history of internationalist diplomacy Although Yugoslavia was correctly defined as a regional power it is not true that Tito s influence was confined to the Balkans alone Even before the 1948 split with Stalin political elites and intellectuals imagined socialist Yugoslavia as a model for international comity and development Subsequently due to dramatic changes in the climate of international diplomacy Yugoslav globalist outreach found an audience and altered the course of early and fateful superpower stand offs In turn such globalism was a significant part of Tito s stewardship of nonalignment This is a story that has never been fully told Yugoslavia Nonalignment and Cold War Globalism fills this gap in discussions of the emergence of globalist discourse in the post 1989 era This volume is aimed at scholars and students of the Cold War and Tito s era in Yugoslavia as well as general readers of history interested in leadership and the role of regional powers in world politics The Means to Kill Gerrit Dworok, Frank Jacob,2015-12-03 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people s belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the

enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives **Communism and the Emergence of Democracy** Harald Wydra, 2007-02-08 Before democracy becomes an institutionalised form of political authority the rupture with authoritarian forms of power causes deep uncertainty about power and outcomes This book connects the study of democratisation in eastern Europe and Russia to the emergence and crisis of communism Wydra argues that the communist past is not simply a legacy but needs to be seen as a social organism in gestation where critical events produce new expectations memories and symbols that influence meanings of democracy By examining a series of pivotal historical events he shows that democratisation is not just a matter of institutional design but rather a matter of consciousness and leadership under conditions of extreme and traumatic incivility Rather than adopting the opposition between non democratic and democratic Wydra argues that the communist experience must be central to the study of the emergence and nature of democracy in post communist countries **Europe Reborn** Harold James, 2014-07-10 In the early twentieth century brutal nation states such as Mussolini's Italy Stalin's Russia and Hitler's Germany came to the fore and the twin evils of dictatorship and war ensured the rapid destruction of liberal democracy market economics and the international order In contrast the latter half was concerned with re thinking and re shaping these core values which still guide political life after the millennium Harold James analyses the failures and achievements of the twentieth century The demands of the post war period namely the place of Europe in a wider international order are also examined Features include Boxed Case Studies Maps Plates Figures Short Biographies Chronologies Statistical Appendix James lucidly argues that European societies today are dominated by the trend to converge around the principles of democracy market economics and international integration He shows that the stability brought by the gradual unwinding of the nation state and the end of left right politics have created a Europe reborn

Yugoslavia and the Soviet Union in the Early Cold War Svetozar Rajak, 2010-10-18 This book provides a comprehensive insight into one of the key episodes of the Cold War the process of reconciliation between Yugoslavia and the Soviet Union At the time this process had shocked the World as much as the violent break up of their relations did in 1948 This book provides an explanation for the collapse of the process of normalization of Yugoslav Soviet that occurred at the end of 1956 and the renewal of their ideological confrontation It also explain the motives that guided the two main protagonists Josip Broz Tito of Yugoslavia and the Soviet leader Nikita Sergeevich Khrushchev Based on Yugoslav and Soviet archival documents this book establishes several innovative theories about this period Firstly that the significance of the Yugoslav Soviet reconciliation went beyond their bilateral relationship It had ramifications for relations in the Eastern Bloc the global Communist movement and on the dynamics of the Cold War world at its crucial juncture Secondly that the Yugoslav Soviet reconciliation brought forward the process of de Stalinization in the USSR and in the Peoples Democracies Thirdly it enabled Khrushchev to win the post Stalin leadership contest Lastly the book argues that the process of Yugoslav Soviet

reconciliation permitted Tito to embark together with Nehru of India and Nasser of Egypt upon creating the new entity in the bi polar Cold War world the Non aligned movement This book will be of interest to students of Cold War History diplomatic history European history and International Relations in general Svetozar Rajak is a lecturer at the London School of Economics and Political Science He is the Managing Director of the LSE Cold War Studies Centre and is a member of the Editorial Board of the journal Cold War History

The formation of Croatian national identity Alex Bellamy, 2013-07-19 This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

The Cold War J.P.D. Dunbabin, 2014-01-14 The Cold War offers a brief but detailed treatment of one of the most complex eras of the 20th Century In this fully revised second edition J P D Dunbabin drawing on international scholarship and using much new material from communist sources describes a world in which covert operations could be as important as outright diplomacy soft power as influential as hard and in which competing ideologies ruled the hearts as much as the heads of the leaders in power Dunbabin s account is global in scope taking into account the importance of players beyond the superpowers and shedding light on the proxy conflicts such as those in Africa and the Middle East that if not caused by the continuing stalemate between the great powers were used as weapons within it

A History of the War in the Balkans R. Craig Nation, 2018-04-04 The Balkans is often described as a grim backwater a no man s land of world politics in the words of a post World War II study foredoomed to conflict springing from heterogeneity The stereotype is false but it has been

distressingly influential in shaping perceptions of the Balkan conflict and its origin By encouraging pessimism about prospects for recovery it may also make it more difficult to sustain commitments to post conflict peace building This book seeks to refute simplistic ancient hatreds explanations by looking carefully at the sources and dynamics of the Balkan conflict in all of its dimensions Eastern Europe 1945-1969 Ben Fowkes, 2014-05-12 Here is an essential short guide to the history of Eastern Europe under the early decades of communist rule The study explores the communists attempt to transpose a uniform economic and social system across the region copied from the Soviet model Dr Fowkes shows how this did not always succeed and he reveals the local variations which became more pronounced after the death of Stalin The book includes detailed analysis of the dramatic events in Poland and Hungary and in the assessment section there is a useful summary of the strengths and weaknesses of the communist model in its heyday It is an illuminating study full of maps and photographs as well as over 30 documents most previously unavailable in English which brings this complex subject alive and helps us to understand the special conditions the people of the region have faced in catching up with the West both in terms of material prosperity and more recently in the establishment of democratic political systems
