Without Conscience Book:

Without Conscience Robert D. Hare, 1999-01-08 Most people are both repelled and intrigued by the images of cold blooded conscienceless murderers that increasingly populate our movies television programs and newspaper headlines With their flagrant criminal violation of society s rules serial killers like Ted Bundy and John Wayne Gacy are among the most dramatic examples of the psychopath Individuals with this personality disorder are fully aware of the consequences of their actions and know the difference between right and wrong yet they are terrifyingly self centered remorseless and unable to care about the feelings of others Perhaps most frightening they often seem completely normal to unsuspecting targets and they do not always ply their trade by killing Presenting a compelling portrait of these dangerous men and women based on 25 years of distinguished scientific research Dr Robert D Hare vividly describes a world of con artists hustlers rapists and other predators who charm lie and manipulate their way through life Are psychopaths mad or simply bad How can they be recognized And how can we protect ourselves This book provides solid information and surprising insights for anyone seeking to understand this devastating condition

The Psychopath Whisperer Kent A. Kiehl, PhD, 2015-04-21 A compelling journey into the science and behavior of psychopaths written by the leading scientist in the field of criminal psychopathy We know of psychopaths from chilling headlines and stories in the news and movies from Ted Bundy and John Wayne Gacy to Hannibal Lecter and Dexter Morgan As Dr Kent Kiehl shows psychopaths can be identified by a checklist of symptoms that includes pathological lying lack of empathy guilt and remorse grandiose sense of self worth manipulation and failure to accept one s actions But why do psychopaths behave the way they do Is it the result of their environment how they were raised or is there a genetic component to their lack of conscience This is the question Kiehl a protégé of famed psychopath researcher Dr Robert Hare was determined to answer as he began his career twenty years ago To aid in his quest to unravel the psychopathic mind Kiehl created the first mobile functional MRI

scanner to study psychopaths in prison populations The brains of more than five hundred psychopaths and three thousand other offenders have been scanned by Kiehl's laboratory the world's largest forensic neuroscience repository of its kind Over the course of *The Psychopath Whisperer* we follow the scientific bread crumbs that Kiehl uncovered to show that the key brain structures that correspond with emotional engagement and reactions are diminished in psychopaths offering new clues to how to predict and treat the disorder In *The Psychopath Whisperer* Kiehl describes in fascinating detail his years working with psychopaths and studying their thought processes from the remorseless serial killers he meets with behind bars to children whose behavior and personality traits exhibit the early warning signs of psychopathy Less than 1 percent of the general population meets the criteria for psychopathy But psychopaths account for a vastly outsized proportion of violent crimes And as Kiehl shows many who aren't psychopaths exhibit some of the behaviors and traits associated with the condition What do you do if you discover your roommate or boss or the person you are dating has traits that define a psychopath And what does having a diminished limbic region of the brain mean for how the legal system approaches crimes committed by psychopaths A compelling narrative of cutting edge science *The Psychopath Whisperer* will open your eyes on a fascinating but little understood world with startling implications for society the law and our personal lives

Summary of Robert D. Hare's Without Conscience Everest Media,2022-06-10T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The three accounts that make up this chapter are drawn from a prison population where most of the studies of psychopathy take place and from everyday life where psychopaths are found not only in prison populations 2 I was hired as the prison psychologist in the early 1960s I had no experience or interest in clinical psychology but I was willing to learn The first client I saw was a tall slim dark haired man in his thirties named Ray 3 Ray was a psychopath who was transferred to the prison to be treated for his psychopathy He was constantly making demands on my time and when I tried to help him he tried to manipulate me into doing things for him 4 After I left the prison I was still making payments on a 1958 Ford that I could not really afford One of the officers there later to become warden offered to trade his 1950 Morris Minor for my Ford and take over my payments I agreed and because the Morris wasn't in good shape I had it repaired in the prison's auto shop
