Identification and Citizenship in Africa Séverine Awenengo Dalberto, Richard Banégas, 2021-05-09 In the context of a global biometric turn this book investigates processes of legal identification in Africa from below asking what this means for the relationship between citizens and the state Almost half of the population of the African continent is thought to lack a legal identity and many states see biometric technology as a reliable and efficient solution to the problem However this book shows that biometrics far from securing identities and avoiding fraud or political distrust can even participate in reinforcing exclusion and polarizing debates on citizenship and national belonging It highlights the social and political embedding of legal identities and the resilience of the documentary state Drawing on empirical research conducted across 14 countries the book documents the processes practices and meanings of legal identification in Africa from the 1950s right up to the biometric boom Beyond the classic opposition between surveillance and recognition it demonstrates how analysing the social uses of IDs and tools of identification can give a fresh account of the state at work the practices of citizenship and the role of bureaucracy in the writing of the self in African societies This book will be of an important reference for students and scholars of African studies politics human security and anthropology and the sociology of the state

Higher Education Pathways Ashwin,

Paul,Case, Jennifer M.,2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues Johannesburg ,2000 The Phone Book Telkom (Firm : South Africa),2007 Networking and Computation Thomas G. Robertazzi,Li Shi,2020-03-17 This useful volume adopts a balanced approach between technology and mathematical modeling in computer networks covering such topics as switching elements and fabrics Ethernet and ALOHA design The discussion includes a variety of queueing models routing protocol verification and error codes and divisible load theory a new modeling technique with applications to grids and parallel and distributed processing Examples at the end of each chapter provide ample material for practice This book can serve as an text for an undergraduate or graduate course on computer networks or performance evaluation in electrical and computer engineering or computer science *On the Battlefield of Merit* Daniel R.
