Wolfgang Tillmans Neue Welt:

Neue Welt Wolfgang Tillmans, 2013-02-01 Tillmans's latest project sets its sights on the world. Over the period of more than two decades Wolfgang Tillmans has explored the medium of photo imaging with greater range than any other artist of his generation. From snapshots of his friends to abstract images made in a darkroom without a camera or works made with a photocopier he has pushed the photographic process to its outer limits in myriad ways. For this collection of photos his fourth book with TASCHEN Tillmans turned away from the self-reflexive exploration of the photography medium that had occupied him for several years by focusing his lens on the outside world from London and Nottingham to Tierra del Fuego, Tasmania, Saudi Arabia and Papua New Guinea. He describes this new phase simply as trying out what the camera can do for me, what I can do for it. The result is a powerful and singular view of life today in diverse parts of the world seen from many angles. Says Tillmans: My travels are aimless as such, not looking for predetermined results but hoping to find subject matter that in some way or other speaks about the time I'm in. The book features a fascinating conversation between the artist and Beatrix Ruf, director of Kunsthalle Zürich. Limited edition of 500 numbered and signed copies. Wolfgang Tillmans Wolfgang

Tillmans, Julie Ault, Daniel Birnbaum, Russell Ferguson, Dominic Molon, Lane Relyea, Mark Wigley, 2006-01-01 Few artists have changed the manner in which photographic images are made, read and received over the past two decades as dramatically as German photographer Wolfgang Tillmans. b. 1968. One of the most important and distinctive artists to emerge in the 1990s, Tillmans's work is internationally recognized for its powerful reflections on the often overlooked objects and moments in everyday life. With images culled from the entirety of Tillmans's career, this generously illustrated book accompanies the artist's first retrospective exhibition in the United States and features the potent effects of his portraits, abstractions and structural and sculptural motifs. Essays by leading scholars examine the context of the German art and pop cultural scene in which Tillmans first began working in the late 1980s, his use of magazines as both venue and source materials, his unique approach to portraiture, his ability to create a sense of intimacy between the viewer and subjects ranging from his friends to cultural figures and heads of state, and his distinctive approach to presenting his images in displays and installations. A fascinating look at the breadth of Tillmans's career to date, including his most recent new work, this book demonstrates the renowned abilities of one of the art world's most revolutionary photographers. **Wolfgang Tillmans: DZHK Book 2018**

Wolfgang Tillmans, 2018-06-12 Presenting recent developments in Wolfgang Tillmans's portraiture and still lifes, *Wolfgang Tillmans: DZHK Book 2018* features a broad selection of new and recent works that respond to their surroundings while at the same time embodying a self-contained environment. Few artists have shaped the scope of contemporary art and influenced a younger generation more than Wolfgang Tillmans. Since the early 1990s his works have epitomized a new kind of subjectivity in photography, pairing intimacy and playfulness with social critique and the persistent questioning of existing values and hierarchies. Through his seamless integration of genres, subjects, techniques and exhibition strategies, he has expanded

conventional ways of approaching the medium and his practice continues to address the fundamental question of what it means to create pictures in an increasingly image saturated world Published on the occasion of Tillmans s exhibition at David Zwirner in Hong Kong in 2018 this fully bilingual catalogue juxtaposes pictures of intimacy and friendship with views and angles of the world at large An aerial view of the Sahara desert displays almost infinite detail while being monochromatic and near abstract in appearance In line with Tillmans s interest in exhibitions as amplifiers of a particular underlying perspective each of the works engages in an intricate system of relationships between its aesthetic elements subject and institutional setting Seen together they implicate the viewer as an active part of the dialogue The 2016 interview with author Allie Biswas of The Brooklyn Rail has been edited and expanded by the artist for this catalogue **River Delta Futures** Francisco-J. Hernández Adrián,Angelos Theocharis,2025-02-20 How are climate change weather related disasters food and water insecurity and energetic and infrastructural collapse narrated audiovisually in the most environmentally vulnerable areas of the Planet This book addresses this and related questions by adopting a local and transdisciplinary perspective on river deltas from different areas of the world River deltas have historically been hotspots for human civilizations as populations settled in their fertile grounds seeking resources and opportunities for prosperity Despite this the terrains and livelihoods of those who rely on them are under threat from human exploitation environmental degradation and rapidly accelerating climate change Inspired by the UN Sustainable Development Goals this book provides a range of focused audiovisual analyses of deltaic spaces Ranging across a variety of media including documentary filmmaking animation photography collaborative comic making participatory visual art practices soundwalking and film analysis it examines the role that contemporary audiovisual media play in forging global environmental imaginaries In doing so it adopts a transdisciplinary approach to the Blue Humanities from countries across the world including Canada Bolivia Brazil Greece Nigeria Senegal India Bangladesh Myanmar Thailand and Vietnam **Digital Image Systems** Claus Gunti,2020-01-07 In Digital Image Systems Claus Gunti examines the antagonizing reactions to digital technologies in photography While Thomas Ruff Andreas Gursky and J rg Sasse have gradually adopted digital imaging tools in the early 1990s other photographers from the D sseldorf School have remained faithful to film based technologies By evaluating the aesthetic and discursive preconditions of this situation and by extensively analyzing the digital work of these three photographers this book shows that the digital turn in photography was anticipated by the conceptualization of images within systems and thus offers new perspectives for understanding the digital revolution Wolfgang Tillmans Wolfgang Tillmans,2020 Wolfgang Tillmans has explored the medium of photo imaging with greater range than any other artist of his generation From early portraits of his friends to abstract images made in a darkroom without a camera or works made with a photocopier he has pushed the photographic process to its outer limits in myriad ways For this collection of photos his fifth book with TASCHEN Tillmans edited his previous four books into one stream of intersecting perspectives on life around the turn of the millenium Keeping his original

layouts intact he added some new works bringing the scope of the publication to the present day
