Women Caesars Guglielmo Ferrero:

The Women of the Caesars by Guglielmo Ferrero, 2021-08-03 Though the author's arch conservatism is evident almost from the very first line his take on the first imperial family of Rome is refreshing in that he refuses to take Tacitus and Suetonius most salacious and ridiculous accusations against the House of Caesar at face value. He attempts to discover the truth behind some of the most puzzling incidents related by the ancient historians. Why was Caligula insistent that his sisters be honored alongside with himself? Why did Agrippina the Younger consent to marrying her uncle? Why did Livilla starve herself to death? Ferrero looks at these questions and more from the angle of what the beginning of the Principate must have been like for the female members of the great family and the unique pressures on them. *The Women of the Caesars* Guglielmo Ferrero, 2015-05-02 The Women of the Caesars from Guglielmo Ferrero Italian historian, journalist and novelist 1871-1942. *The Women of the Caesars* (1911) Guglielmo Ferrero, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original. When Rome became the master state of the Mediterranean world and especially during the last century of the republic woman aside from a few slight limitations of form rather than of substance had already acquired legal and economic independence the condition necessary for social and moral equality. As to marriage the affianced pair could at that time choose between two different legal family regimes marriage with manus the older form in which all the goods of the wife passed to the ownership of the husband so that she could no longer possess anything in her own name or marriage without manus in which only the dower became the property of the husband and the wife remained mistress of all her other belongings and all that she might acquire. Except in some cases and for special reasons in all the families of the aristocracy by common consent marriages during the last centuries of the republic were contracted in the later form so that at that time married women directly and openly had gained economic independence. During the same period indirectly and by means of juridical evasions this independence was also won by unmarried women who according to ancient laws ought to have remained all their lives under a guardian either selected by the father in his will or appointed by the law in default of such selection. **The Women of the Caesars - Scholar's Choice Edition** Guglielmo Ferrero, 2015-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it.
