Case for Profit Maximization Robert White, 2020-04-01 The Moral Case for Profit Maximization argues that profit maximization is moral when businessmen seek to maximize profit by creating goods or services that are of objective value Traditionally profit maximization has been defended on economic grounds Profit economists argue incentivizes businessmen to produce goods and services In this view businessmen do not need to be virtuous as long as they deliver the goods It challenges the traditional defense of profit maximization arguing that profit maximization is morally ambitious because it requires businessmen to form normative abstractions and to cultivate a virtuous character In so doing the author also challenges the moral basis of corporate social responsibility Proponents of CSR argue that businessmen can do good while doing well This book argues that businessmen already do good by maximizing profit drawing upon the histories of the wheel the refrigerator and the shipping container as well as the biographies of J P Morgan John D Rockefeller and Thomas Edison to demonstrate the role of values in the creation of material goods and the role of the virtues in value creation The author challenges readers to rethink the relationship between profit value and virtue Capital and Capitalism Rogene A.

Buchholz, 2021-09-20 Capitalist societies need to undergo major change to provide for the material needs of all the people who work within the system not just the 1 percent They have become dysfunctional and need a different kind of orientation to continue in existence Instead of creating wealth which is what they are supposed to accomplish they have created nothing but debt for the past several decades and are now in serious trouble with regard to finding the wherewithal to keep on functioning as viable societies that can provide job opportunities for their workers and the promise of a better life in the future for their citizens The coronavirus pandemic has exposed just how many people live paycheck to paycheck and have not

been able to accumulate any kind of savings The 1 percent meanwhile have benefited greatly and have vastly increased their wealth over the past several decades This book does not advocate the need to turn to a form of socialism however to give most workers a chance at a decent life for themselves What is needed is a redefinition of capitalism to make it work for everyone Capital and Capitalism seeks to uncover various myths about capitalism that hinder our ability to change the system and discuss the task of redefining capitalism by examining where neo liberalism went wrong and what role restructuring the corporation along stakeholder lines can play in making capitalism more responsive to the entire society It will be of interest to researchers academics and students in the fields of business and society leadership and business ethics

Restructuring Capitalism Rogene Buchholz, 2017-04-21 The main theme of this book is that within contemporary capitalist societies a materialist outlook informed by science has triumphed creating the lack of a spiritual dimension to give meaning and purpose to the activities that are necessary for a capitalist society to function effectively Capitalist societies are in trouble and need to be restructured to provide for the material needs of all the people who work within the system not just the one percent but because of the lack of a spiritual connection with each other and with nature this is not likely to happen It has been said that society and the organizations within treat one another as objects to be manipulated in the interests of promoting economic growth and treat nature as an object to be exploited for the same purpose This way of treating each other and nature is consistent with the way a capitalist system has worked in the past and was supposed to enable it to function efficiently to provide a fulfilling and enriched life for all its adherents through growth of the economy However as capitalist societies have become dysfunctional they will need a different kind of orientation to continue in existence Restructuring Capitalism Materialism and Spiritualism in Business argues that what is needed is a new sense of a spiritualization of the self and its relation to others and to the establishment of a spiritual connection with nature in order for capitalism to be restructured to work for everyone and for the society as a whole Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 2012 List of members in v 1 **Academy of Management Learning & Education** ,2006 **The Ayn Rand Lexicon** Ayn Rand, 1988-01-01 A prolific writer bestselling novelist and world renowned philosopher Ayn Rand defined a full system of thought from epistemology to aesthetics Her writing is so extensive and the range of issues she covers so enormous that those interested in finding her discussions of a given topic may have to search through many sources to locate the relevant passage The Ayn Rand Lexicon brings together all the key ideas of her philosophy of Objectivism Begun under Rand s supervision this unique volume is an invaluable guide to her philosophy or reason self interest and laissez faire capitalism the philosophy so brilliantly dramatized in her novels The Fountainhead We the Living and Anthem The Intellectual Activist ,2000 **A Study Guide to Leonard Peikoff's Objectivism: the Philosophy of Ayn Rand** Gary Hull, 1991 *Subject Guide to Books in Print* ,1993 **Academy of Management Learning and Education** ,2009 *Learning Directory* ,1972 **Ayn Rand Universe** James
