Innovative Project Management with FIDIC Contracts Adriana Spassova, 2023-12-05 This book provides comprehensive guidance for the implementation of the legal requirements of FIDIC contracts with a detailed application of modern project management principles. It demonstrates that the FIDIC suites for works and services contain many tools for good project management which can complement the innovation needed today to guide sustainable development. The author's experience in construction management, construction law and the application of FIDIC contracts as a FIDIC engineer, a procurement claims consultant and a FIDIC accredited certified adjudicator and trainer underpins this unique and much needed book linking FIDIC contract management with project management practices and concepts. It is structured around project management knowledge areas and details not only the FIDIC works contracts Red, Yellow, Silver 2017, Reprint 2022, Emerald 2019, Gold 2008 and Green Book 2021 but also the project management requirements of the contract between the Employer and Engineer White Book 2017 and the FIDIC supply chain contracts and explains how these all interface in project governance. Linking the project management knowledge areas from the PMBOK and its Construction Extension with the FIDIC Body of Knowledge FBOK, the book provides recommendations for integration of best practice and innovations. It illustrates these processes with 54 flowcharts and 16 case studies as well as a railway scenario demonstrating the application of the book's recommended procedures. This will be an invaluable source of practical guidance for employers, contractors and engineers responsible for procuring and managing construction projects. It provides useful insight for technical, legal and

financial experts on the management of processes contracts and digital tools with recommendations on how to tailor and use the FIDIC contracts for project success

The FIDIC Conditions of Contract and Domestic Construction Law Franco Ferrari, Friedrich Rosenfeld, 2025-09-30 Parties to an international construction contract often use the standardized set of contract terms published by the International Federation of Consulting Engineers known as the FIDIC Conditions However FIDIC terms apply within the boundaries of domestic law which not only governs the formation interpretation and validity of FIDIC contracts but also fills gaps and shapes the expectations of the respective parties or decision makers in disputes Thus it is of great importance that parties and their counsel are thoroughly informed of how the applicable law applies to the contract a matter comprehensively covered in this country by country description and analysis of applicable law Seeking to mitigate the risk of disputes and detailing how to proceed when a dispute arises and with abundant reference to case law contributions by leading practitioners and academics in each country examine such issues and topics as the following cultural and legal differences between business actors how domestic law determines the formation interpretation and validity of FIDIC contracts how domestic law can be used to fill gaps and complement the FIDIC Conditions drafting particular conditions of contract A strong understanding of how FIDIC terms interact with domestic law helps parties assess their obligations during the contract s performance and resolve disputes globally Accordingly this systematic analysis of the interplay between the FIDIC Conditions and domestic construction law in numerous jurisdictions worldwide will prove of immeasurable value to international construction firms in house counsel and construction law professionals
