Une Pour Vietnam Alain Ruscio:

The First Vietnam War Mark Atwood Lawrence, Fredrik Logevall, 2007-03-07 How did the conflict between Vietnamese nationalists and French colonial rulers erupt into a major Cold War struggle between communism and Western liberalism To understand the course of the Vietnam wars it is essential to explore the connections between events within Vietnam and global geopolitical currents in the decade after the Second World War In this illuminating work leading scholars examine various dimensions of the struggle between France and Vietnamese revolutionaries that began in 1945 and reached its climax at Dien Bien Phu Several essays break new ground in the study of the Vietnamese revolution and the establishment of the political and military apparatus that successfully challenged both France and the United States Other essays explore the roles of China France Great Britain and the United States all of which contributed to the transformation of the conflict from a colonial skirmish to a Cold War crisis Taken together the essays enable us to understand the origins of the later American war in Indochina by positioning Vietnam at the center of the grand clash between East and West and North and South in the middle years of the twentieth century

Red Internationalism Salar Mohandesi, 2023-02-23 In Red Internationalism Salar Mohandesi returns to the Vietnam War to offer a new interpretation of the transnational left's most transformative years In the 1960s radicals mobilized ideas from the early twentieth century to reinvent a critique of imperialism that promised not only to end the war but also to overthrow the global system that made such wars possible Focusing on encounters between French American and Vietnamese radicals Mohandesi explores how their struggles did change the world but in unexpected ways that allowed human rights to increasingly displace anti imperialism as the dominant idiom of internationalism When anti imperialism collapsed in the 1970s human rights emerged as a hegemonic alternative channeling anti imperialism's aspirations while rejecting systemic change Approaching human rights as neither transhistorical truth nor cynical imperialist ruse but instead as a symptom of anti imperialism's epochal crisis Red Internationalism dramatizes a shift that continues to affect prospects for emancipatory political change in the future

Vietnam Courier, 1987 East-West Encounters Sylvie Blum-Reid, 2003 This book examines Franco Asian film and literary productions in the context of France's colonial history Includes analysis of such key film texts as Indochine Cyclo and The Lover

Protest in the Vietnam War Era Alexander Sedlmaier, 2022-01-15 This book assesses the emergence and transformation of global protest movements during the Vietnam War era It explores the relationship between protest focused on the war and other emancipatory and revolutionary struggles moving beyond existing scholarship to examine the myriad interlinked protest issues and mobilisations around the globe during the Indochina Wars Bringing together scholars working from a range of geographical historiographical and methodological perspectives the volume offers a new framework for understanding the history of wartime protest The chapters are organised around the social movements from the three main geopolitical regions of the world during the 1960s and early 1970s the core capitalist countries of the so called first world the socialist bloc and the Global South The final

section of the book then focuses on international organisations that explicitly sought to bridge and unite solidarity and protest around the world In an era of persistent military conflict the book provides timely contributions to the question of what war does to protest movements and what protest movements do to war **Republicanism, Communism, Islam** John T. Sidel, 2021-05-15 In *Republicanism Communism Islam* John T Sidel provides an alternate vantage point for understanding the variegated forms and trajectories of revolution across the Philippines Indonesia and Vietnam a perspective that is de nationalized internationalized and transnationalized Sidel positions this new vantage point against the conventional framing of revolutions in modern Southeast Asian history in terms of a nationalist template on the one hand and distinctive local cultures and forms of consciousness on the other Sidel s comparative analysis shows how in very different decisive and often surprising ways the Philippine Indonesian and Vietnamese revolutions were informed enabled and impelled by diverse cosmopolitan connections and international conjunctures Sidel addresses the role of Freemasonry in the making of the Philippine revolution the importance of Communism and Islam in Indonesia s Revolusi and the influence that shifting political currents in China and anticolonial movements in Africa had on Vietnamese revolutionaries Through this assessment Republicanism Communism and Islam tracks how these forces rather than nationalism per se shaped the forms of these revolutions the ways in which they unfolded and the legacies which they left in their wakes *PHAN THANH GIAN PATRIOTE ET PRÉCURSEUR DU VIETNAM MODERNE* Pierre Chanfreau, Phan Thi Minh Lê, 2002-12-01 Mandarin ob issant de trois rois obstin ment ferm s au monde ext rieur Phan Thanh Gian ne cessa de les inciter pratiquer une politique plus lib rale et plus ouverte sur l tranger mais fut rarement cout La duplicit des actions de son souverain fit le jeu des Fran ais qui en tir rent pr texte pour s emparer des trois provinces dont il avait la garde Ce livre d montre que Phan Thanh Gian fut bien qu incompris son poque un pr curseur des grands r formistes du XXe si cle Une telle tude des derni res ann es de Phan Thanh Ghian constitue sans doute la meilleure introduction l histoire du Vietnam moderne et celle de sa colonisation par la France
