**Kaleidoscope** Lawrence H. Fuchs, 2012-01-01 Winner of the John Hope Franklin Prize 1991 Winner of the Theodore Saloutos Award from the Immigration History Society 1993 Do recent changes in American law and politics mean that our national motto e pluribus unum is at last becoming a reality Lawrence H Fuchs searches for answers to this question by examining the historical patterns of American ethnicity and the ways in which a national political culture has evolved to accommodate ethnic diversity Fuchs looks first at white European immigrants showing how most of them and especially their children became part of a unifying political culture He also describes the ways in which systems of coercive pluralism kept persons of color from fully participating in the civic culture He documents the dismantling of those systems and the emergence of a more inclusive and stronger civic culture in which voluntary pluralism flourishes In comparing past patterns of ethnicity in

America with those of today Fuchs finds reasons for optimism Diversity itself has become a unifying principle and Americans now celebrate ethnicity One encouraging result is the acculturation of recent immigrants from Third World countries But Fuchs also examines the tough issues of racial and ethnic conflict and the problems of the ethno underclass the new outsiders The American Kaleidoscope ends with a searching analysis of public policies that protect individual rights and enable ethnic diversity to prosper Because of his lifelong involvement with issues of race relations and ethnicity Lawrence H Fuchs is singularly qualified to write on a grand scale about the interdependence in the United States of the unum and the pluribus His book helps to clarify some difficult issues that policymakers will surely face in the future such as those dealing with immigration language and affirmative action

**The Politics of Race and Ethnicity in the United States** Sherrow O. Pinder, 2010-04-15 This book examines and analyzes Americanization De Americanization and racialized ethnic groups in America It shows that America s cultural homogeneity which is based on whiteness has important consequences for racialized ethnic groups in America The question then of who is an American becomes overriding Although racialized ethnic groups remain unassimilated into the dominant culture the recognition and celebration of the non dominant cultures are important for multiculturalism However non dominant cultures are tied to cultural otherness Cultural otherness is looked upon as Un Americanness For this reason there is a need to move beyond multiculturalism Postmulticulturalism then would be the new possibility
