Law and the Quest for Gender Equality Margaret Thornton,2023-04-27 For centuries law was used to subordinate women and exclude them from the public sphere so it cannot be expected to become a source of equality instantaneously or without resistance from benchmark men that is those who are white heterosexual able bodied and middle class Equality furthermore was attainable only in the public sphere whereas the private sphere was marked as a site of inequality a wife children and servants could never be the equals of the master Despite their ambivalence about the role of law and its contradictions women and Others felt that they had no alternative but to look to it as a means of liberation This skewed patriarchal heritage the subtext of this collection of essays has continued to impede the quest for equality by women and Others It informs not only gender relations in the private sphere as illustrated by domestic violence and sexual assault but also the status of women in the public sphere Despite the fact that women have entered the paid workforce including the professions in large numbers they are still expected to assume responsibility for the preponderance of society s caring The essays show how maternal and caring roles which are still largely viewed as belonging to an unregulated private sphere continue to be invoked to detract from the authority of the feminine in the public sphere The promise of antidiscrimination legislation in overcoming the heritage of the past is also shown to be somewhat hollow

The measurement strategies, organizational learning tools, and best practices included here will assist institutions of higher education in building a flexible repertoire of institutional approaches to reciprocal empowerment and inclusion.

Faculty Careers and Work Lives: A Professional Growth Perspective KerryAnn O'Meara, Aimee LaPointe Terosky, Anna Neumann, 2008. This volume reviews and synthesizes recent research on faculty demographics, appointment types, work life, and reward systems, as well as major theoretical perspectives useful to researchers who study faculty work, careers, and professional development. In doing so, it advances and challenges current dialogue on faculty careers, notably by exploring a narrative of constraint that underlies much contemporary research and reform in higher education. Although highlighting the valuable ways whereby the narrative of constraint has illuminated the myriad barriers that can and too often do inhibit faculty careers, the authors assert that the theme of constraint obscures possibility, learning, agency, and growth. In emphasizing constraint, many contemporary research and reform efforts overlook faculty striving for growth. The volume reintroduces growth as an important consideration in higher education discourses of policy and practice, and with attention to four of its key aspects: learning, agency, professional relationships, and commitments. The authors discuss current research on faculty demographics, appointments, work, reward systems, along with theories used in research relative to these four aspects of growth. They also discuss how attention to faculty growth may open up new directions for policy, public communication, and future research on higher education faculty. This is the third issue in the 34th volume of the Jossey-Bass series *ASHE Higher Education Report*. Each monograph in the series is the definitive analysis of a tough higher education problem based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.

Choice, 2009. [The Devil, the Lovers, & Me](#) Kimberlee Auerbach, 2007. The author describes her survival of an abusive relationship, her mother's mid-life sexual proclivities, and the interference of friends and her father during a promising new romance, challenges that prompted her visit to an atypical tarot card reader.
