Manual of Uniform Course of Study for the Elementary Schools of Ohio (Classic Reprint) Ohio; State Commissioner of Com Schools, 2015-07-08 Excerpt from Manual of Uniform Course of Study for the Elementary Schools of Ohio This uniform course of study for the Elementary Schools of Ohio was written by representative school people who are expert in their special subjects The schools that have but one teacher for the eight grades will be greatly benefited if the Boards of Education instruct their teachers to follow the outlines as given in this manual The elementary teachers of the village schools where no definite course of study is followed will also obtain good results by following these outlines Many teachers fail because they cannot distinguish the important facts to be taught from the trivial and unimportant ones Methods of presentation must be understood and definitely planned by the teacher if the teacher obtains the best results therefore this manual is offered to the Boards of Education and teachers of Ohio for their use We do not recommend any certain text books to be used as this course was written in such a way that any text book written for the elementary schools in the different branches may be used The contributors of these courses in the different branches of study gave their time and efforts to the preparation of their work without compensation and I take this opportunity to thank them for their excellent contributions The course in Agriculture is taken from the Tentative Course and Bulletins previously issued I take pleasure in recommending this course of study for the elementary schools of Ohio About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

the country or not In laying out the work for the year it should not be presumed that all found in this course is to be studied or taught the material herein is suggestive throughout select from it what is wholesome and in harmony with the agricultural and home life of your several communities select only sufficient topics and amount of work as can be well done during the year it might be well to outline the work month by month so that too much may not be attempted four or five subjects properly planned for the year s work and well taught may be sufficient for the average school for agriculture and home craft are to have only their appropriate share of the time and efforts of the teachers and pupils the other studies must have theirs It will be well for the members of boards of education superintendents and teachers to keep at hand the name and address of the Supervisor of the district in which they live for he will endeavor to answer by mail the questions sent to him and will also be glad to come to any part of his district when called upon to render any aid possible Finally the teaching of this subject will have reached the stage most helpful to the boys and girls when home and school work together heartily and sympathetically the teaching must fail in its highest and best sphere if it does not touch and retouch the farm the farm home and all farm life let it be our constant aim to make a happier and a better citizenship while we are making better farmers and better home makers this being our ideal the teaching of this subject will find its best results and consummation in the homes and on the farm About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
