Pharmacy Education in the Twenty First Century and Beyond Ahmed Fathelrahman, Mohamed Izham Mohamed Ibrahim, Alian A. Alrasheedy, Albert Wertheimer, 2018-04-17. *Pharmacy Education in the Twenty First Century and Beyond: Global Achievements and Challenges* offers a complete reference on global pharmacy education along with a detailed discussion of future issues and solutions. This book begins with a brief overview of the history of pharmacy education covering all levels of education and styles of learning from undergraduate continuing professional education and methods for self learning and development. Teaching strategies such as team based learning, problem based learning and interdisciplinary education are also described and compared to conclude why certain pharmacy programs attract students and why educators prefer particular teaching strategies, assessment tools and learning styles. As a result, this book provides pharmacy educators, administrators, students and practitioners with a comprehensive guide to pharmacy education that will enable readers to choose the best approaches to improve reform or select a program based on worldwide experience and the latest available evidence and research. Describes and discusses the advantages and disadvantages associated with different types of pharmacy curricula, degree programs, styles of learning, teaching strategies and more. Edited and written by a team of authors to provide diverse global experiences and insights into what factors make a program attractive and successful. Covers important topics in pharmacy education such as quality and accreditation issues, the business of pharmacy education, leadership and similarities.

Management Science in Hospitality and Tourism Muzaffer Uysal, Zvi Schwartz, Ercan Sirakaya-Turk, 2017-03-03. *Management Science in Hospitality and Tourism* is a timely and unique book focusing on management science applications. The first section of the book introduces the concept of management science application in hospitality and tourism and related issues to set the stage for subsequent sections. Section II focuses on management science applications with conceptual pieces, empirical applications and best practices with examples coming from different parts of the world and settings. The last section ends with a chapter focusing on challenges and future research directions. This book goes beyond revenue management topics and presents a broad range of topics in management science applications as they relate to hospitality and tourism cases. Researchers and students in hospitality and tourism will find this book very useful since it contains chapters on data analytics, e-commerce and technology, revenue and yield management, optimization methods, resource allocation, goal programming, dynamic programming, Markov chain models, trends analysis and detection, measuring potential and attractiveness in tourism development, performance measures and use of indices in hospitality and tourism and more. There is a heightened interest in these areas of business applications in today's data-driven business environment and this book addresses that interest. This book is the only comprehensive text on management science applications in hospitality
