Universal Man Seven Maynard Keynes:

Universal Man Richard Davenport-Hines, 2015-05-12 John Maynard Keynes 1883 1946 was the twentieth century's most influential economist. His ideas inspired Franklin D. Roosevelt to launch the New Deal and instructed Western nations on how to ward off revolutionary unrest, economic instability, high unemployment, and social dissolution. Keynes was nothing less than the Adam Smith of his time; his *The General Theory of Employment, Interest and Money* became as important in the twentieth century as Smith's *The Wealth of Nations* was in the eighteenth. Now, in the long wake of the 2008 global economic collapse, Keynesian economics is once again shaping our world. In *Universal Man*, acclaimed historian Richard Davenport-Hines offers the first biography of Keynes that reveals the man in full. Like many Englishmen of his class and era, Keynes compartmentalized his life. Accordingly, Davenport-Hines treats Keynes in turn as a youthful prodigy, a powerful government official, an influential public man, a bisexual living in the shadow of Oscar Wilde's persecution, a devotee of the arts, and an international statesman of worldwide renown. Delving into Keynes's experiences and thought, Davenport-Hines shows us a man who was equally at ease socializing with the Bloomsbury Group as he was persuading heads of state to adopt his policies. Through Davenport-Hines's nuanced portrait, we come to understand not just the most enduringly influential economist of the modern era but one of the most gifted and vital men of our times: a disciplined logician with a capacity for glee who persuaded people, seduced them, subverted old ideas, and installed new ones. Engaging, learned, and sparkling with wit and insight, *Universal Man* is the perfect match for its brilliant subject.

Universal Man Richard Davenport-Hines, 2015-10-08 From the bestselling and award-winning author of *An English Affair*, a dazzlingly original thematic biography which throws fresh light on the greatest economist of the twentieth century. John Maynard Keynes is the man who saved Britain from financial crisis not once but twice over the course of two World Wars. He remains a highly influential figure nearly 70 years after his death. But who was he? In this entertaining biography, Richard Davenport-Hines gives us the man behind the economics, the connoisseur, intellectual, public official, and statesman who was equally at ease socialising with the Bloomsbury Group as he was persuading prime ministers and presidents. By exploring the desires and experiences that made Keynes think as he did, Davenport-Hines reveals the aesthetic basis of Keynesian economics and explores why the ideas of this Great Briton continue to resonate so powerfully today.

Growing Up Communist and Jewish in Bondi Volume 2 John Docker, 2020-10-15 Elsie Levy was born in the Jewish East End of London, came to Sydney with her family when she was 14, and joined the Communist Party of Australia when she was a young woman. In this book, her son explores her diasporic Jewish identity, both English and Australian, and in the process journeys into Jewish cultural histories. We meet important cultural figures such as Leonard Woolf, Freud, Schnitzler, Veza Canetti, and Ida Rubinstein. This journey leads also to English anti-Semitism, including shockingly Bloomsbury. In turning to Communism and marrying out, Elsie Levy became one of history's undutiful daughters.

The Athenaeum Michael Wheeler, 2020-09-11 A compelling history of the famous London club and

its members impact on Britain's scientific creative and official life. When it was founded in 1824 the Athenaeum broke the mold. Unlike in other preeminent clubs its members were chosen on the basis of their achievements rather than on their background or political affiliation. Public rather than private life dominated the agenda. The club with its tradition of hospitality to conflicting views has attracted leading scientists, writers, artists, and intellectuals throughout its history, including Charles Darwin and Matthew Arnold, Edward Burne-Jones and Yehudi Menuhin, Winston Churchill and Gore Vidal. This book is not presented in the traditional insular style of club histories but devotes attention to the influence of Athenians on the scientific, creative, and official life of the nation. From the unwitting recruitment of a Cold War spy to the welcome admittance of women, this lively and original account explores the corridors and characters of the club, its wider political, intellectual, and cultural influence, and its recent reinvention. *New Ideas from Dead Economists* Todd G. Buchholz, 2021-01-26. An entertaining and widely praised introduction to great economic thinkers throughout history, now in its fourth edition with updates and commentary on the 2020 great cessation, Trump and Obama economic policies, the dominance of Amazon, and many other timely topics. Through the teachings of Adam Smith, Thomas Malthus, Karl Marx, John Maynard Keynes, Milton Friedman, and more renowned economists, Todd Buchholz shows how age-old ideas still apply to our modern world. In this revised edition, Buchholz offers fascinating insights on the most relevant issues of 2021: climate change, free trade debates, the refugee crisis, growth and conflict in Russia and China, game theory, and behavioral economics. *New Ideas from Dead Economists*, found on the desks of university students, prime ministers, and Wall Street titans, is a riveting guide to understanding both the evolution of economic theory and our complex contemporary economy. **Titanic Legacy** Dan E.
