and hydroelectric plants of the late twentieth century Southern Historian [Fan's Guide to Gone With The Wind eBook Bundle](#) Taylor Trade Publishing,2014-12-03 For fans of Gone With the Wind on the 75th anniversary of the classic film this three volume eBook Collection pulls together two bestselling biographies one of author Margaret Mitchell and one of film star Vivien Leigh and combines them with The Complete Gone with the Wind Trivia Book to give readers a deep insight into the lives of those who created this timeless masterpiece *The Social Impact of Advertising* Tony Kelso,2018-09-14

Composed with a touch of the panache of a former advertising copywriter Kelso challenges readers to reflect on the social impact of advertising from multiple angles The book uniquely combines personal anecdotes with a penetrating look at some of the most critical perspectives toward the field advanced by media scholars A play on David Ogilvy's legendary Confessions of an Advertising Man the text disrupts the creative guru's account with a highly accessible critique of advertising suitable for classes in disciplines as various as cultural studies marketing media studies political science and sociology The book reflects the latest industry trends especially the migration from legacy to social media vehicles like Instagram and Snapchat Topics covered include a brief history of modern advertising in the United States advertising's influence on the so called non advertising content of the media the ideological themes advertising inadvertently delivers how advertising can privilege or marginalize various social constructions of identity the controversial practice of targeting children and how corporations often use advertising to superficially present a positive face while masking their profoundly darker sides Incorporating a media literacy approach Kelso also offers an insider's overview of the typical procedures advertising agencies take in strategizing conceptualizing and delivering campaigns *Queen of the Turtle Derby and Other Southern Phenomena* Julia Reed,2005-04-12 In classic Dixie storytelling fashion with a rare blend of literary elegance and plainspoken humor the inimitably charming staunchly Southern Julia Reed wends her way below the Mason Dixon line and observes many phenomena from politics religion and women to weather guns and what she calls drinking and other Southern pursuits To hear Reed tell it the South is another country She builds an entertaining and persuasive case using as examples everything from its unfathomable codes of conduct to its disciplined fashion sense And then there is Southern food which is an entire world apart Gumbo grits greens and of course fried chicken make memorable appearances in Reed's essays which will amuse delight and even explain a thing or two to baffled Yankees everywhere [Bitterly Divided](#) David Williams,2010-09 In an eye opening book that Booklist praised as impressively documented essential Civil War reading historian David Williams lays bare the myth of a united confederacy revealing that the South was in fact fighting two civil wars an external one that we know so much about and an internal one about which there is scant literature and virtually no public awareness Bitterly Divided skillfully shows that from the Confederacy's very beginnings white Southerners were as likely to have opposed secession as supported it and they undermined the Confederate war effort at nearly every turn In just one of many telling examples in this rich and surprising narrative history Williams shows that when planters grew too much cotton and tobacco

and exempted themselves from the draft plain folk called the conflict a rich man s war and rioted Many formed armed anti Confederate bands Southern blacks in what W E B DuBois called a general strike against the Confederacy resisted in increasingly overt ways escaped by the thousands and forced a change in the war s direction that led to emancipation This immensely readable and riveting new analysis takes on the Confederacy s popular image and reveals it to be like the Confederacy itself a fatally fractured edifice

[Realism for the Masses](#) Chris Vials,2010-04-13 *Realism for the Masses* is an exploration of how the concept of realism entered mass culture and from there how it tried to remake America The literary and artistic creations of American realism are generally associated with the late nineteenth century But this book argues that the aesthetic actually saturated American culture in the 1930s and 1940s and that the Left social movements of the period were in no small part responsible The book examines the prose of Carlos Bulosan and H T Tsiang the photo essays of Margaret Bourke White in Life magazine the bestsellers of Erskine Caldwell and Margaret Mitchell the boxing narratives of Clifford Odets Richard Wright Nelson Algren and the Hollywood boxing film radio soap operas and the domestic dramas of Lillian Hellman and Shirley Graham and more These writers and artists infused realist aesthetics into American mass culture to an unprecedented degree and also built on a tradition of realism in order to inject

influential definitions of the people into American popular entertainment Central to this book is the relationship between these mass cultural realisms and emergent notions of pluralism Significantly Vials identifies three nascent pluralisms of the 1930s and 1940s the New Deal pluralism of We re the People in *The Grapes of Wrath* the racially inclusive pluralism of Vice President Henry Wallace s *The People s Century* and the proto Cold War pluralism of Henry Luce s *The American Century*
