Changing the Goalpost of New Testament Textual Criticism Abidan Paul Shah,2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice

The Beginnings of Christianity Howard Clark Kee,2005-11-22 To understand the historical beginnings of Christianity requires one not only to examine the documents that the movement produced but also to scrutinize other evidence historical literary and archaeological that can illumine the socio cultural context in which Christianity began and how it responded to the influences that derived from that setting This involves not only analysis of the readily accessible content of the relevant literary evidence but also attention to the world views and assumptions about reality that are inherent in these documents and other phenomena that have survived from this period Attention to the roles of leadership and the modes of formation of social identity in Judaism and the continuing influence of these developments as Christianity began to take shape is important for historical analysis Distinguished New Testament scholar Kee performs such readings of the texts and communities in this dazzling study of early Christian origins In methodological terms the historical study of Christian Origins in all its diversity must involve three different modes of analysis 1 epistemological 2 sociological and 3 eschatological The first concerns the

way in which knowledge and communication of it were perceived The second seeks to discern the way in which the community or tradition preserving and conveying this information defined its group identity and its shared values and aims The third focuses on the way in which the group understood and affirmed its ultimate destiny and that of its members in the purpose of God These factors are interrelated and features of one mode of perception strongly influence details of the others but it is useful to consider each of them in its own category in order to discern with greater precision the specific historical features of the spectrum of facets which appear in the evidence that has survived concerning the origins of Christianity

Hagner, 2012-11-15 This capstone work from widely respected senior evangelical scholar Donald Hagner offers a substantial introduction to the New Testament Hagner deals with the New Testament both historically and theologically employing the framework of salvation history He treats the New Testament as a coherent body of texts and stresses the unity of the New Testament without neglecting its variety Although the volume covers typical questions of introduction such as author date background and sources it focuses primarily on understanding the theological content and meaning of the texts putting students in a position to understand the origins of Christianity and its canonical writings Throughout Hagner delivers balanced conclusions in conversation with classic and current scholarship The book includes summary tables diagrams maps and extensive bibliographies [An Introduction to the New Testament for Catholics](#) Joseph F. Kelly, 2016-03-24 The title of this book may be a bit puzzling a Catholic introduction to the New Testament The New Testament belongs to all Christians and the modern study of the New Testament has benefited from the contributions by scholars of all Christian denominations But there are questions and issues in the New Testament that are specific to Catholics such as the portrayal of Jesus mother Mary the commissioning of Peter and the Trinity In this volume Joseph Kelly provides an introduction to the New Testament for students and deals with the concerns of modern Catholics reading the Bible It's a book that Catholic teachers can use rather than a book that presents them with problems they have to explain Kelly helps readers to understand what modern scholars especially Catholic biblical exegetes say about the individual books because we cannot understand what role Jesus can play in modern life if we don't understand what he meant to the earliest Christians The New Testament tells the story of Jesus the most remarkable person who ever lived and of his disciples It includes some of the most famous narratives in the world and the most memorable words ever spoken It introduces us to great people who moved history and of those who took the difficult step of leaving the religions of their ancestors and families to become Christians Kelly shows that in looking at the New Testament we see real people communicating with us sharing their beliefs their fears and their hopes Distant yet familiar challenging yet comprehensible the New Testament is a precious heritage and one that Kelly recommends we must make our own Joseph F

Kelly PhD is professor of religious studies at John Carroll University in Cleveland Ohio He is the author of *The World of the Early Christians* *The Problem of Evil in the Western Tradition* *Responding to Evil* *The Origins of Christmas* and *The Collegeville Church History Time Line* published by Liturgical Press *Introduction to the New Testament* Stephen Hedges, 2017-12-26 Most people tend to think of the New Testament as a Christian work However the New Testament was written by nine Jews and they wrote before the separation between Judaism and Christianity The central focus of the New Testament is about the life and ministry of a Jew named Jesus of Nazareth and how His teachings should affect the lives of both Jews and Gentiles The writers of the New Testament thought of themselves as Jews who had encountered the Jewish Messiah that was promised in the Scriptures They did not consider themselves to be Christians Therefore special emphasis is placed in this book on understanding the New Testament in its Jewish context This requires an understanding of the Jewish expectations concerning the Messiah at the time that the New Testament was written and the historical and political situation in the first century before and after the birth of Jesus Each book of the new Testament is introduced with an emphasis on the identity of the author a profile of the intended audience an overview of the book the earliest textual evidence for the text and an outline of the structure of the book This book is actually the English text of a course taught at a theological institute in Bulgaria No prior knowledge of the New Testament is necessary to understand the material presented but at the same time though footnotes and endnotes even graduates of Bible schools will be able to have a better grasp of the purpose and principles that are taught in the New Testament There is an extensive appendix that list all the early manuscripts of the New Testament their approximate dates and a list of their contents A second appendix lists the early manuscript evidence for each chapter of the New Testament Please note that about 1/4 of this book is appendices also approximately 1/4 of the book is taken up with footnotes and endnotes So although the book contains about 200 000 words the actual text is only about 100 000 words **THE ENCYCLOPEDIA OF CHRISTIAN APOLOGETICS** Edward D.

stand firm in the truth and proclaim the gospel boldly New Testament Story David L. Barr, 1995 The thesis of this book is that every New Testament writing stands within a story even if it does not tell stories The approach allows readers to view the documents as vital elements in the lives of real persons The book maintains its focus on bringing the writings alive and shows how critical study enhances understanding of their meanings Its prime goal is teaching students to read these writings for themselves bridging the chasms of language history and culture that separate them from us The latest methods of research are utilized in this quest but the focus always remains on the New Testament documents *The International Revision Commentary on the New Testament* Philip Schaff, 1882
