

A detailed painting of a Civil War battle scene. In the foreground, a large American flag with 48 stars is being carried by soldiers. The soldiers are dressed in blue uniforms and are engaged in combat, with some holding rifles and others using bayonets. The scene is set in a dense forest with tall trees and a hazy, smoke-filled background. The overall tone is dramatic and historical.

War and Virtual War Jones Irwin, 2004 If the practice of war is as old as human history so too is the need to reflect upon war to understand its meaning and implications The Pre Socratic philosopher Heraclitus asserted in 600BC that War polemos is justice thus inaugurating a long philosophical tradition of consideration of the morality of war In recent times the increased specialisation of academic disciplines has led to a fragmentation of the thematic of war within the academy the topic of war is as likely to be addressed by sociologists cultural theorists psychologists and even computer scientists as it is by historians philosophers or political scientists This diversity of disciplinary approaches to war is undoubtedly fruitful in itself but can lead to an isolation of respective disciplinary analyses of war from each other In July 2002 at Mansfield College Oxford an inter disciplinary conference on war entitled War and Virtual War was held so as to redress some of this disciplinary isolationism and to forge an integrative dialogue on war in all its facets The papers in this volume were nominated by delegates as the most paradigmatic of the ethos of the original project and the most successful in achieving its aims of inter disciplinarity and critical dialogue

Understanding the China Threat Lianchao Han, Bradley A. Thayer, 2022-09-30. This book examines the contours of the Sino American confrontation and its future trajectories. It delineates the two major causes of the friction in Sino American relations: change in the balance of power in China's favor and the conflicting ideologies of the two states and emphasizes why it is imperative for the U.S. to hold on to its ideological principles. It demonstrates the ultimate and irreconcilable gap in the visions the two competitors have for international politics and consequently why conflict, certainly cold and very possibly hot, is inevitable. The authors also suggest measures which the U.S. can adopt to sustain its leadership and deter China's ideology and vision for the future of global politics. A significant contribution to the study of Sino American relations, the volume will be of interest to scholars and researchers of international relations, foreign policy, and U.S. and Chinese politics. It will be of great interest to think tanks, public policy professionals, and the interested general reader.

The American Civil War Adam Smith, 2025-12-31. The war in North America between 1861 and 1865 cost around three quarters of a million lives. Few societies in world history have lost a higher percentage of their military-aged men in battle than did the white South. Unsurprisingly, its scars lie deep on the American soul, especially so in the former Confederacy. Yet the war's historical significance is based on more than just the scale of the violence. It is the great American story. I am large, I contain multitudes, wrote Walt Whitman, the great poet of American democracy, but the war through which he lived, nursing devastatingly injured soldiers, contains even more multitudes than him. It is a story that can be told in a million different voices; it contains heroism and cowardice, craven injustice and heart-warming redemption. Above all, it is the great American story because it seems to matter so much. It was the crossroads of our being, in the words of one popular historian. One of the world's leading experts on the period, Dr. Adam Smith, tells the story of a war which is vital to any understanding of the great struggles and big historical forces that have shaped the modern world. And he looks at the great issues of the war: the morality of slavery, the leadership of Abraham Lincoln, the importance of freedom. If the Civil War is the crossroads of America's being, it is also, in a different sense, one of the major crossroads over which the world has travelled in its journey to the present.

The History of the Confederate War,

Its Causes and Its Conduct: A Narrative and Critical History (Complete) George Cary Eggleston, The war of 1861-65 was in fact a revolution Had the South succeeded in the purposes with which that war was undertaken it would have divided the American Republic into two separate and independent confederations of states the Union and the Southern Confederacy The North having succeeded no such division was accomplished but none the less was a revolution wrought as has been suggested in the introductory chapter of this work Familiarly and by way of convenience we are accustomed to call this The Civil war in contra distinction from those other wars in which the American power has been arrayed against that of foreign nations But the term Civil war as thus applied is neither accurate nor justly descriptive In all that is essential to definition this was a public and not a civil war and it is necessary to a just understanding of the struggle and its outcome to bear this fact in mind Otherwise the entire attitude and conduct of the Federal government toward its antagonist must be inexplicable inconsistent and wanting in dignity The Southern States asserted and undertook to maintain by a resolute appeal to arms their right to an independent place among the nations of the earth In the end they failed in that endeavor But while the conflict lasted they so far maintained their contention as to win from their adversary a sufficient recognition of their attitude to serve all the purposes of public rather than civil war They instituted and maintained a government with a legislature an executive a judiciary a department of state an army a navy a treasury and all the rest of the things that independent nations set up as the official equipment of their national housekeeping Not only did foreign powers recognize their right to make war not as rebels but as legitimate belligerents entitled to all the consideration that the laws of civilized war guarantee to nations but the United States government itself made similar recognition of the South's status as a power possessed of the right to make war
