Understanding Contemporary Korea from a Russian Perspective Anatoly Torkunov, Georgy Toloraya, Ilya Dyachkov, 2022-08-26 This book presents a comprehensive overview of political and economic developments as well as security issues in the Korean Peninsula during 2008-2020 from a Russian perspective. The authors offer a rich analysis of domestic affairs in both Korean states and the international situation they act in. The book's first section, *Diverging Development Paths*, analyzes the evolution of North and South Korea in the early twenty-first century. The next section, *The Nuclear Challenge*, assesses Seoul's and Pyongyang's foreign policy options within ever-changing domestic and international circumstances under the looming nuclear shadow. The final section, *Partnering with Russia*, presents an unprecedented first-hand account of Seoul's and Pyongyang's dealings with Moscow. The book provides a unique account with expertise from Russia, one of the four states directly involved in Korean affairs, providing insights on domestic and diplomatic decision-making of the two Korean states and international efforts to resolve the nuclear issue. **The Political Review**, 1919

The New York Times Guide to Essential Knowledge, Second Edition The New York Times, 2007-10-30 Introducing a comprehensive update and complete revision of the authoritative reference work from the award-winning daily paper, this one-volume reference book informs, educates, and clarifies answers to hundreds of topics. *The Korean Peninsula and Indo-Pacific Power Politics* Jagannath P. Panda, 2020-03-03 This book assesses the strategic linkages that the Korean Peninsula shares with the Indo-Pacific and provides a succinct picture of issues which will shape the trajectory of the Korean Peninsula in the future. This book analyses how critical actors such as the United States, China, Russia, and Japan are caught in a tightly balanced power struggle affecting the Korean Peninsula. It shows how these countries are exerting control over the Korean Peninsula while also holding on to their status as critical actors in the broader Indo-Pacific. The prospects of peace, stability, and unity in the Korean Peninsula and the impact of this on Indo-Pacific power politics are explored, as well as the contending and competing interests in the region. Chapters present country-specific positions and approaches as case studies and review the impact of power politics on stakeholders' relationships in the Indo-Pacific. The book also argues that the Korean Peninsula and the issue of denuclearization is of primary importance to any direction an Indo-Pacific Partnership may take. Bringing together scholars, journalists, and ex-diplomats, this book will be of interest to academics working in the field of international relations, foreign policy, security studies, and Asian studies, as well as audiences interested. **American Foreign Policy** Glenn P. Hastedt, 2023-02-06 World affairs are constantly in flux, so students need to be prepared not just to know what's happening in the headlines but how to make sense of those events. Hastedt's *American Foreign Policy* helps students develop the critical thinking skills needed to participate in debates about foreign relations today and throughout their lives. Displacement, Mobility, and Diversity in Korea Min Wha Han, Eun-Jeong Han, JongHwa Lee, 2024-10-04. This book examines the transformation and the dynamic reconfiguration of borders within Korea through inter/trans-disciplinary approaches. The book offers a comprehensive synthesis for the changing geo-political, cultural and economic dynamics among Korea's diasporas by applying the theme of diasporas within homeland as a theoretical lens. While diaspora remains a central theoretical perspective often highlighting 'out of home' experiences, the volume turns its gaze inward within homeland to trace internal displacement, mobility and diversity in Korea. In addition, this volume brings diverse scholarly traditions that bridge the diaspora with a wide range of theoretical lenses and methodological approaches such as intercultural sensitivity and adaptation, acculturation, ideology critique, alienation, national memory and postcolonialism. The book further explores the possibilities of coalition building between diverse communities. As a study of the notion of Korean identity and citizenship, this book will be of huge interest to students and scholars of Korean society and culture, Asian diasporas, cultural anthropology and ethnicity. **Library of Congress Subject Headings** Library of Congress, 2011. *Cybercrime and Digital Forensics* Thomas Holt, Adam Bossler, Kathryn Seigfried-Spellar, 2022-05-30. Sport, Le Troisième Millénaire International Olympic Committee,1991 [The Politics of Naming the Armenian Genocide](#) Vartan Matiossian,2021-09-23 This book explores the genealogy of the concept of Medz Yeghern Great Crime the Armenian term for the mass murder and ethnic cleansing of the Armenian ethno religious group in the Ottoman Empire between the years 1915 1923 Widely accepted by historians as one of the classical cases of genocide in the 20th century ascribing the right definition to the crime has been a source of contention and controversy in international politics Vartan Matiossian here draws upon extensive research based on Armenian sources neglected in much of the current historiography as well as other European languages in order to trace the development of the concepts pertaining to mass killing and genocide of Armenians from the ancient to the modern periods Beginning with an analysis of the term itself he shows how the politics of its use evolved as Armenians struggled for international recognition of the crime after 1945 in the face of Turkish protest Taking a combined historical philological literary and political perspective the book is an insightful exploration of the politics of naming a catastrophic historical event and the competitive nature of national collective memories

Trading with Pariahs Keith A. Preble,Charmaine N. Willis,2024-08-22 The past few decades have witnessed a proliferation of economic sanctions yet there seem to be few examples of sanctions meeting sender states goals Under what conditions do sanctions fail to change the behavior of so called international pariah states countries who violate various international norms This book examines the impact of economic sanctions on target states trading relationships through social network analysis a method that has rarely been applied to the study of sanctions Drawing on UN Comtrade data *Trading with Pariahs Trade Networks and the Failure of Economic Sanctions* shows that the imposition of sanctions can drastically change some states trading networks as states either find new trading partners in the case of North Korea or feel the sting of the sanctions from key trading partners like Iran Trading networks such as Myanmar s remain relatively stable over time as key trading partners refuse to impose sanctions Through the theory of weaponized interdependence Keith A Preble and Charmaine N Willis argue that the success or failure of sanctions to change target states behavior depends on who imposes the sanctions Sanctions imposed by the right sender states can be successful but also cannot rely solely on policies of isolation to achieve the goals of the sanctions
