Sastry, 2020-05-22 The process that led to the creation of the United Nations Convention on Contracts for the International Sale of Goods CISG and the convention itself have set a solid benchmark for commercial law unification since the 1980s The United Nations Commission on International Trade Law UNCITRAL formulated the CISG in an environment bedevilled by political as well as regional divisions which are typical of many of the United Nations UN bodies By and large the CISG sets down a uniform or standardised global goods sale law As at present 88 nation states have since ratified the CISG joining its global regime Arguably the CISG has succeeded markedly in moving the world towards the realisation of the largely elusive objective of standardised legal outcomes on a strictly international scale Owing to the existence of the CISG exporters are capable of steering clear of choice of law worries That is because the CISG presents conventional substantive rules that can be dependent upon by not only arbitrators but also the courts and contracting parties Clearly the CISG is a striking success **English Sales Law Vs. Vienna Convention On CISG** Dr. V.V.L.N. Sastry, 2020-05-04 This research provides an analysis of the comparison between the English sales law and the Vienna Convention on Contracts for the International Sale of Goods CISG The two laws have different features that explain the preference of commercial merchants towards the use of the English sales law It is in this context a secondary study subjected to narrative review into how do the features of the English sales law compare with the features of the CISG Act and what

competitive advantages and disadvantages do the English sales law and the CISG Act present over each other and what features distinguish English Sales Law from CISG to make international businesspersons prefer operating under the English sales law to operating under the CISG will help understand the intricacies that make English sales law a preferred choice The ambiguity of the CISG is one of the factors that reduces its attractiveness Uncertainty in the interpretation of CISG is one of the main reasons as to why it is unattractive in facilitating international commercial transactions In some instances the courts may issue contradictory interpretations of the law In addition CISG is a fragmentary law as opposed to English sales law which is a comprehensive body of law The paper also provides a recommendation on how to tackle some of the limitations inherent in CISG Lastly the findings of the study aid in improving the understanding of how best businessmen can make use of and work within the boundaries of the legal English Sales Law as well as of the CISG with an aim to bring about growth in businesses
