 Educational evaluation encompasses a wide array of activities including student assessment measurement testing program
 evaluation school personnel evaluation school accreditation and curriculum evaluation It occurs at all levels of education
 systems from the individual student evaluations carried out by class room teachers to evaluations of schools and districts to
 district wide program evaluations to national assessments to cross national comparisons of student achievement As in any
 area of scholarship and practice the field is constantly evolving as a result of advances in theory methodology and technology
 increasing globalization emerging needs and pressures and cross fertilization from other disciplines The beginning of a new
 century would seem an appropriate time to provide a portrait of the current state of the theory and practice of educational
 evaluation across the globe It is the purpose of this handbook to attempt to do this to sketch the international landscape of
 educational evaluation its conceptualizations practice methodology and background and the functions it serves The book's
 43 chapters grouped in 10 sections provide detailed accounts of major components of the educational evaluation enterprise
