Unholy Alliance Peter Levenda:

Unholy Alliance Peter Levenda, 2002-05-24 Engagingly written Unholy Alliance is a comprehensive popular history of the occult background and roots of the Nazi movement showing how the ideas of a vast international network of late 19th and early 20th century occult groups influenced Nazi ideology Levenda takes readers through the teachings of Madame Blavatsky Aleister Crowley the Thule Gesellschaft the occult secret society that formed the ideological heart of the early Nazi Party the Order of the Golden Dawn and the Order of the Eastern Temple and demonstrates how each influenced Nazi ideology He also details the expedition to Tibet of the Ancestral Heritage Research and Teaching Society comprised of the same SS officers who would later be involved in grisly medical experiments on concentration camp prisoners Levenda traces the Nazis movements as they continued their activities after the war or morphed into neo Nazi skinhead and satanic groups such as the Christian Identity and White Aryan Resistance movements Levenda s is not only a major work of investigative reporting but also the striking story of the unholy alliance between politics and religion or politics and occultism that has dominated events in Europe and the Americas since World War I with all its implications for continuing racial and religious violence in Europe Asia and the Americas

Kundalini Tales Richard Sauder, 1998-07 Sauder continues his studies of underground bases with new information on the occult underpinnings of the US space programme The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance Included are chapters on the secret space programme and a 130 page appendix of patents and schematic diagrams of secret technology and mind control devices

Black Terror White Soldiers David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is

incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history *The New Conspiracy Reader* Al Hidell, Joan D'Arc, 2004 Ever wondered if you re being told the whole truth about supernatural phenomena new developments in biological and chemical warfare and atrocities like Heaven s Gate This all new anthology features thirty one provocative and engrossing articles from the pages of Paranoia the world s most popular and respected conspiracy journal For the first time you ll get the real story behind the important cultural and political events that shape our world Compelling controversial and featuring a wealth of documentation and sources The New Conspiracy Reader will convince you that the truth is indeed out there and may be stranger than you ever imagined Book jacket **Grid of the Gods** Joseph P. outlandish conspiracy theories involve aliens and Nazis underground bases and mind control technology They range from sinister tales of malevolent reptilian beings infiltrating our government to fears of the New World Order rounding up patriotic Americans and putting them into internment camps These stories and their underlying concerns have a long history in the U S and have often been bolstered by revelations of real conspiracies and cover ups by private and public entities This book examines conspiracy theories and the narratives constructed by those who believe and propagate them providing a unique view of U S history and highlighting fears both founded and unfounded

The Esoteric Wagner Michael Besack, 2004 Wagner s Ring is one of the most complex dramatic creations of modern times and its stage presentation requires impossible resources It also demands an educated audience without which there is not much justification for a performance The tetralogy is full of difficult narratives and dialogues that make a prior in depth reading of the libretto a must It is not just a matter of figuring out the plot as in other operas but of exploring the many levels of meaning through which the Ring unfolds In addition the cycle incorporates esoteric themes that have seldom been discussed in connection with Wagner This background is unknown territory to most people and it is unrealistic to expect sudden enlightenment from the Ring s libretto alone Every classical journey deals with the promise of a homecoming and it is therefore not surprising that Wotan the main protagonist in the Ring eventually reemerges in the Land of the Grail where he is converted into Titurel by Wagner s poetic imagination Ernest Newman Wagner s quintessential biographer had already noted this odd development but did not pause long enough to consider the startling implications One should not look at Wagner in disconnected narrow ways The dismal level of today s intellectual discourse on Tragedy makes it impossible to do justice to the composer s apocalyptic vision In that context it is important to address the increasingly popular contention that Wagner was Hitler s spiritual father and that the Ring is a

dangerous anti Semitic fantasy The Holocaust is indeed tragic but its reduction to a moral failure on the part of Germanic culture understates the metahistorical significance of what actually happened C J Jung once tried to tackle these issues directly in his study of the Wotan archetype 1936 but his analysis has since been buried under the weight of more detailed but less perceptive commentaries A vigorous reassessment is long overdue [Restoring the Golden Age](#) Dan Edelstein,2004

The Hitler Legacy Peter Levenda, 2014-11-08 More than thirty years after his first investigation of the Nazi underground Peter Levenda has returned again and again to his quest for the truth about the true character of the Nazi cult and the people and political movements it has influenced in the decades since the end of World War II The wide sweep of this investigation moves from a Ku Klux Klan headquarters in Reading Pennsylvania to the New York City office of the Palestine Liberation Organization from the apartment of a notorious neo Nazi leader to an Islamic boarding school headquarters of the man who ordered the Bali Bombings When Levenda uncovered the existence of a Nazi underworld in Asia the nexus of religion politics terrorism and occult beliefs was revealed to be the real domain of the threat to global security Meticulously researched from both archival material and declassified intelligence agency files to personal interviews and investigations undertaken in Asia Europe and Latin America *The Hitler Legacy* is the story of how the mistakes of the 20th century have come home to roost in the 21st This book will challenge the conventional thinking about such subjects as the Muslim Brotherhood and Islamist terrorism and even about the alleged death of one of history s most infamous killers Adolf Hitler
