Taylor,1924 **Science Education at the Nexus of Theory and Practice** ,2008-01-01 This book is a compilation of
papers from the inaugural International Science Education Conference held at the National Institute of Education Singapore
The title Science Education at the Nexus of Theory and Practice reflects a pressing yet ongoing concern worldwide to
integrate theory and practice in science education and the reader will find something of interest to both science education
practitioners and researchers The editors have decided to engage in written dialogue before each of the three sections to
enrich the experience Divided into three key sections A Concepts conceptual change and science learning B science teacher
development and learning and C access to science accessible science the 19 chapters will engender food for thought and in
all likelihood transform classroom practices All the contributors here provide important insights into the diverse education
systems cultural backgrounds and societal norms through which science education can be realized **Journal** ,1924
