Emerging Governance and Economic Issues in Construction Industry in Malaysia (Penerbit USM)

Omar Osman, 2014-11-25 The future of construction industry in a globalized borderless technology driven decade is based upon a number of drivers The book is written to provide a platform for analysis of the construction industry on some governance and economic issues deemed important and can affect the way construction industry will develop and grow in a particular country particularly Malaysia The reference to Malaysia may be similar to some but not all countries The topics covered include governance role of state and international organizations innovations markets and privatizations as well as sustainability The book should be a basis for future works or research in some of the areas discussed and should provide a specific reading for students at postgraduate and undergraduate levels Universiti Sains Malaysia Penerbit Universiti Sains Malaysia *The United Nations in The Era of Globalization* Mazid Reza Momeni, 2021-08-03 The United Nations as a world organization has gone through different epochs of time facing various challenges and changes since its inception While it has done a lot in saving humankind in its diverse fields of activities yet it has failed to function legitimately and effectively according to the principles of its Charter which have brought its existence and relevance under criticism and questioning The UN after the end of the Cold War for a short period of time gave a new hope to the world that it would now work genuinely according to its member states will in an environment of cooperation and understanding between its member states for common goals However right after the collapse of the communist bloc and the end of capitalist communist antagonism the process of globalization already in force gained momentum which brought about a new era in the UN's life affecting international relations and the world politics too The emergence of globalization has created many new challenges not only to

the individuals and countries but also to the international institutions and global organizations This study is an attempt to analyze the real purpose of the emergence of globalization as a policy and its effects on the UN in particular and the international political economic relations in a wider context CONTENTS Preface V Acknowledgement VII Abbreviations XI Chapter I Introduction 15 Chapter II Bretton Woods Institutions and Globalization Their Impact on the UN 61 Chapter III The Global Compact Project 117 Chapter IV Millennium Development Goals and The Reform Initiatives 155 Chapter V Civil Society Organizations and the United Nations 218 Chapter VI Conclusion 265 Appendix 283 Select Bibliography 284 Index 295
